Standard Operating Procedure (SOP)

1. Suggestion Management

1.1 Suggestion form

1.2 Searching the titles in OPAC

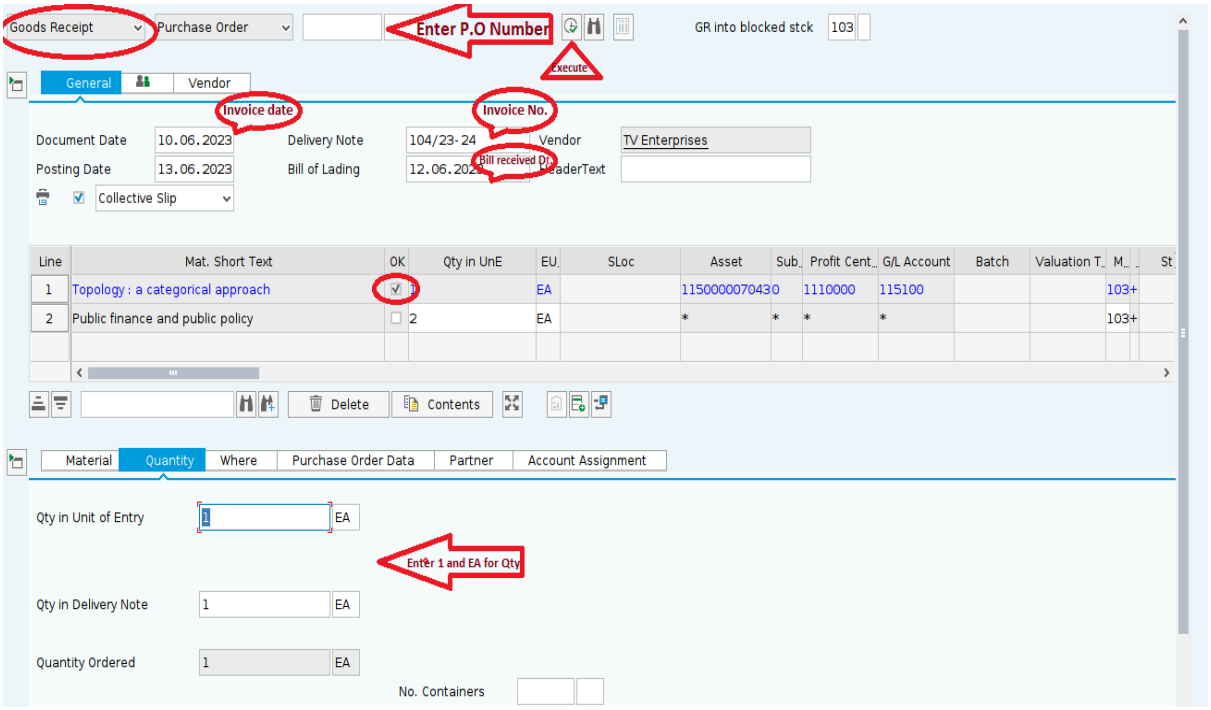

1.3 Suggestion entry Koha

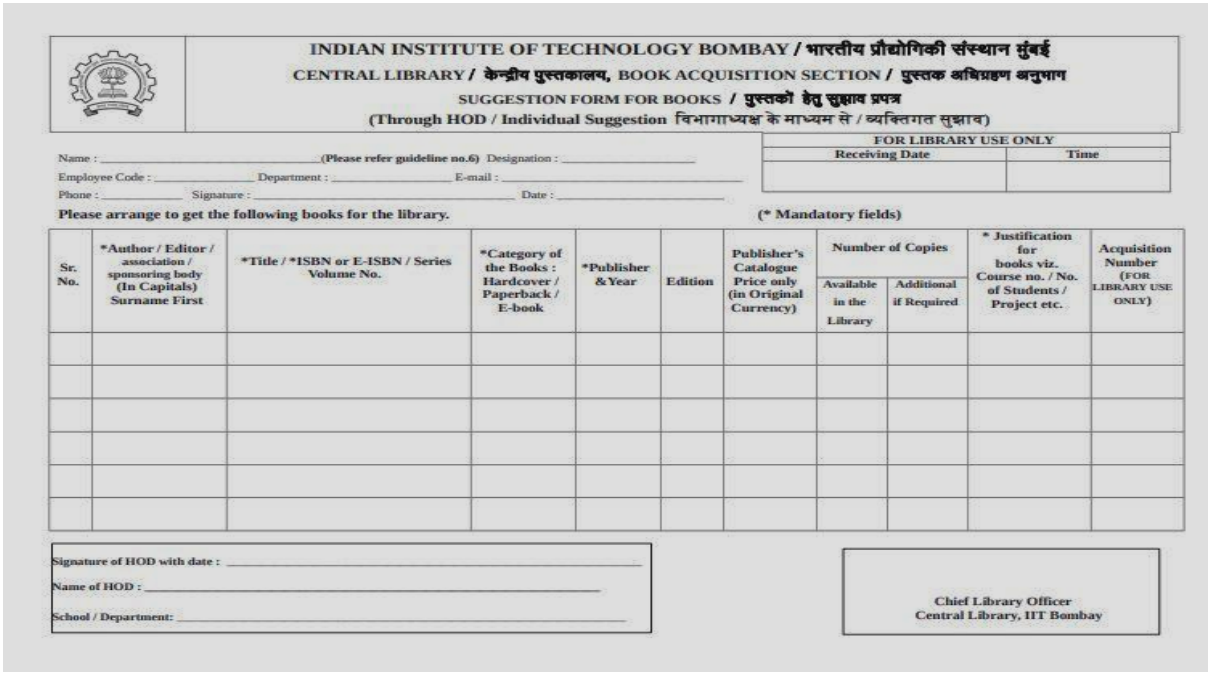

1.4 Inviting Quotations

1.5 Asset ID Generation

1.1 Suggestion form

- Form(s) or email(s) with book suggestions were received from the faculty or officers.
- Check the suggestion form(s) to determine whether it is appropriately filled out, including titles, author, ISBN, and the signature of the HOD. This assessment is designed to ensure that certain essentials are covered.

INDIAN INSTITUTE OF TECHNOLOGY BOMBAY / भारतीय प्रौद्योगिकी संस्थान मुंबई

CENTRAL LIBRARY / केन्द्रीय पुस्तकालय, BOOK ACQUISITION SECTION / पुस्तक अधिग्रहण अनुभाग

SUGGESTION FORM FOR BOOKS / पुस्तकों हेतु सुझाव प्रपत्र

(Through HOD / Individual Suggestion विभागाध्यक्ष के माध्यम से / व्यक्तिगत सुझाव)

FOR LIBRARY USE ONLY

Receiving Date | Time

Name : _____ (Please refer guideline no.6) Designation : _____

Employee Code : _____ Department : _____ E-mail : _____

Phone : _____ Signature : _____ Date : _____

Please arrange to get the following books for the library. (* Mandatory fields)

Sr. No.	*Author / Editor / association / sponsoring body (In Capitals) Surname First	*Title / *ISBN or E-ISBN / Series Volume No.	*Category of the Books : Hardcover / Paperback / E-book	*Publisher &Year	Edition	Publisher's Catalogue Price only (in Original Currency)	Number of Copies: Available in the Library	Number of Copies: Additional if Required	* Justification for books viz. Course no. / No. of Students / Project etc.	Acquisition Number (FOR LIBRARY USE ONLY)

Signature of HOD with date : _____

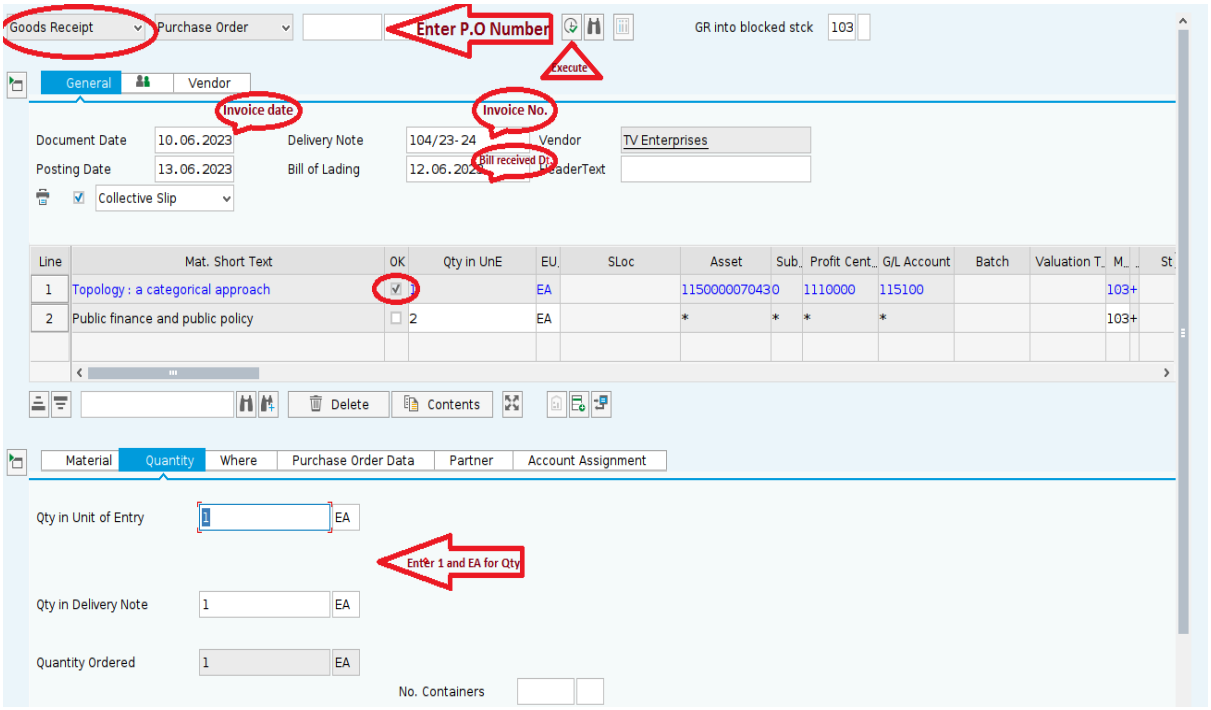

Name of HOD : _____

School / Department: _____

Chief Library Officer
Central Library, IIT Bombay

1.2 Searching the titles in OPAC

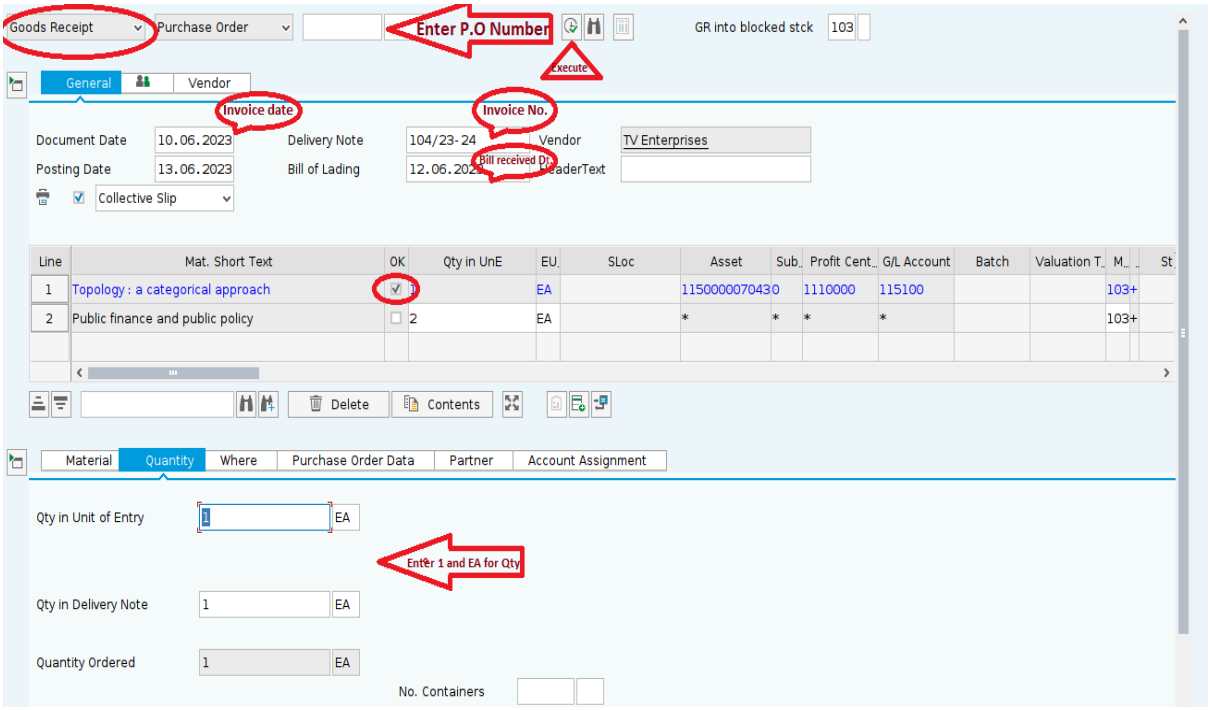

- Check the suggestion(s) title in the OPAC to see whether it is available.
    - Obtain confirmation from the faculty to purchase an additional copy if it is listed in the OPAC.
    - If not, we can proceed to the suggestion entry.

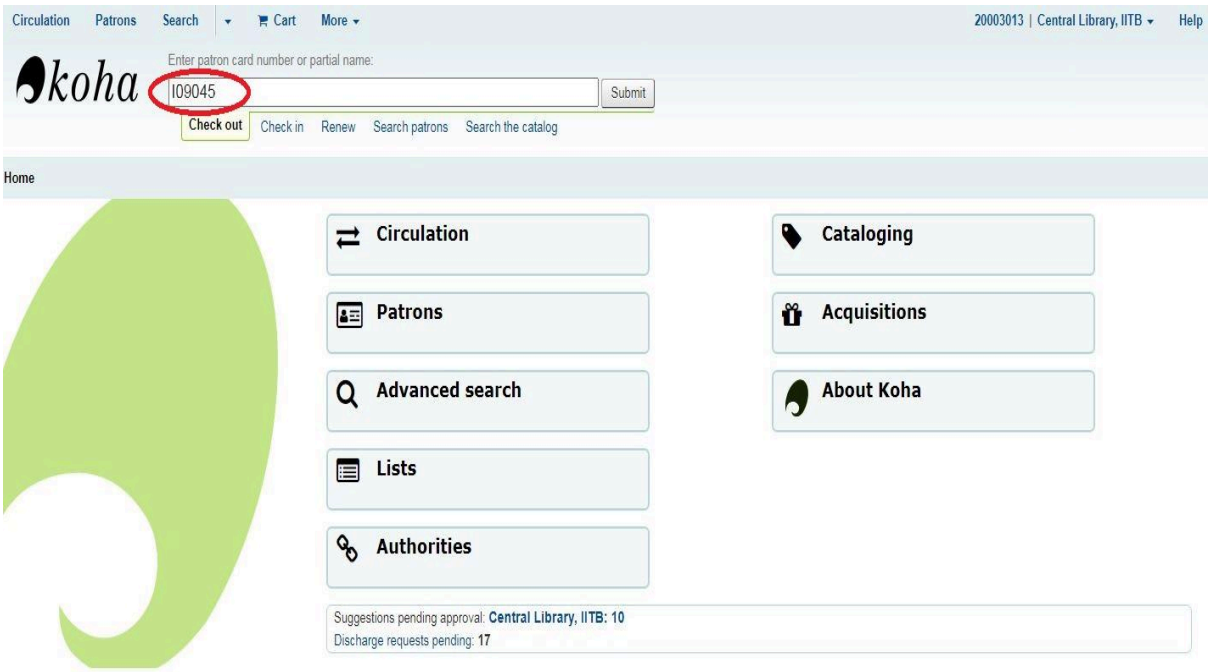

- Check the *publisher's website* for bibliographical information and the book pricing. (Titles for suggestions are kept in a *separate spreadsheet*.)
- Once the acquisition is confirmed, begin the **suggestion *entry in Koha***.

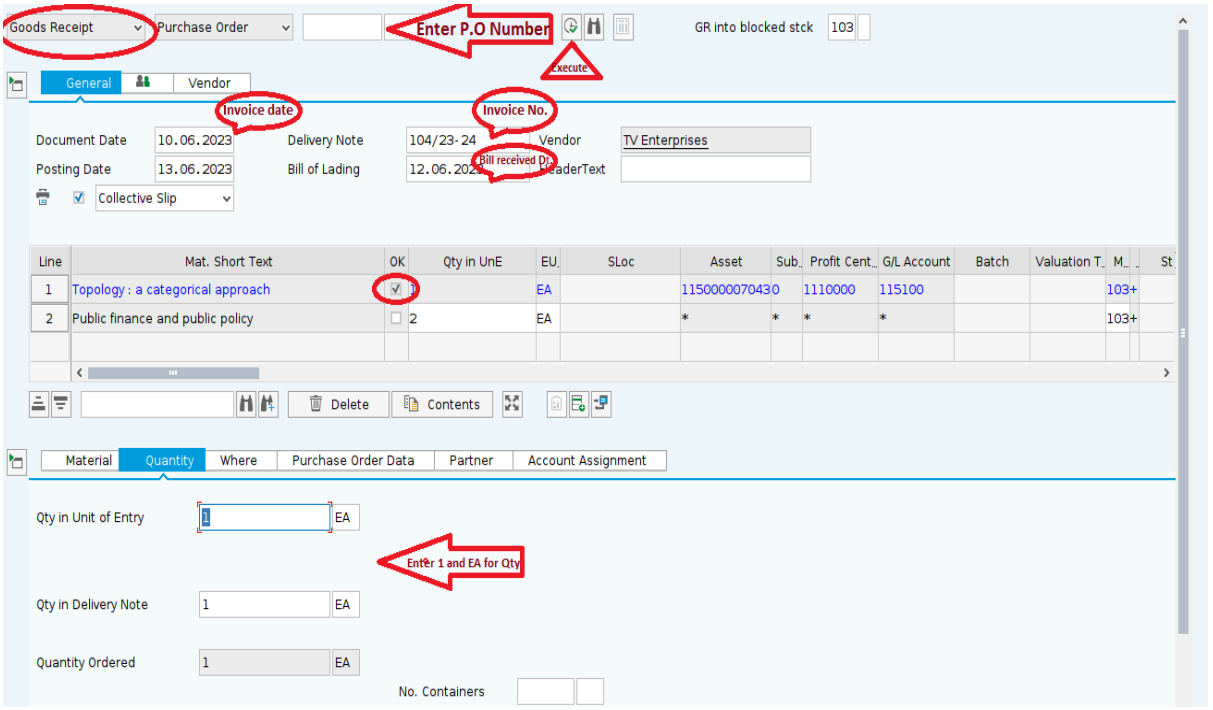

1.3 Suggestion entry in Koha

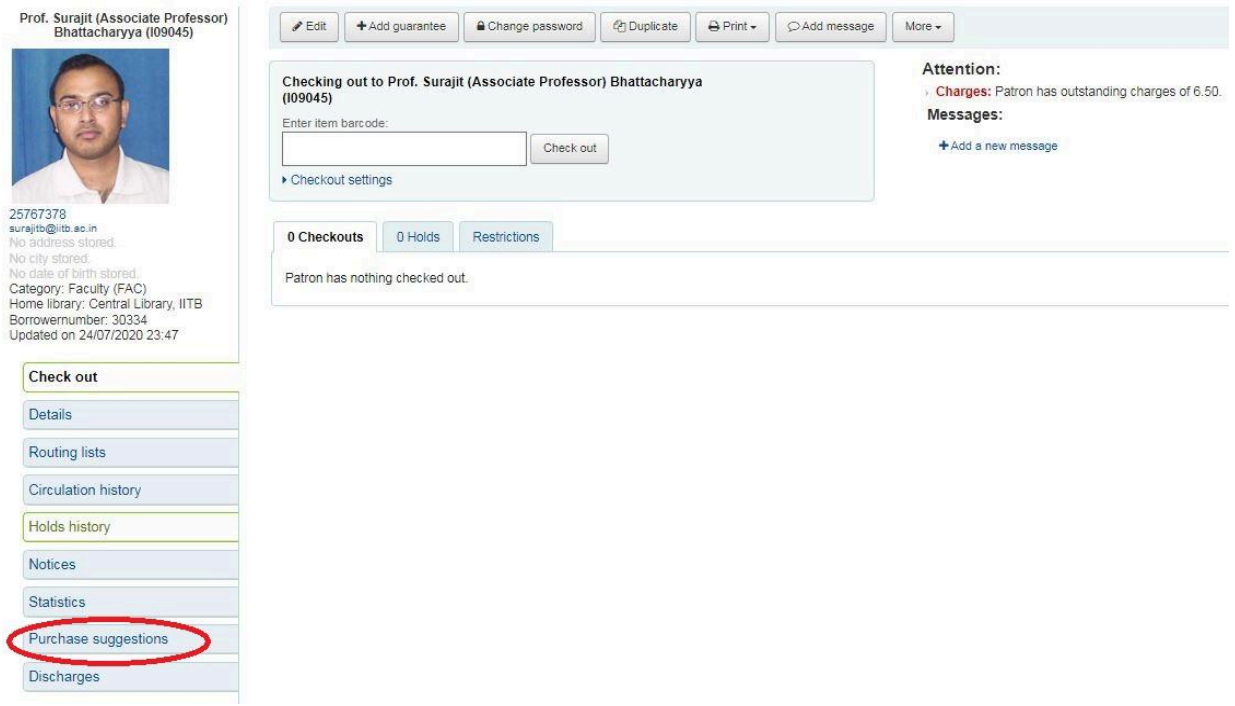

- After the above procedures, visit the Koha LMS and enter the faculty *employee code* (which can be found in the proposal form).

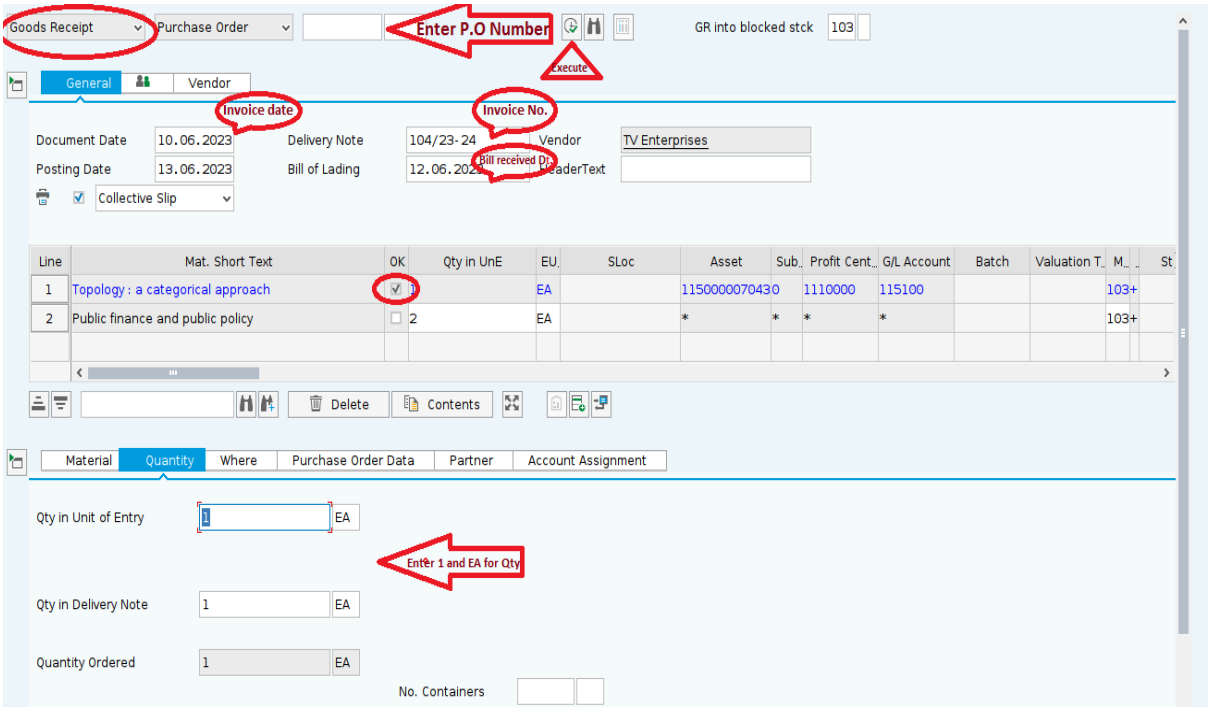

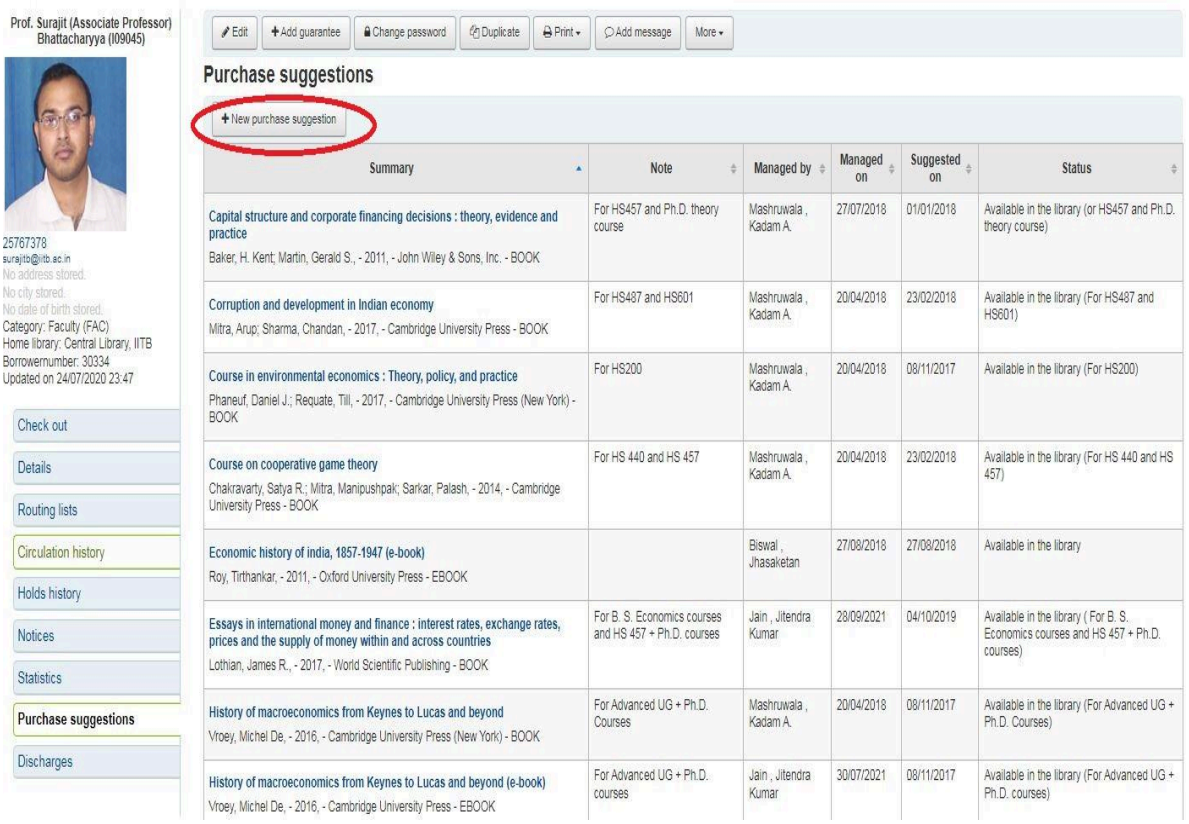

- The faculty profile opens, and choose the tab/module for "*purchase suggestions.*"

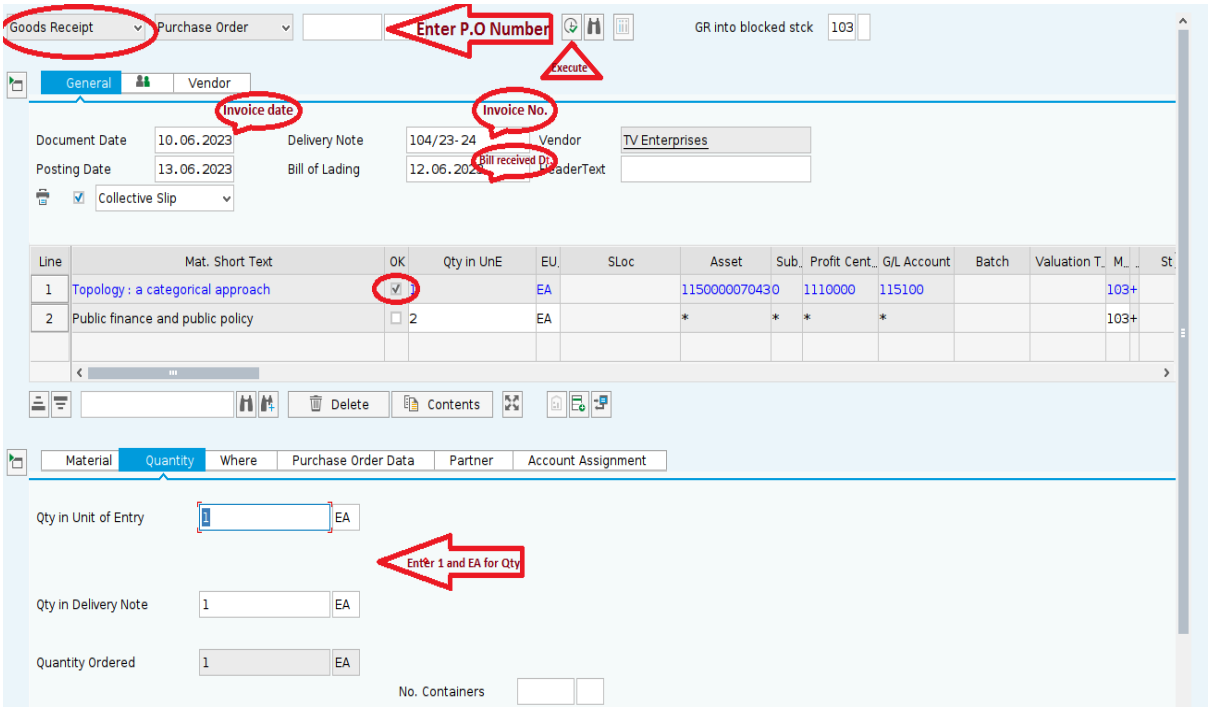

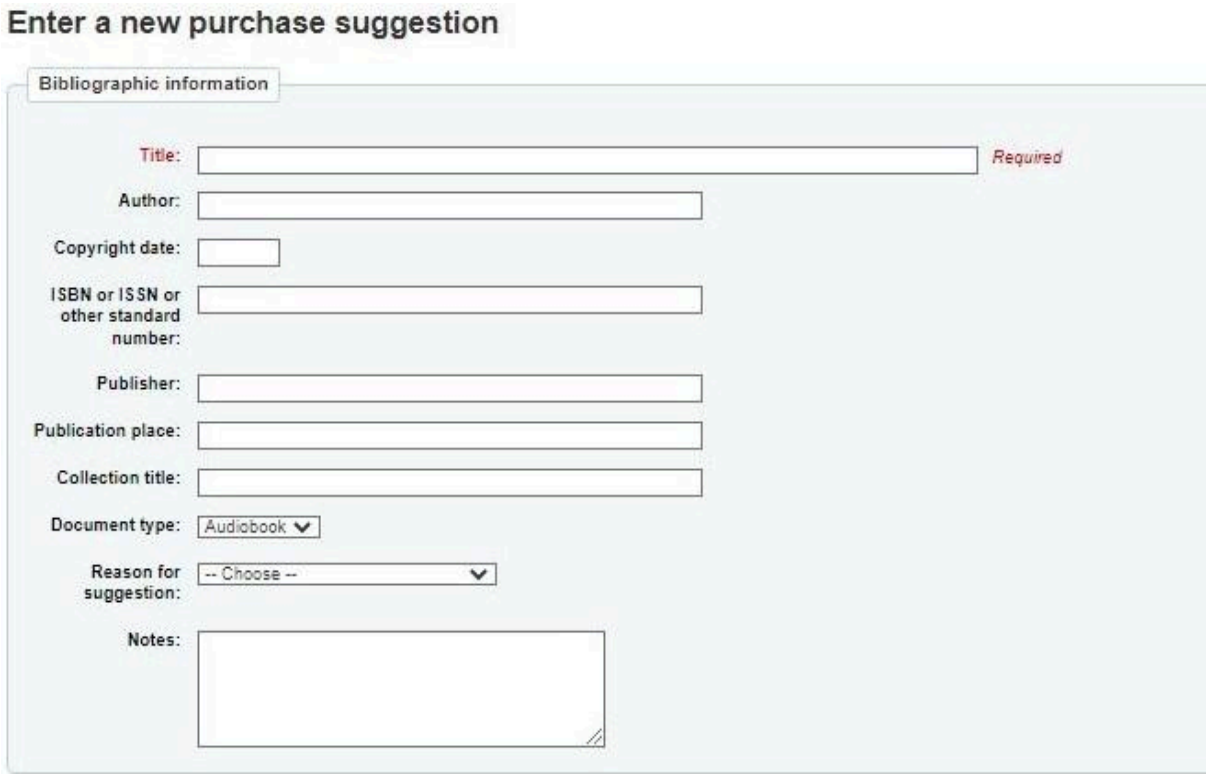

- Then click on the *new purchase suggestion*.

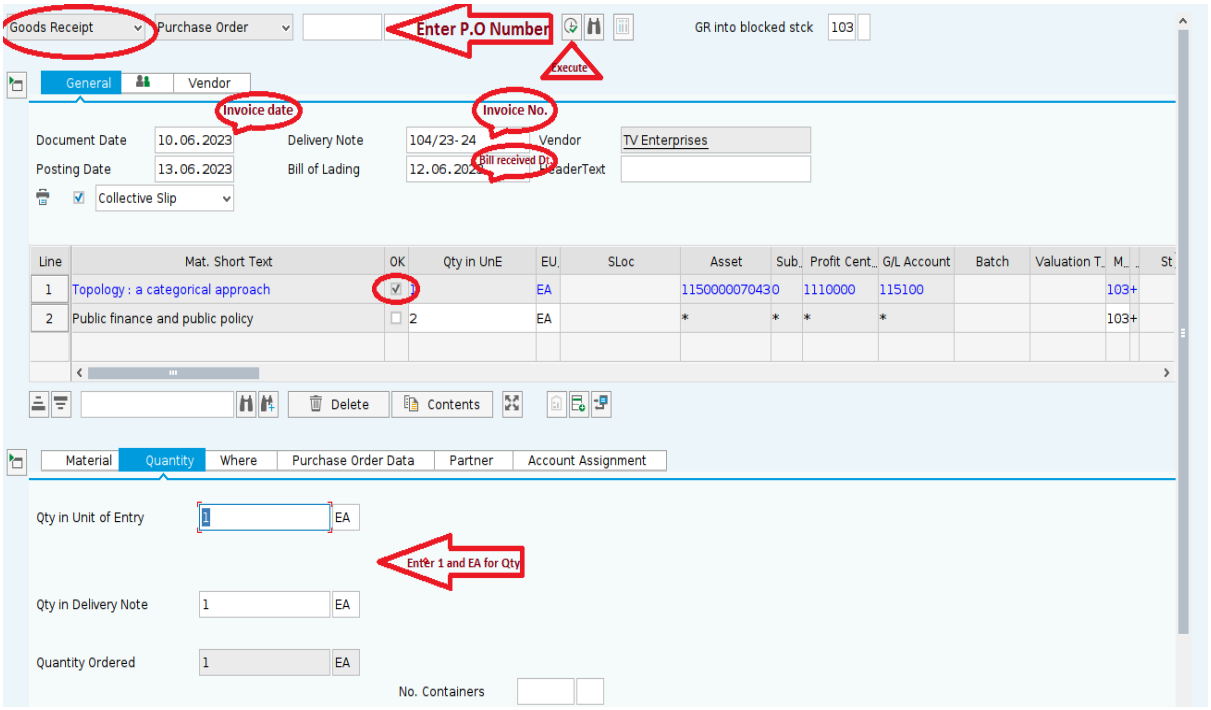

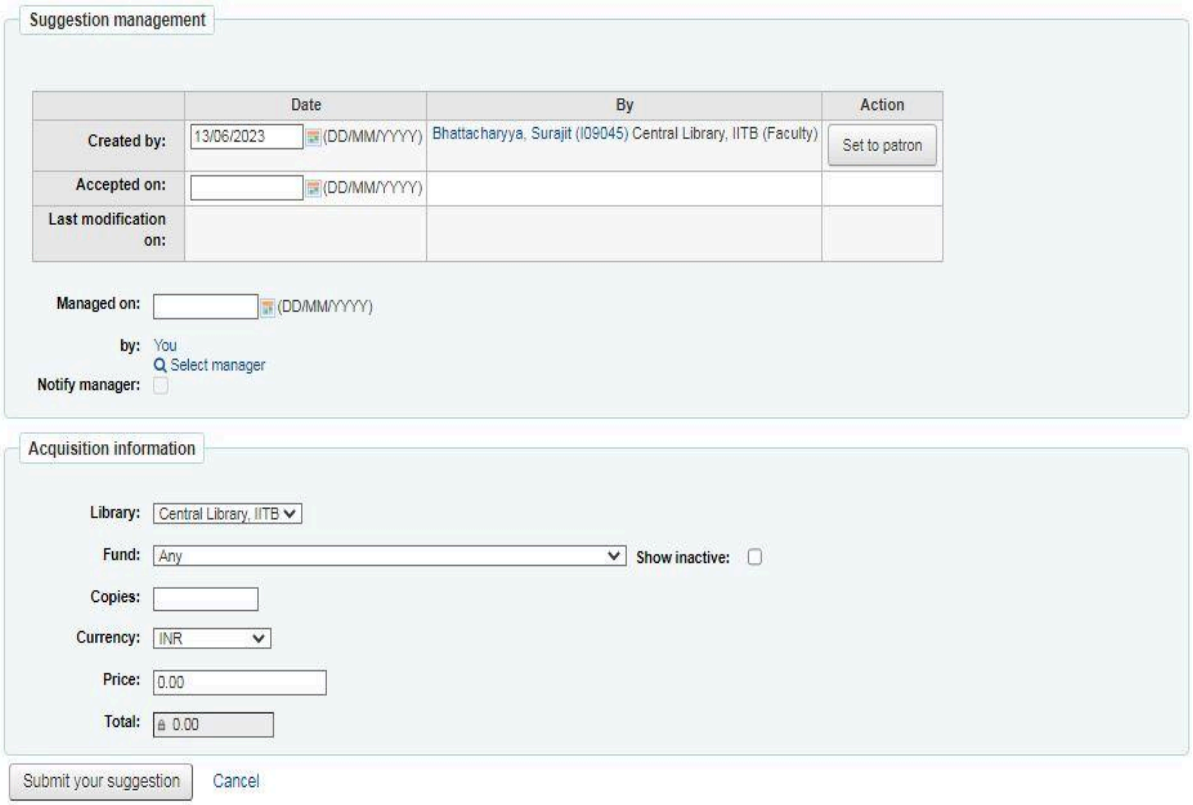

- Fill up the required information and submit

Bibliographic information
Title:
Required
Author:
Copyright date:
ISBN or ISSN or other standard number:
Publisher:
Publication place:
Collection title:
Document type:
Audiobook
Reason for suggestion:
-- Choose --
Notes:

- After the submission, a *suggestion number* will be generated. This number serves as a unique identifier for the suggestion title, enabling easier tracking and future reference.
- Write it down on the spreadsheet of compiled suggestions and in the *suggestion form*.

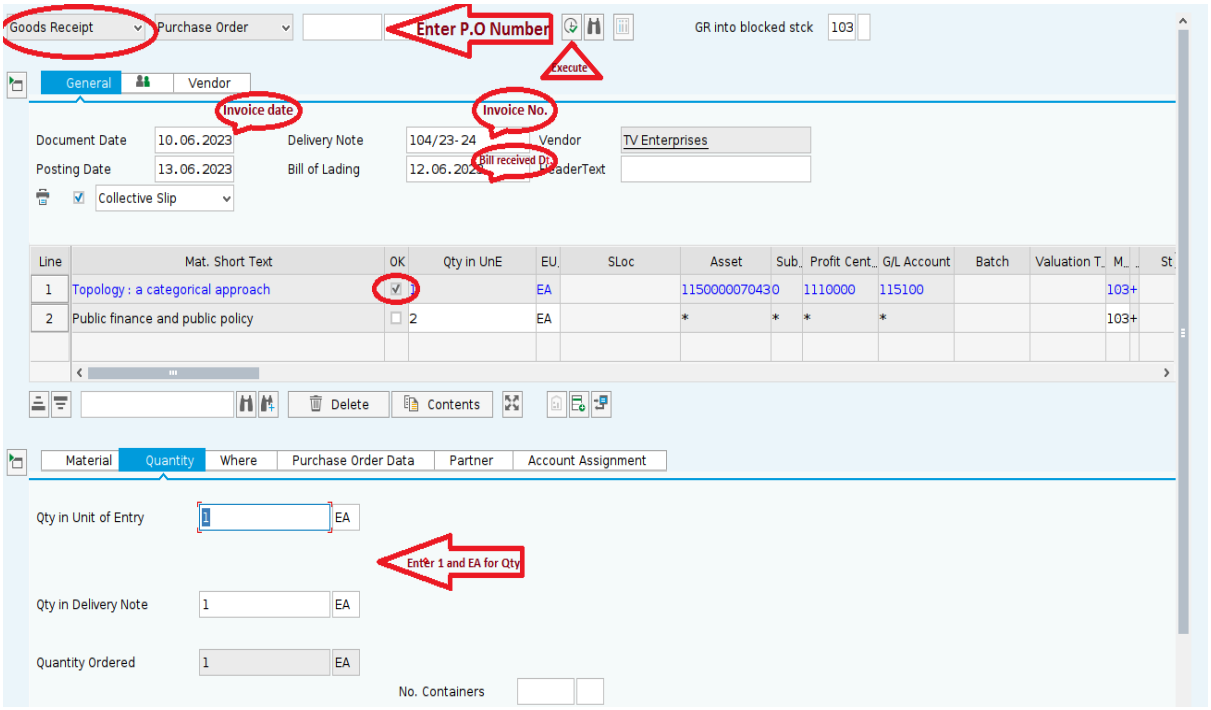

1.4 Inviting Quotations

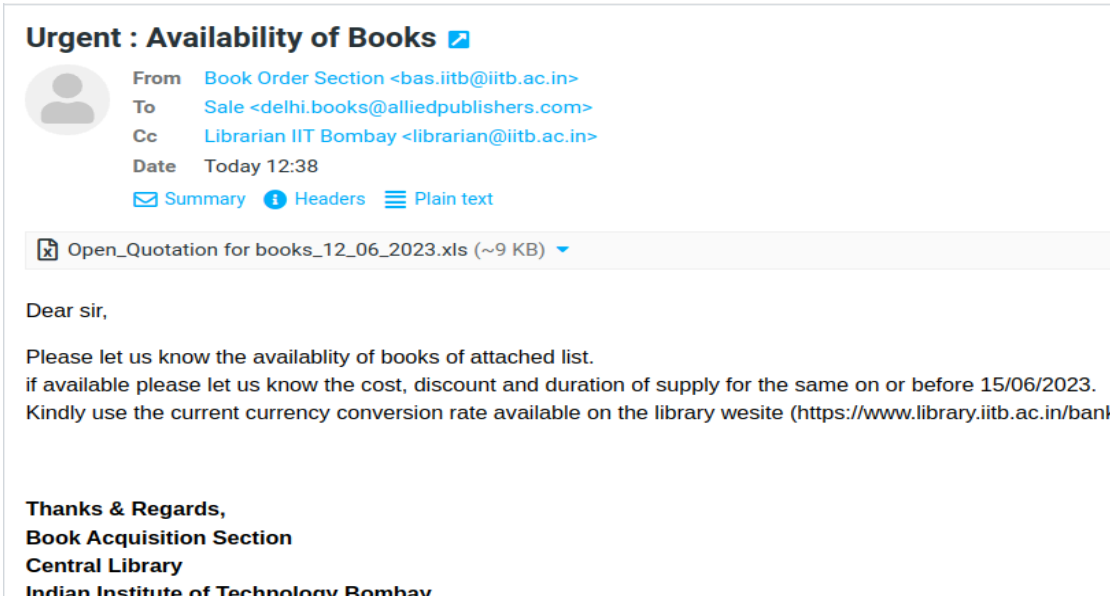

- If the book's price is less than *Rs. 3,000*, then the books can be obtained through a *direct order*.

- When the book cost exceeds *Rs. 3,000, the procedure involves requesting quotations from registered suppliers or vendors to receive competitive pricing proposals and choosing the vendor that offers the highest discounts in the minimum delivery duration*.

- The Book Acquisition Section sends email invitations for open quotations to registered vendors, requesting pricing details. This helps the section obtain multiple quotes from different vendors, enabling a competitive bidding process. The purpose of inviting quotations is to compare offers and choose the most suitable option based on price, discount, and the expected supply period of the item(s)/book(s).

- Open quotations have a deadline and are delivered by email to the vendors.

Urgent : Availability of Books

1.4.1 Comparative statement

- We will compare the discounts the vendors offer for each title after receiving their quotations.
- If more than one vendor is offering the same discount for a particular title, we must assess the supply duration or any other relevant factors.
- We will create a comparison spreadsheet to highlight the vendor offering the most significant discounts for each title.
- We can proceed to the next step after getting approval from the HOD/In-charge.

1.5 Asset ID Generation

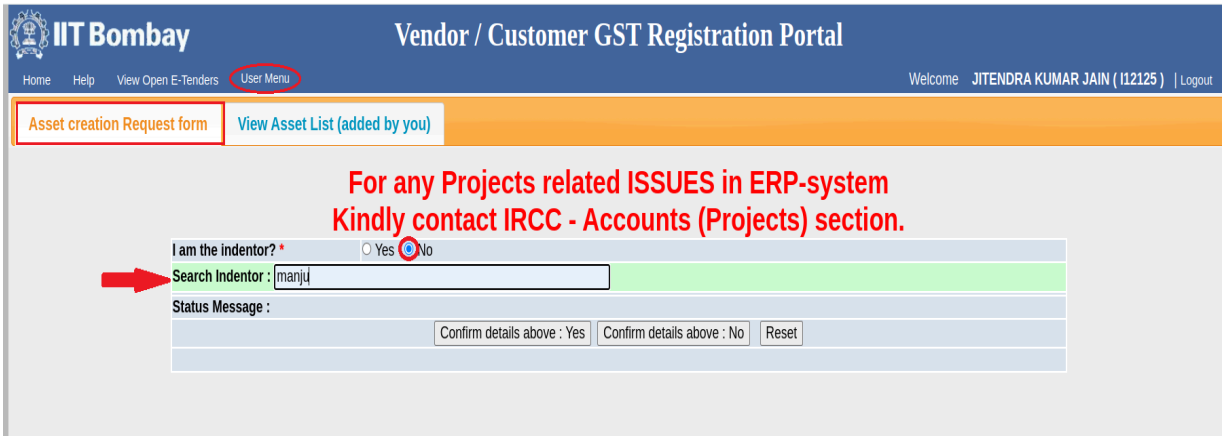

An asset ID is a fully qualified path in the information server and describes a project, folder, or particular asset.

1.5.1 Steps for Asset ID Generation: First part:-

- Visit the IITB's vendor registration webpage. (https://portal.iitb.ac.in/vrp/index.jsp)
- From the main tabs, keep the cursor on the *User Menu* and select *Add/View Assets*
- From the subtabs, select the *Asset Creation request form*.
- Select *"no"* in response to the inquiry, *I am the indentor*
- Check for the names of the indentors (Manju Naika) in the search tab.

- Select the code that corresponds to the indentor's name.

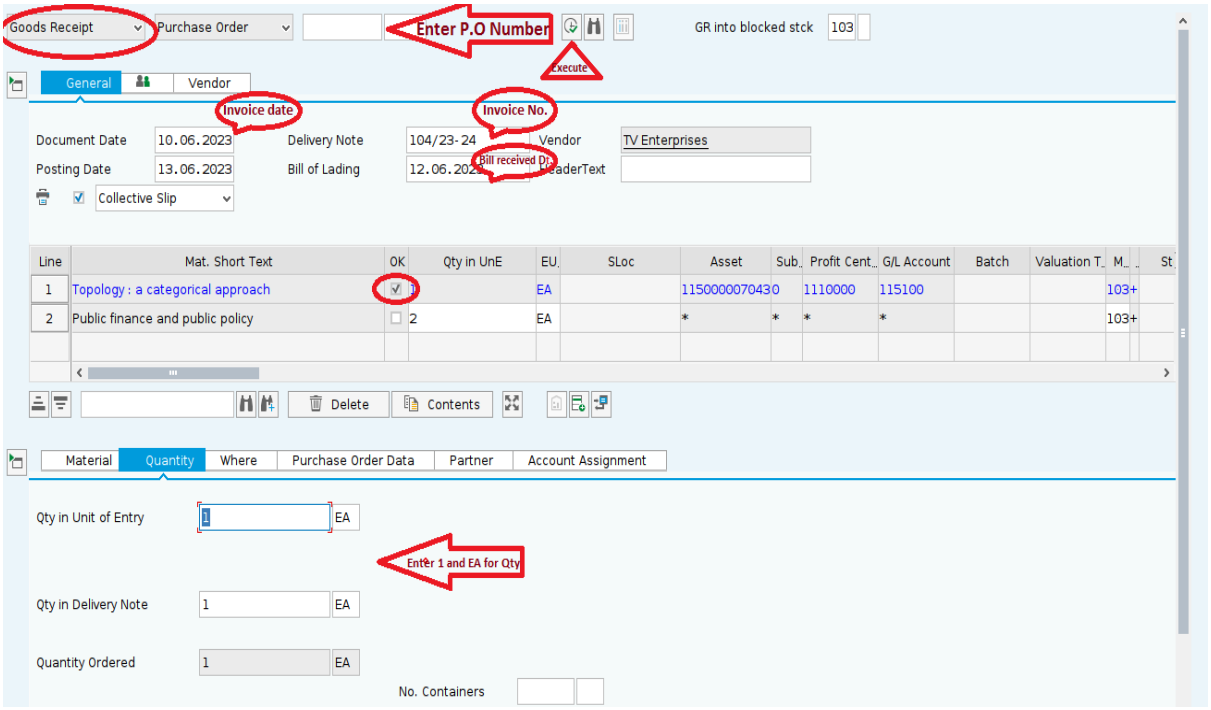

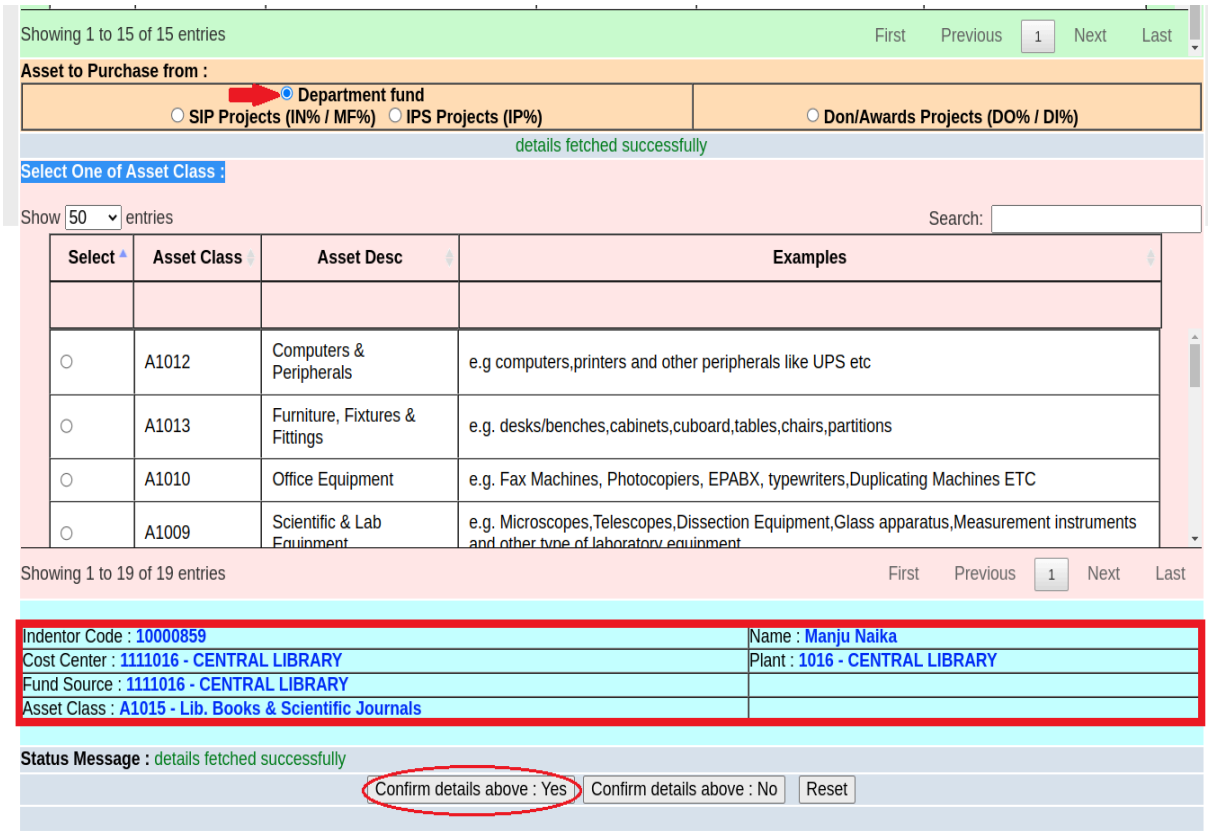

1.5.2 Steps for Asset ID Generation: Second part:-

- In the second section of the window, under "*Asset to Purchase From*," select *Department Fund*.

1.5.3 Steps for Asset ID Generation: Third part:-

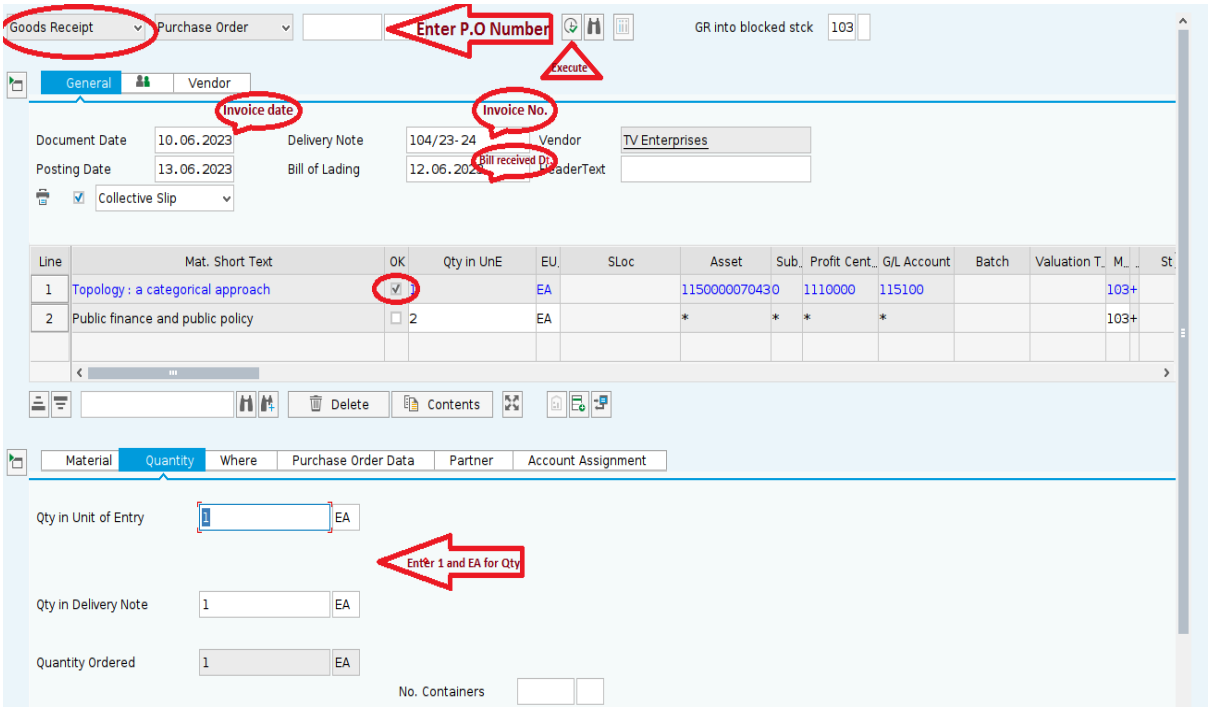

- Select Asset class - *A1015: Lib. Books & scientific journals*
- In the third part, several significant pieces of information will be displayed. Verify the details are accurate before *confirming with a yes*.

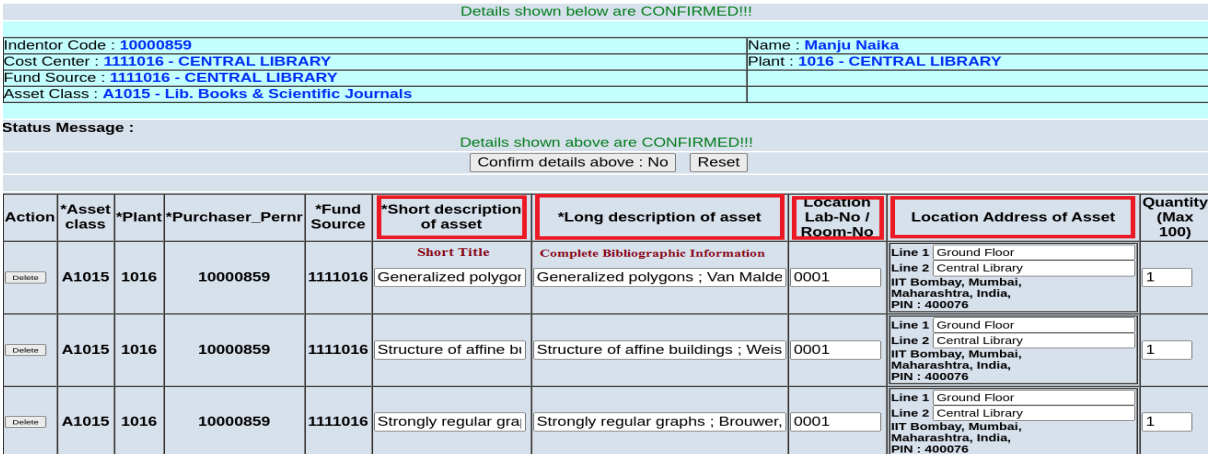

1.5.4 Steps for Asset ID Generation: Fourth part:-

- Enter the *book title* for which the asset ID needs to be generated in the field provided for the **short description** of the asset, using the main title as the primary title.
- ***Long description of an asset*** - Complete the book's *bibliographic information*
- *Location number-0001*
- *Asset's location address* is on *Line 1-ground floor Line 2. Central Library*

- *Quantity - 1*
- Then click on *submit*

2. Ordering

Ordering involves two stages.

The **first stage** is completed in the **ERP system**, where the official purchase order for the documents is created and processed.

The **second stage** is carried out in the **Koha Library Management System** (LMS), where the order details are entered and managed for library-specific tracking, processing, and record maintenance.

Together, these two steps ensure that each document is properly ordered, accounted for, and integrated into both the institute's procurement system and the library's internal workflow.

- **Ordering through ERP**
  - **Purchase Requisition (PR)**
  - **Attachment of GFR in PR**
  - **Purchase Order (PO)**

2.1 Ordering through ERP

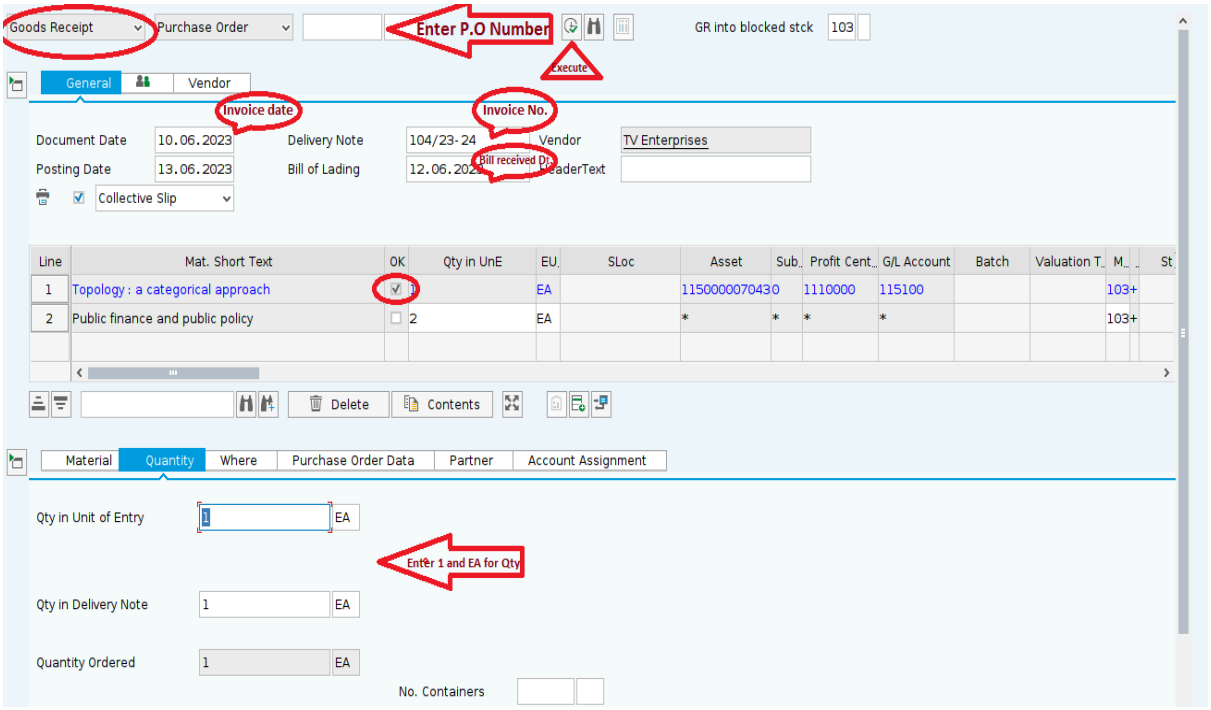

2.1.1 Purchase Requisition (PR)

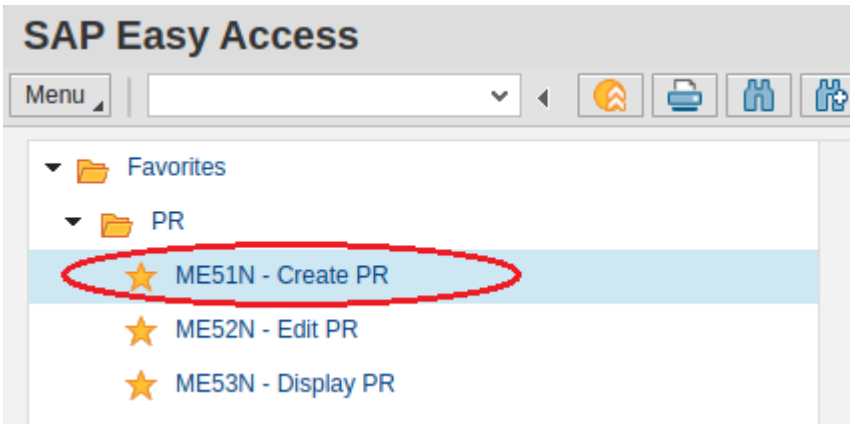

The purchase requisitions will begin only after the creation of comparative statements and the completion of asset ID generation.

2.1.1.1 Create PR (ME51N)

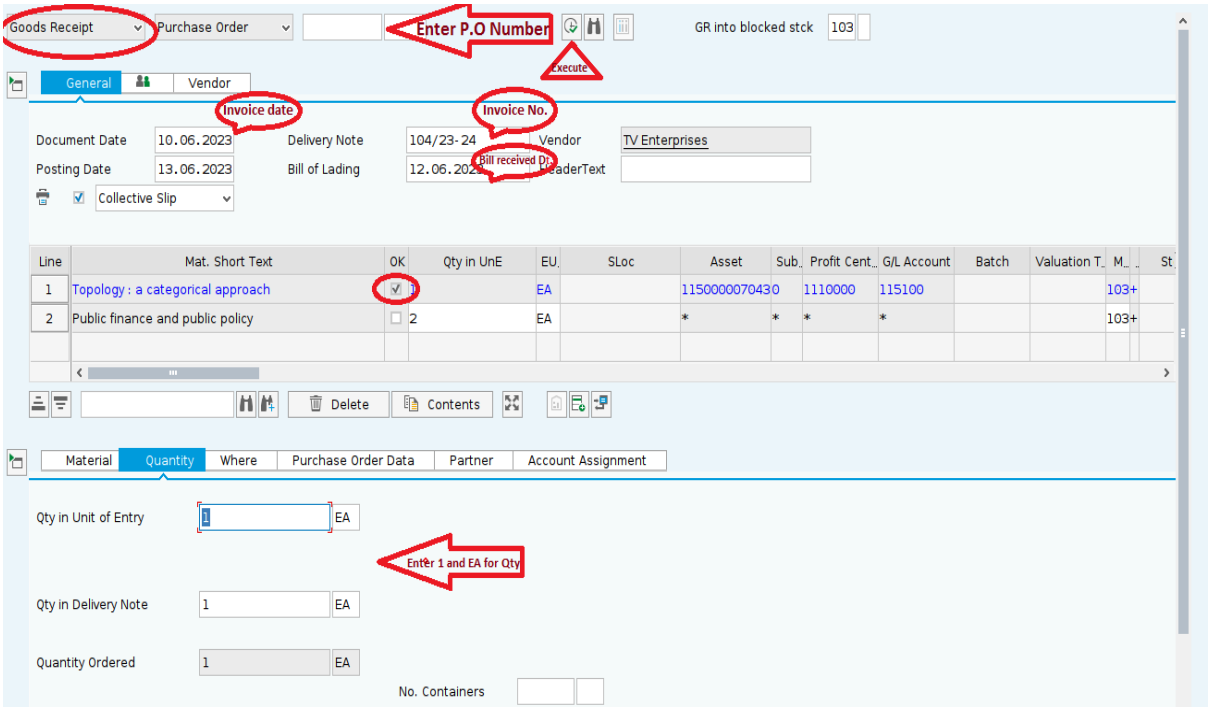

Log in to the portal at https://erp.iitb.ac.in/perp to begin ordering through ERP.

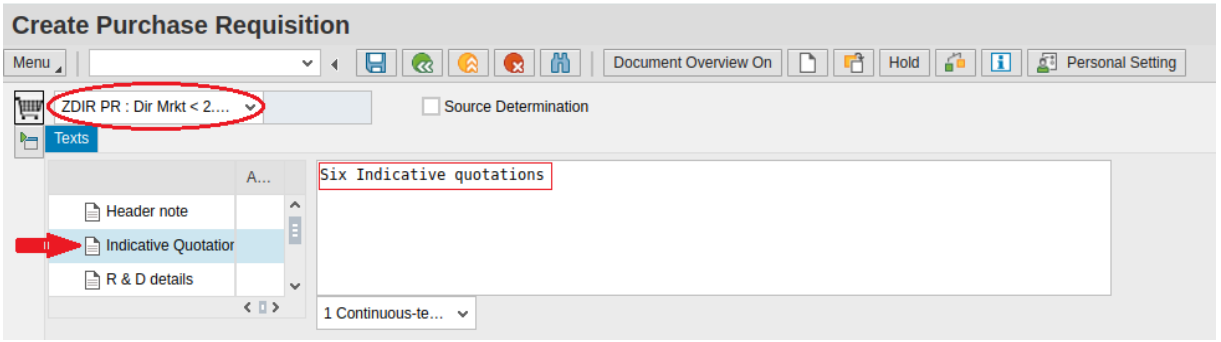

- Select the *t code ME51N*

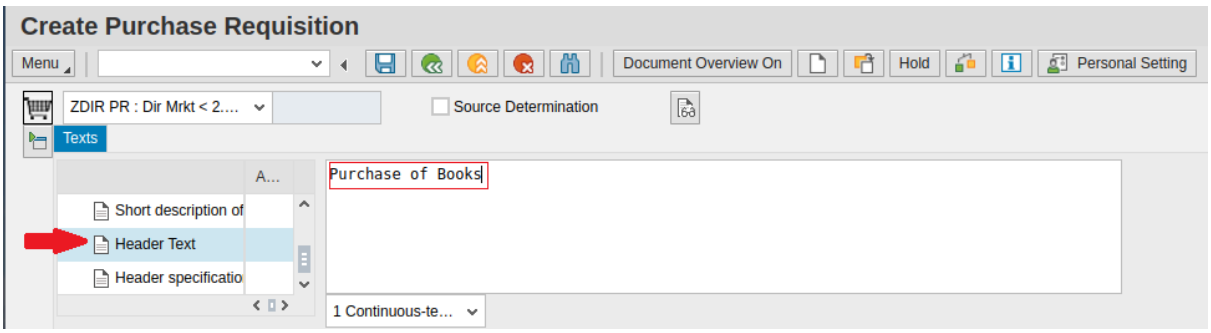

- TCode *ZDIR PR: Dir Mrk<2.5 Lac>* for Books; *and STI PR: Single Tender* for e-books and Standards from the dropdown in the second row of options from the window.
- Select the textbox next to "*Indicative quotation*" from the list of tabs and enter "----- *Indicative Quotations*." (mention the no. of quotations received from the vendors; if it is six, then enter *Six Indicative Quotations*)

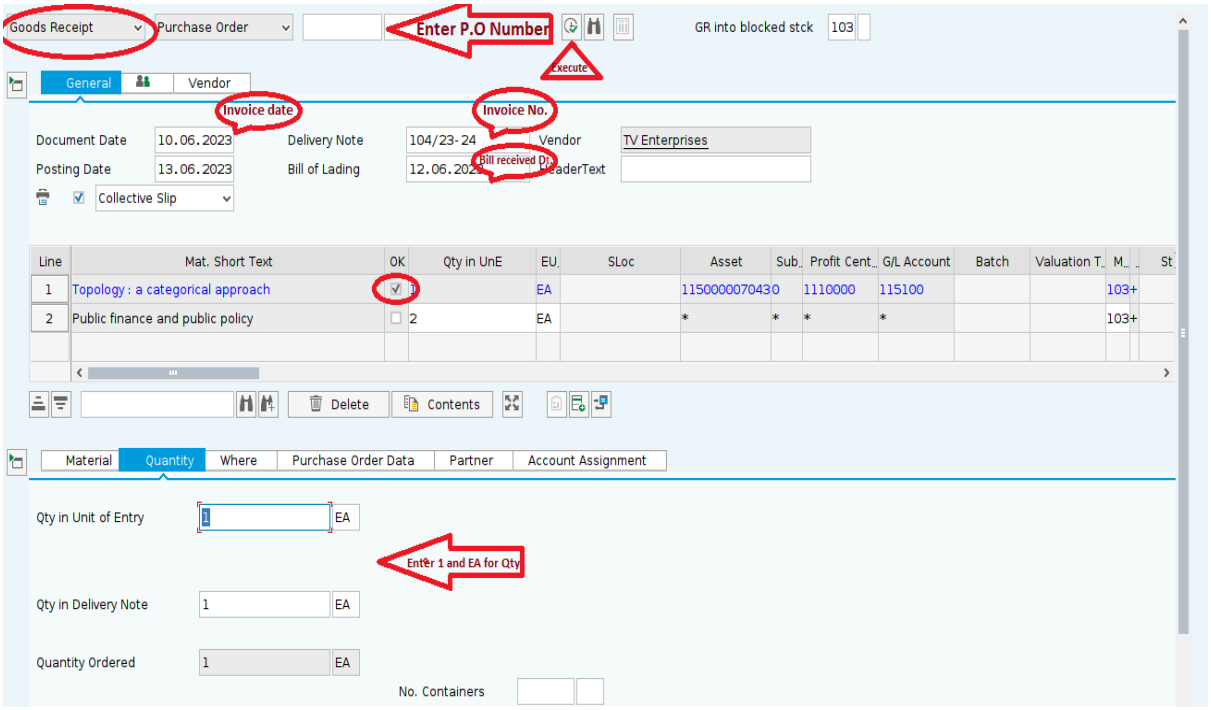

- Select the textbox next to "*Header Text*" from the list of tabs and enter "*Purchase of books*"

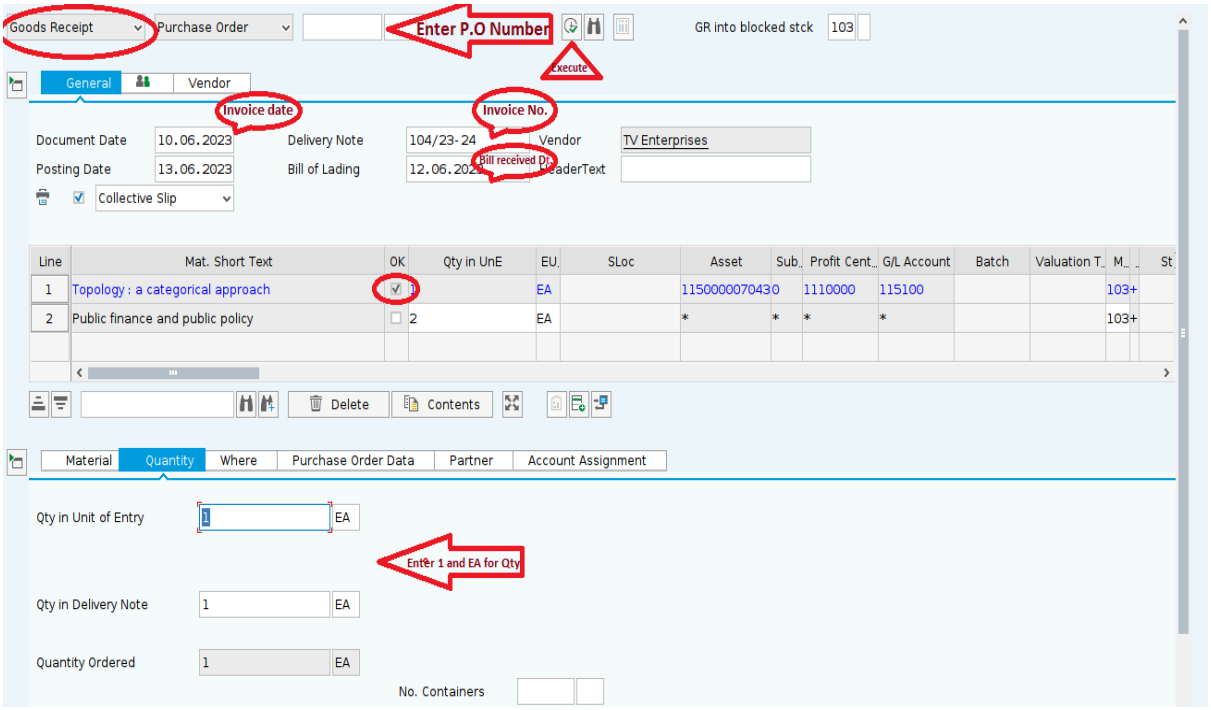

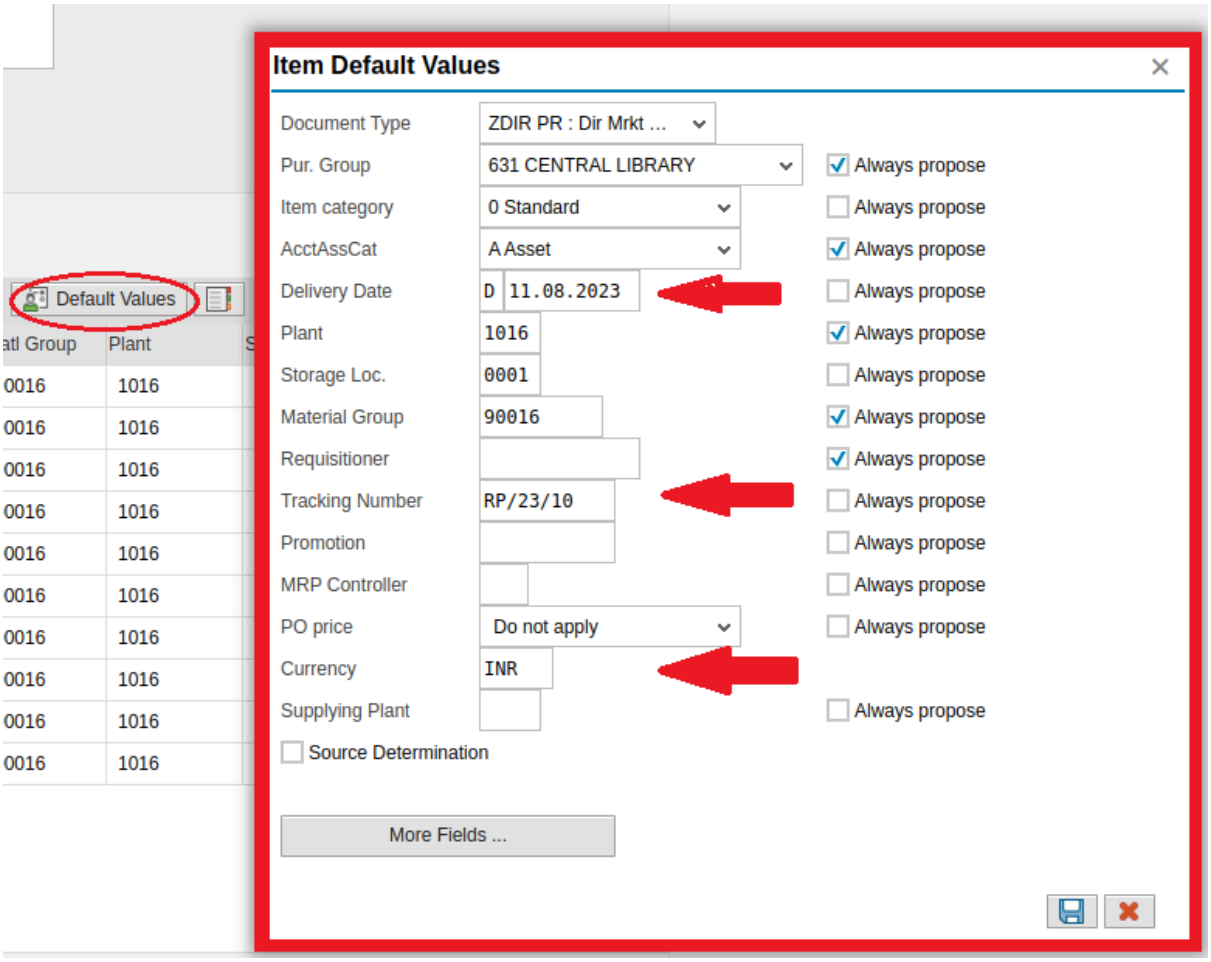

❖ By selecting the ***Default values*** on the *second section* of the window, a new window will open. Titled ***Item default values***. Complete the required fields.

➢ Document type will be for ZDIR PR: Dir Mrkt<2.5L Books

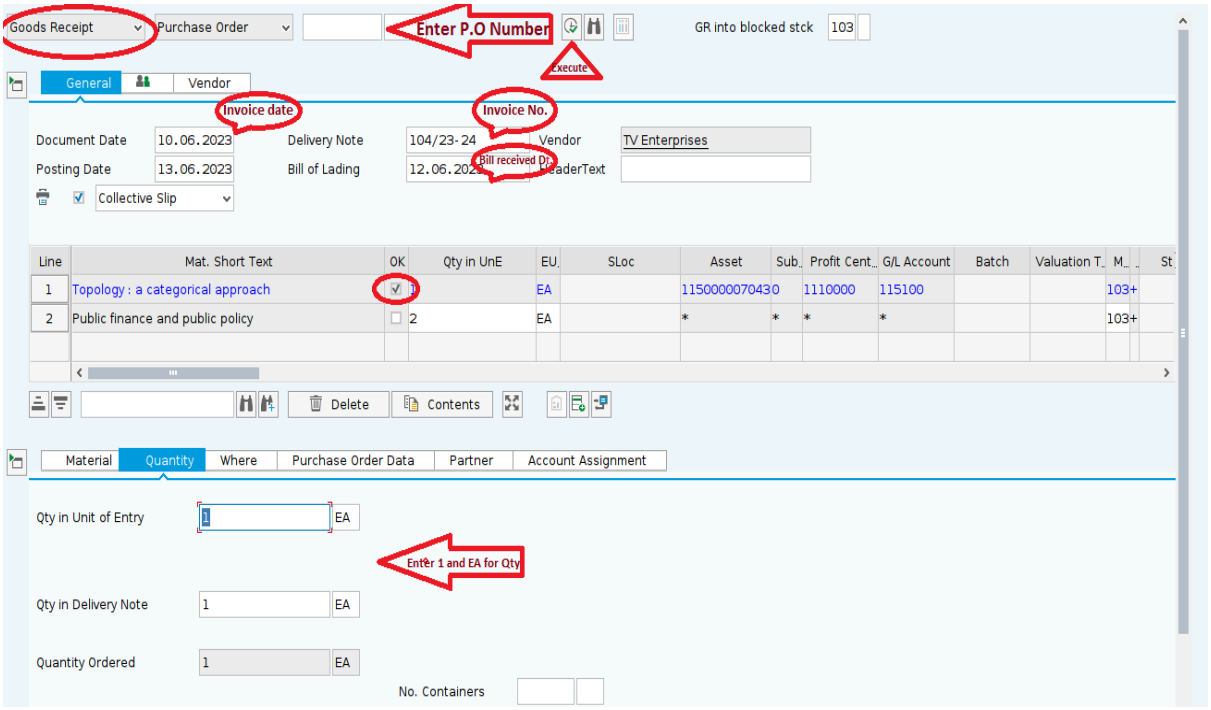

- Document type will be for ZSTI PR: Single Tender for e-books and Standards.
- Pur. group (Purchase group)- *631 Central Library*
- Item Category - *0 Standard*
- AcctAssCat- *Asset*
- **Delivery Date**- It will be closer to the date indicated on *the vendor's quotation. (usually 4-8 weeks)*
- Plant - *1016*
- Storage Loc. - *0001*
- Material group - *90016*
- **Tracking Number** - *RP/23/09 The tracking number that follows the prior one (If the prior number is RP/23/09, the next number will be RP/23/10)*
- P. O. Price - Do not Apply
- **Currency** - *Select the proper currency (e.g., INR for the Indian rupee).*
- *Save* the details.

➢ Following that, a table will be shown in the *same area* of the window.

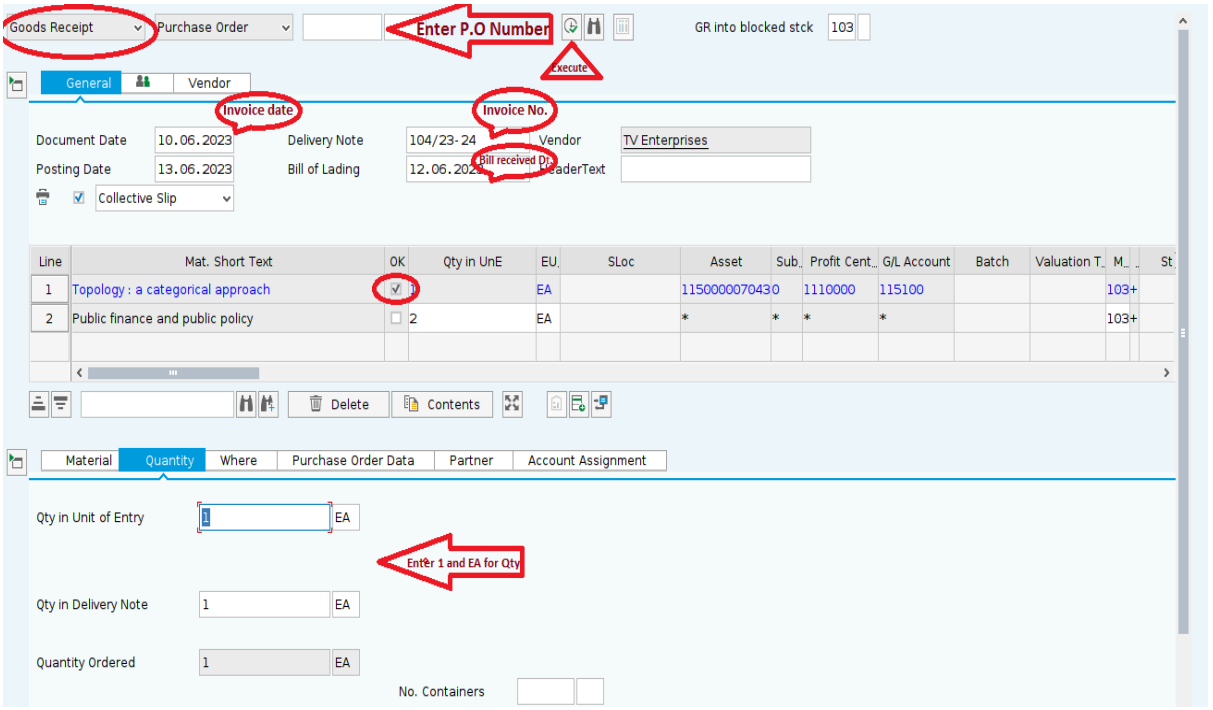

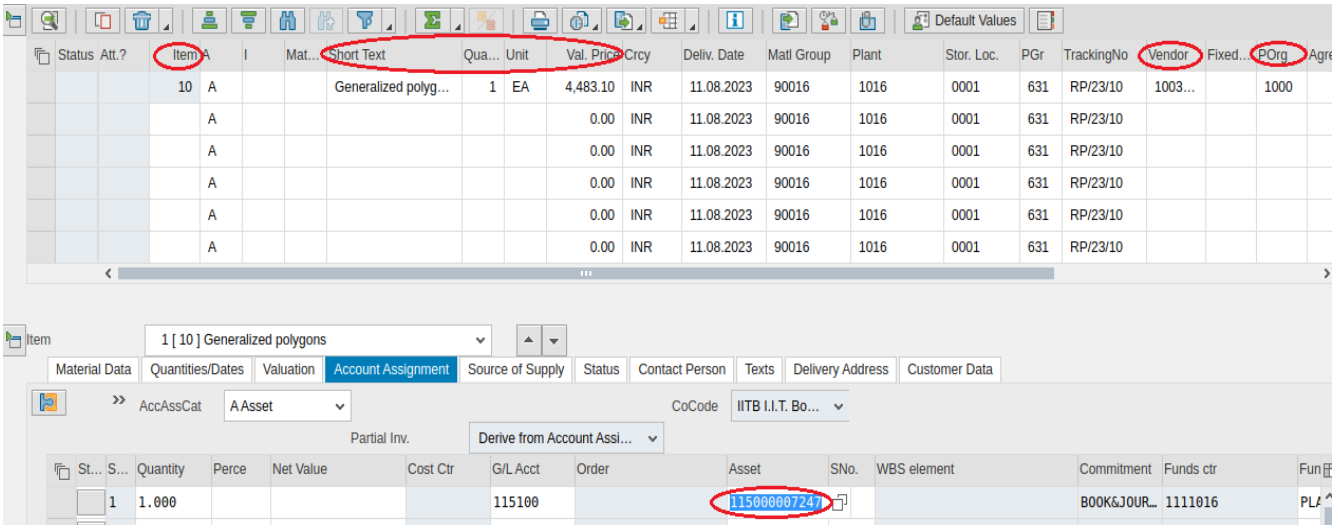

➢ Fill up the necessary information.

- Item -*10 (If there are multiple titles, list the items as 10, 20,30 etc.)*
- Short Text- *Short title of the book* (as filled during Asset ID generation)
- Quantity- *1*
- Unit - *EA*
- Val. Price- *Original Price (without Discount)*
- Vendor - Type the unique number assigned to that specific vendor.
- POrg- *1000*
- Then, on the keyboard, press the *Enter* key.

(If there is more than one title from the same vendor, repeat the procedure for the next title as well.)

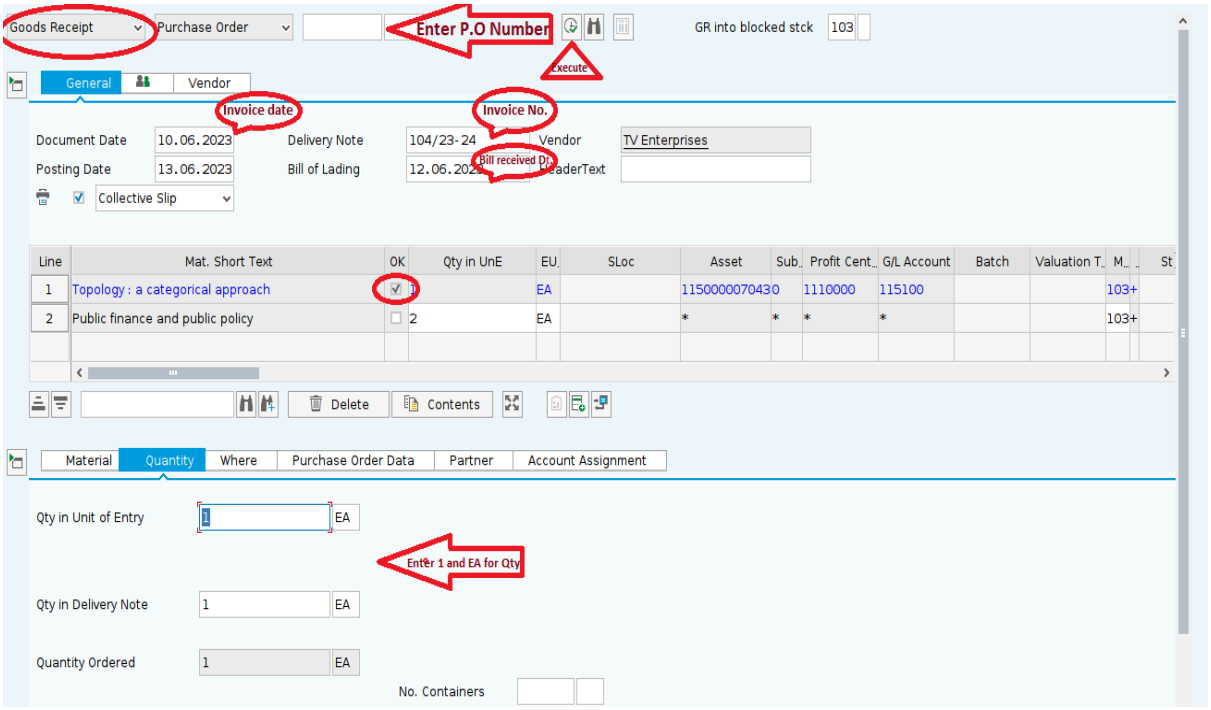

- In the third section of the window, there is a space for assets.
- The asset number can be copied from the vendor registration portal.

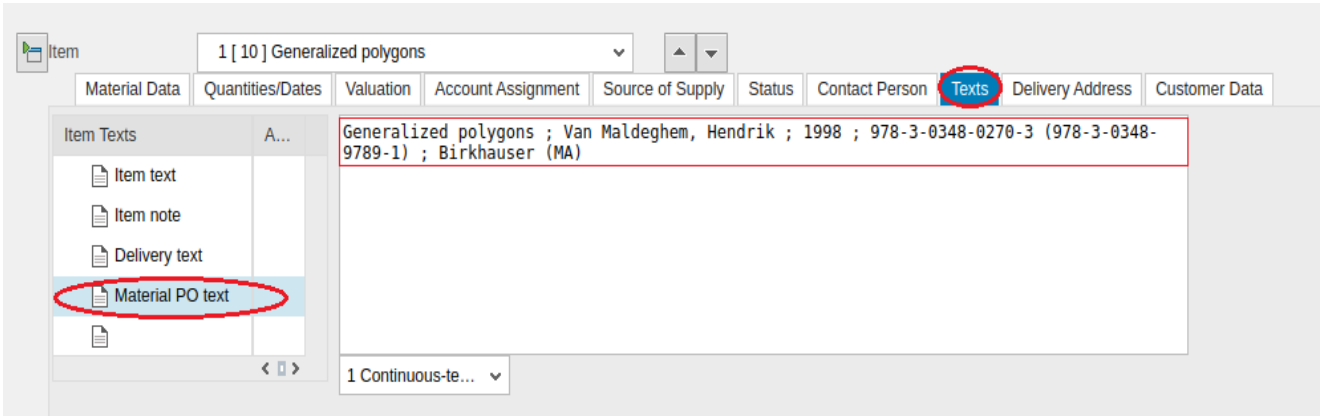

- Click on the *texts tab* in the window's *third section*.
- In the window's left side, a *list of tabs* will appear.
- Choose *material PO Text*
- Text box on the right side. Enter the book's complete *bibliographic information.*

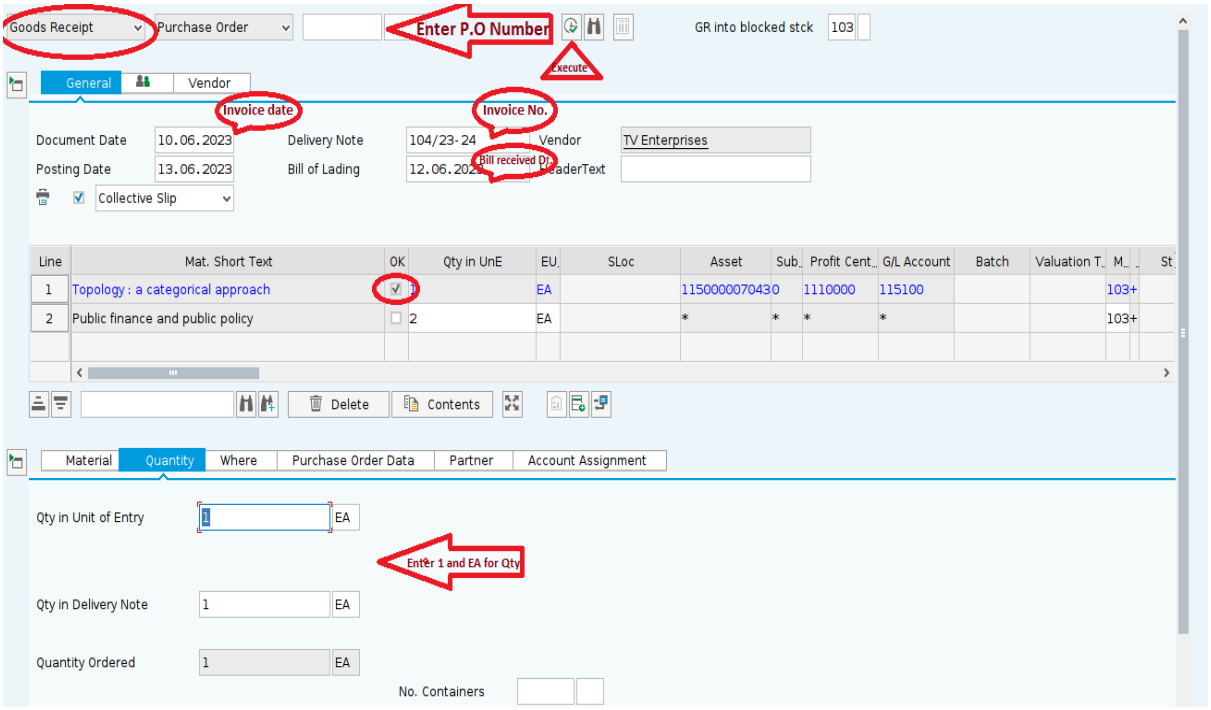

(If there is more than one title from the same vendor, repeat the procedure for the next title as well by clicking on the down arrow and choosing the next title.)

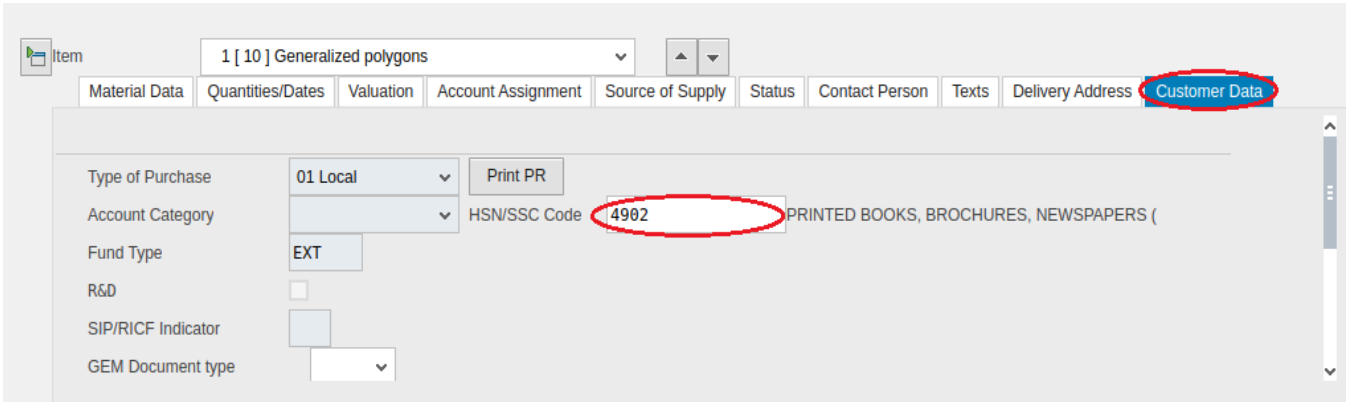

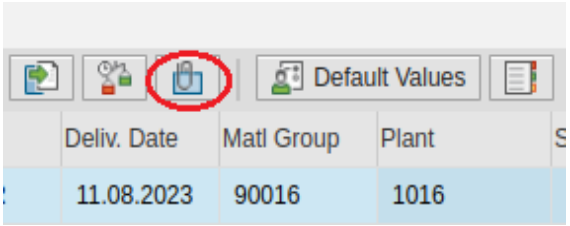

- In the same section of the window, click the "*Customer Data"* tab.
- HSN/SSC Code - *4902 (Printed books, brochures, and newspapers, e-book)*
- 4901 for Standards

(If there is more than one title from the same vendor, repeat the procedure for the next title as well by clicking on the down arrow and choosing the next title.)

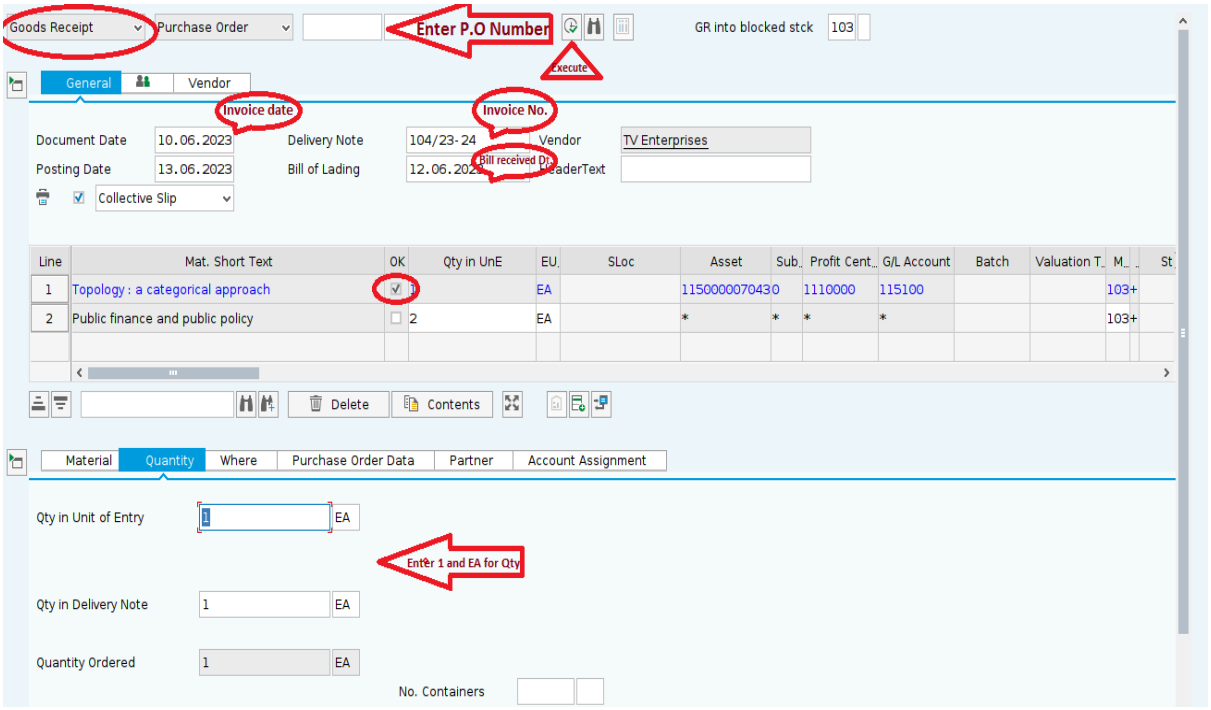

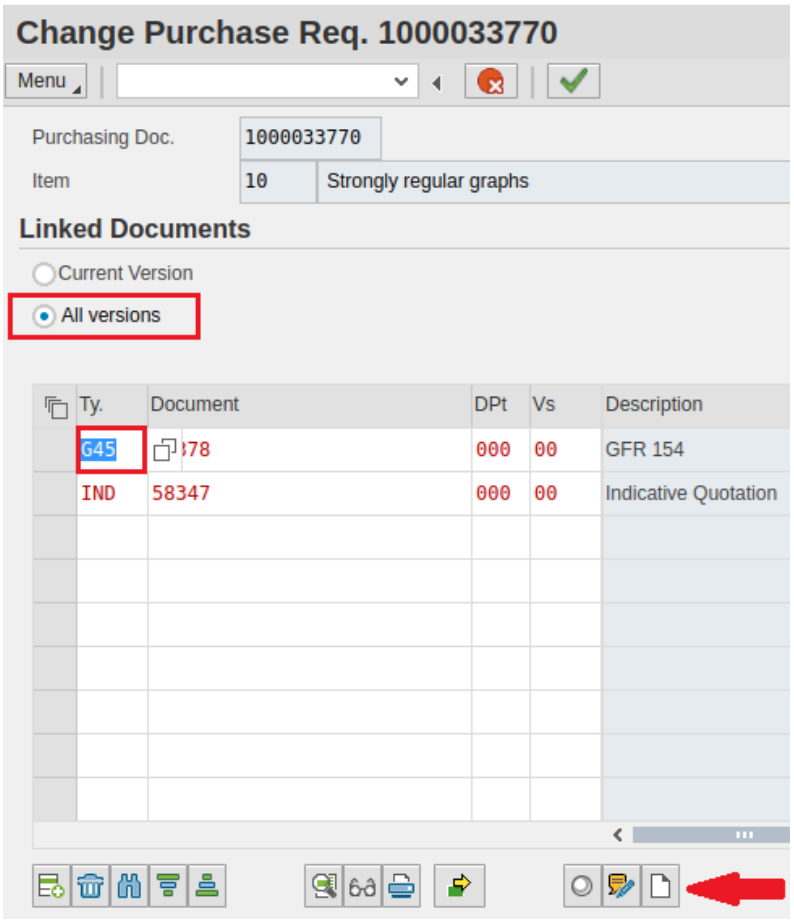

- On the window's second section, select the *first cell* for attachments.
- Then click on the *Attachment icon.* 

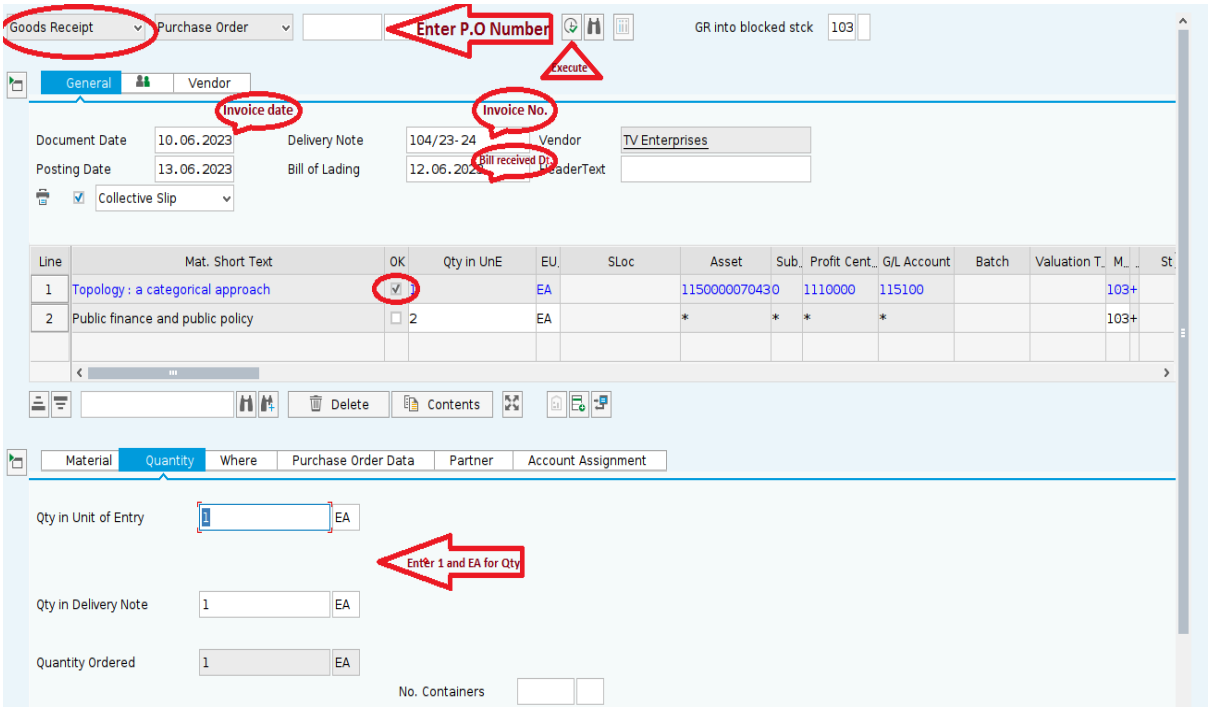

- A new window will then be opened.
- Select *all versions* from the two options.

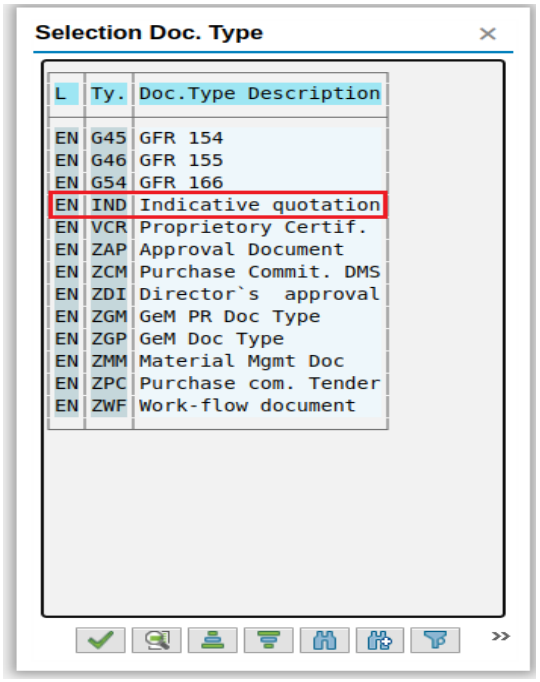

- Then select the create document icon  in the window's lower-right corner.

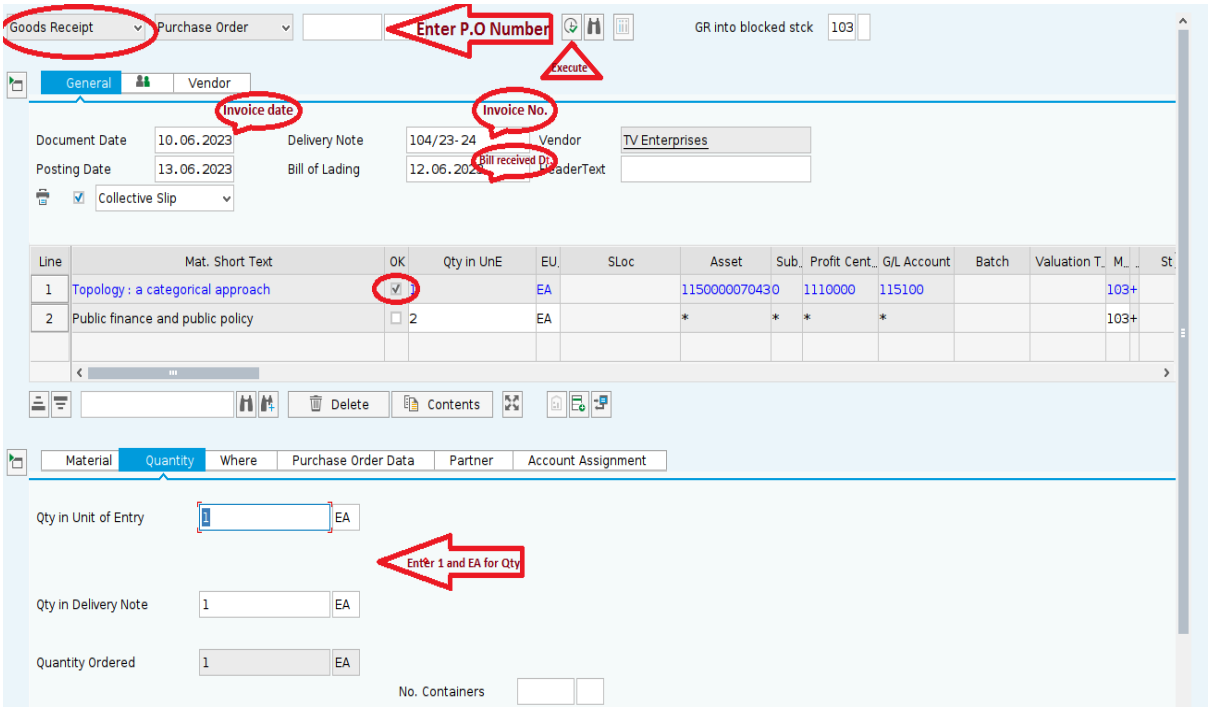

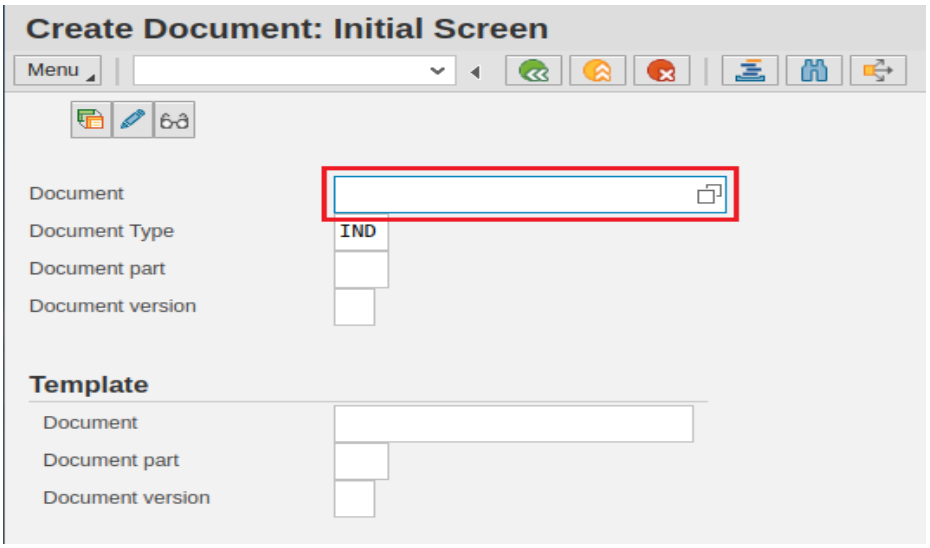

- Select *Indicative Quotations* from the list by double-clicking or tick-marking it.

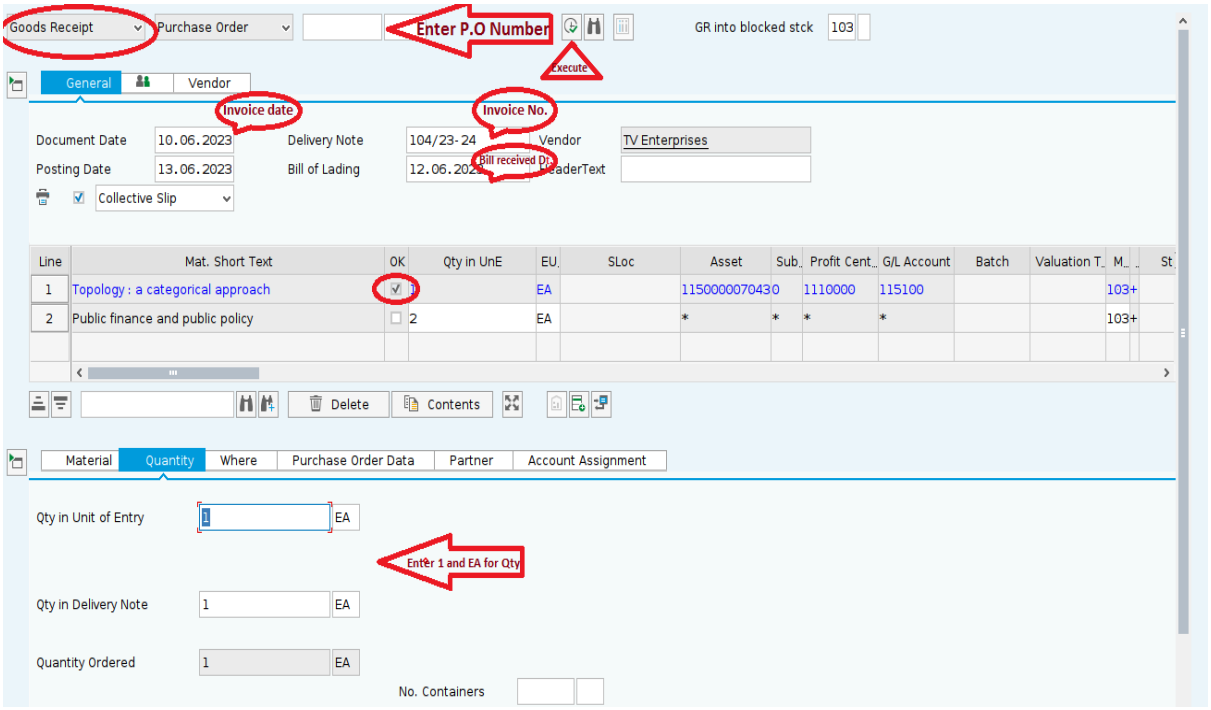

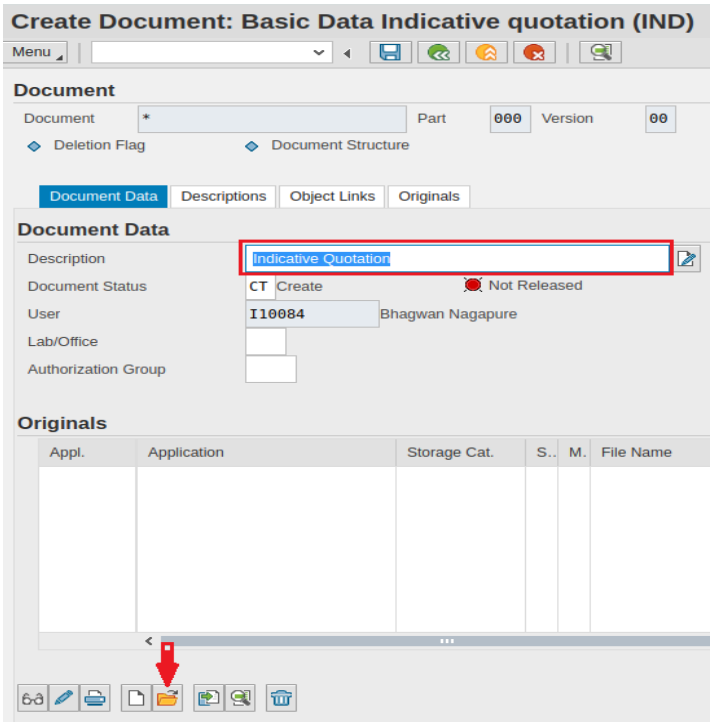

- A new window will be opened. Titled *Create Document: Initial Screen*
- In the first column, press the *Enter* key.

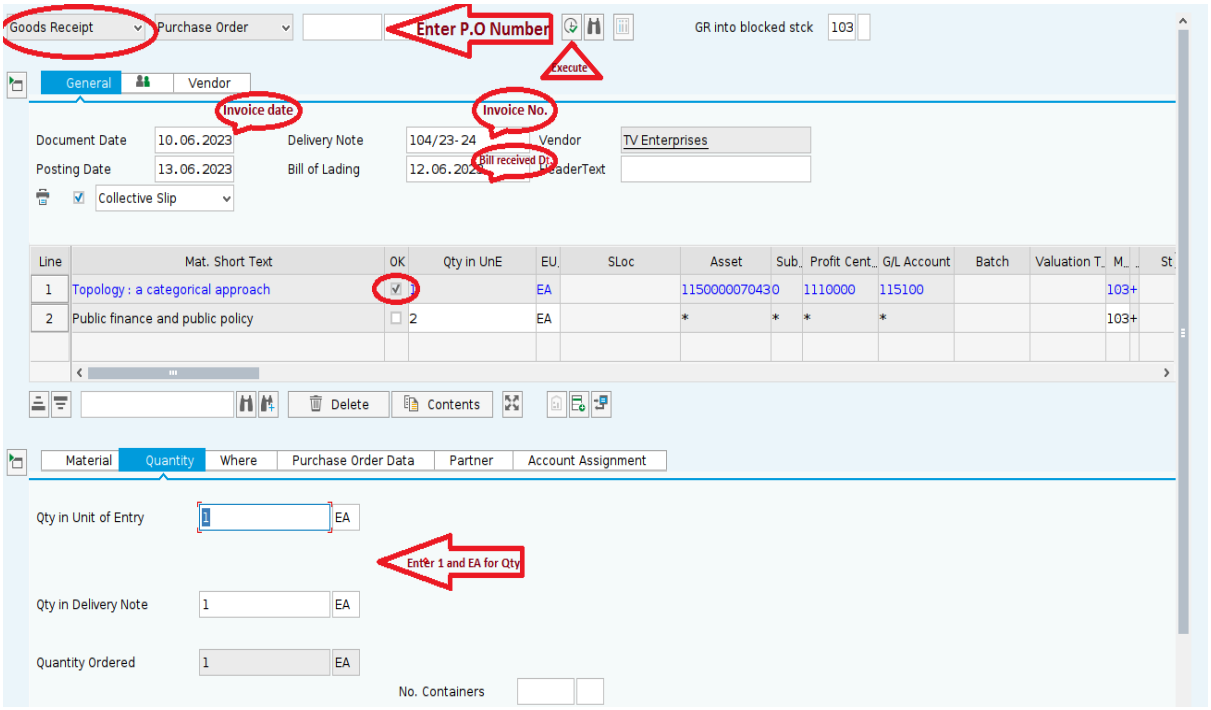

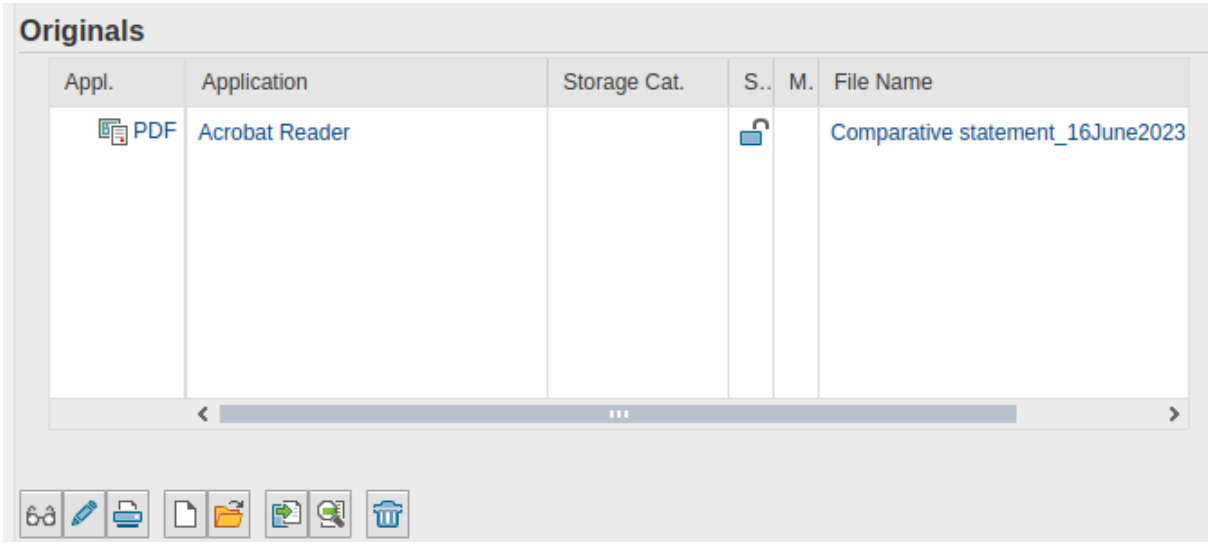

- Enter the word "*Indicative Quotation*" on the Document Data tab of the window titled "*Create Document: Basic Data Indicative Quotation*."
- There are several icons in the window's lower-left corner. Click on the "*Open Original" icon (yellow icon)*  .

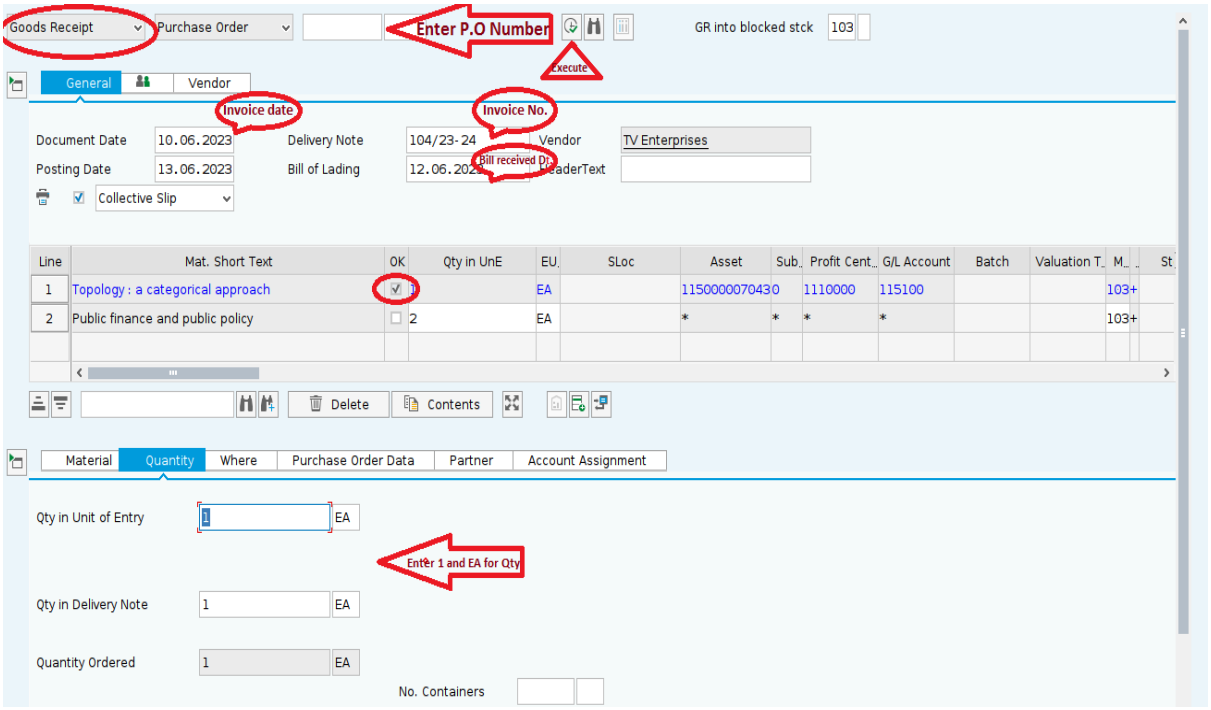

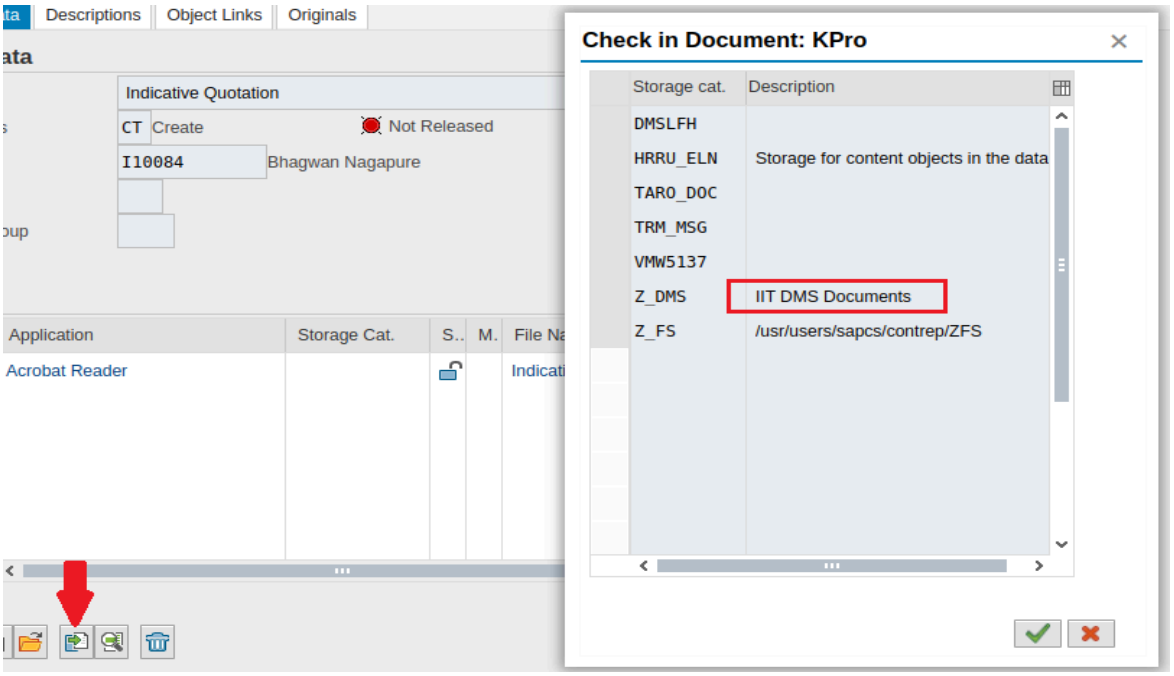

- When you click this icon, a pop-up will be displayed.
- Upload the *comparative statement* from the Desktop.

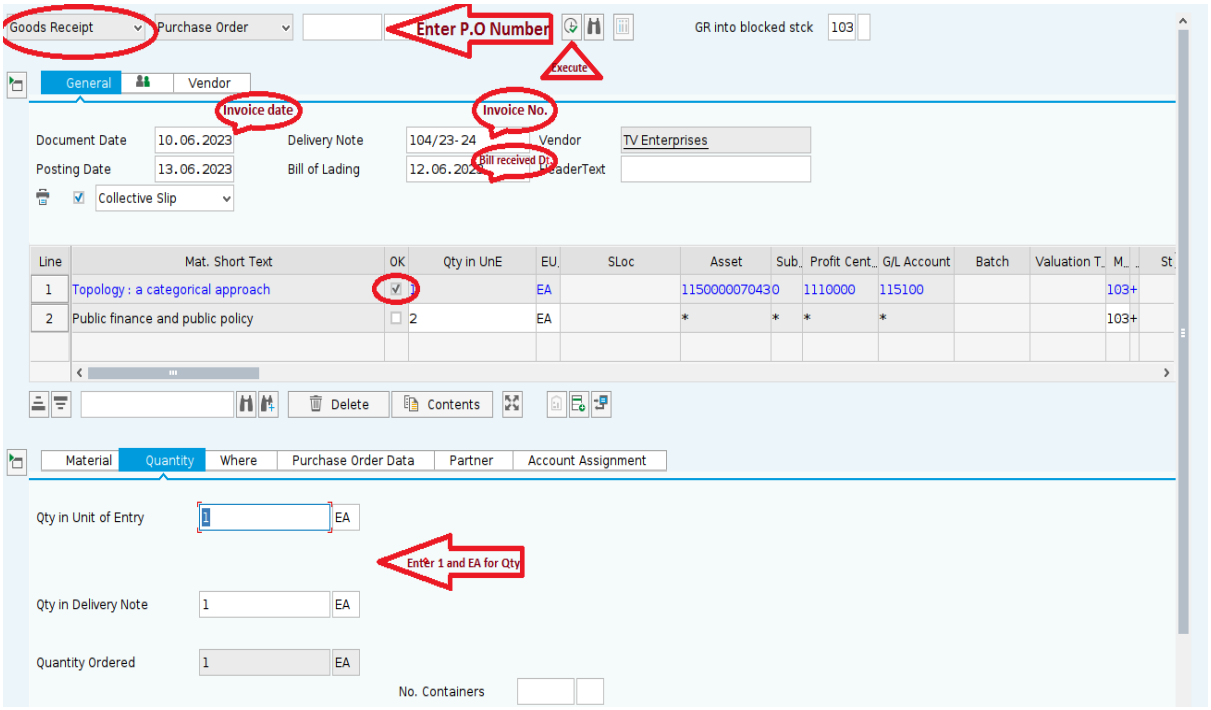

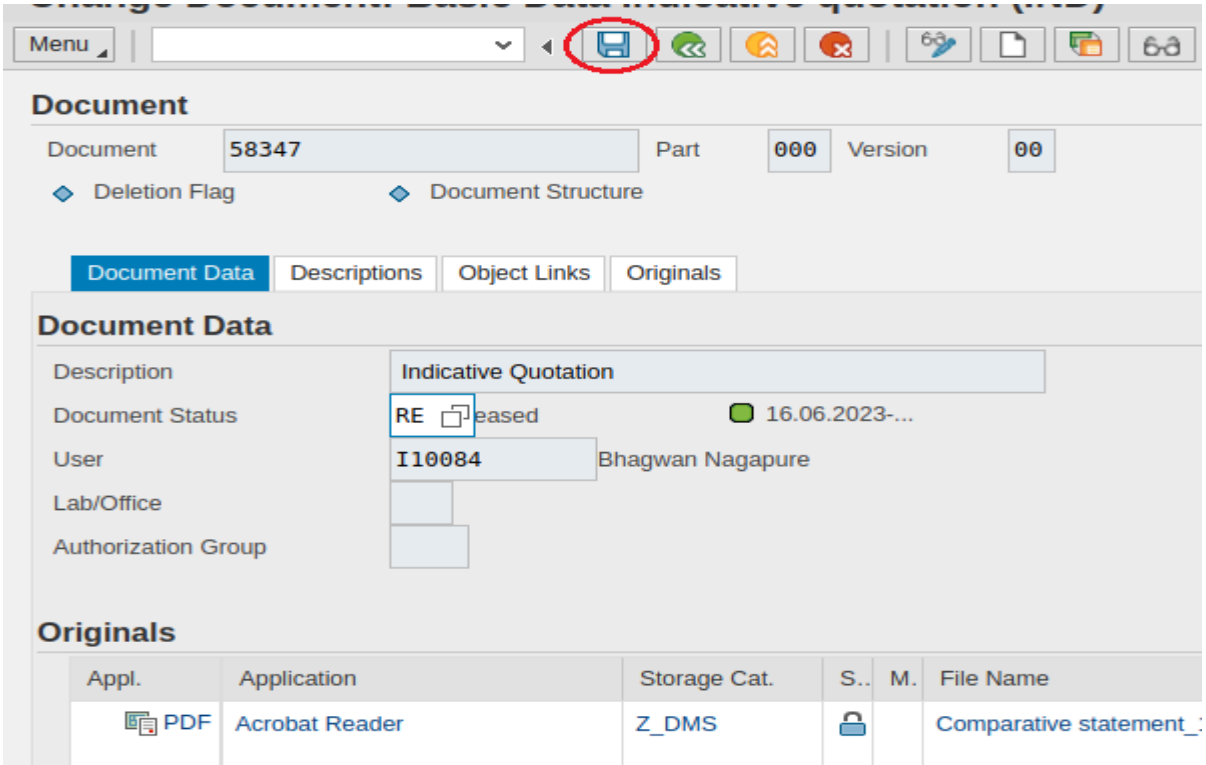

- Then click on the "*Check in Original*" icon.
- Double click on the *IIT DMS*
- On the window below the pop up, a *lock icon* will appear.

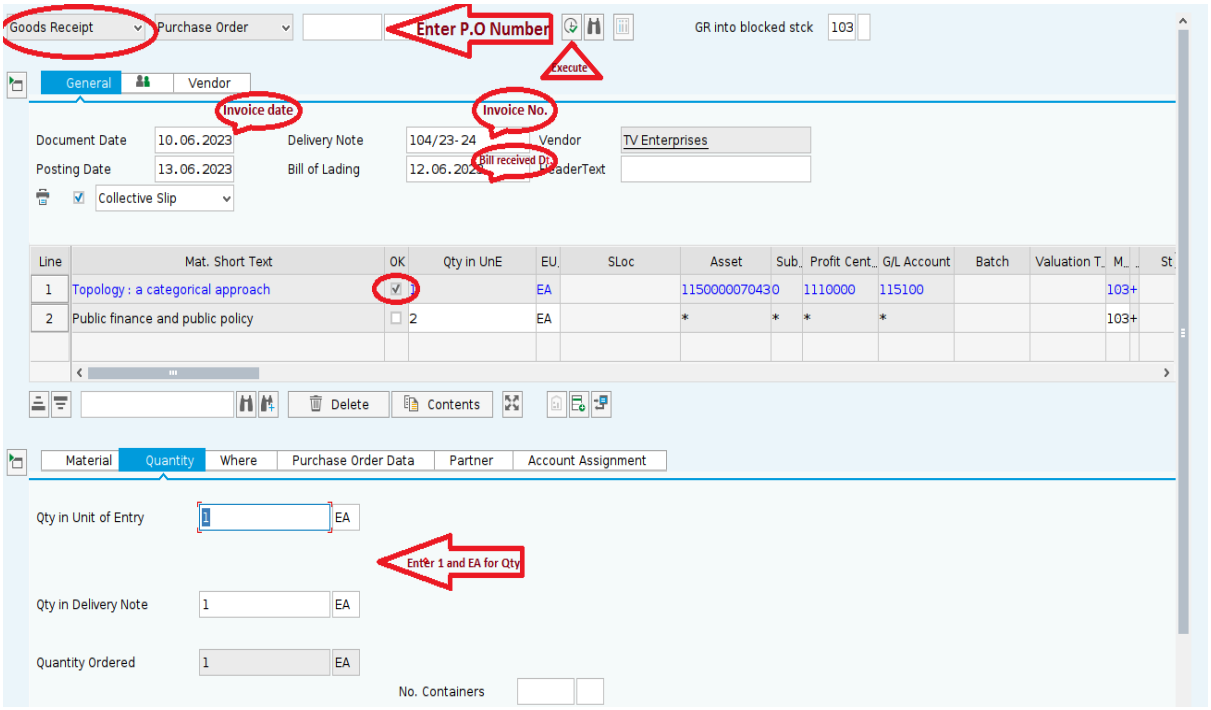

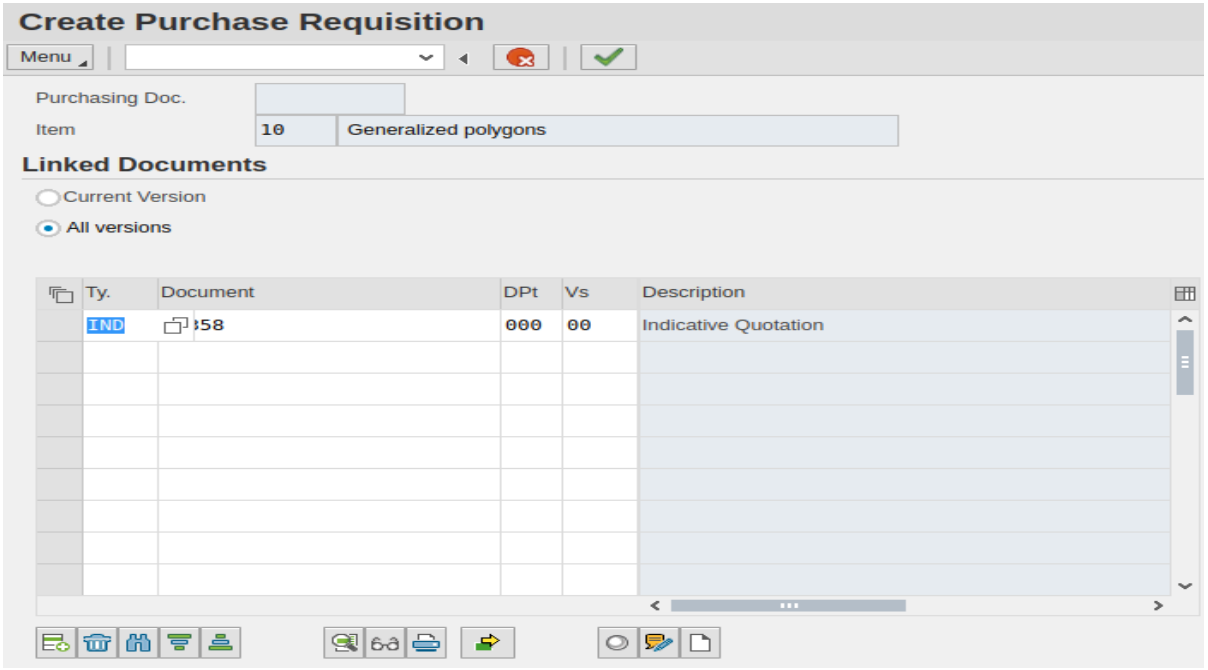

- Click on the *Save* icon  on the top.

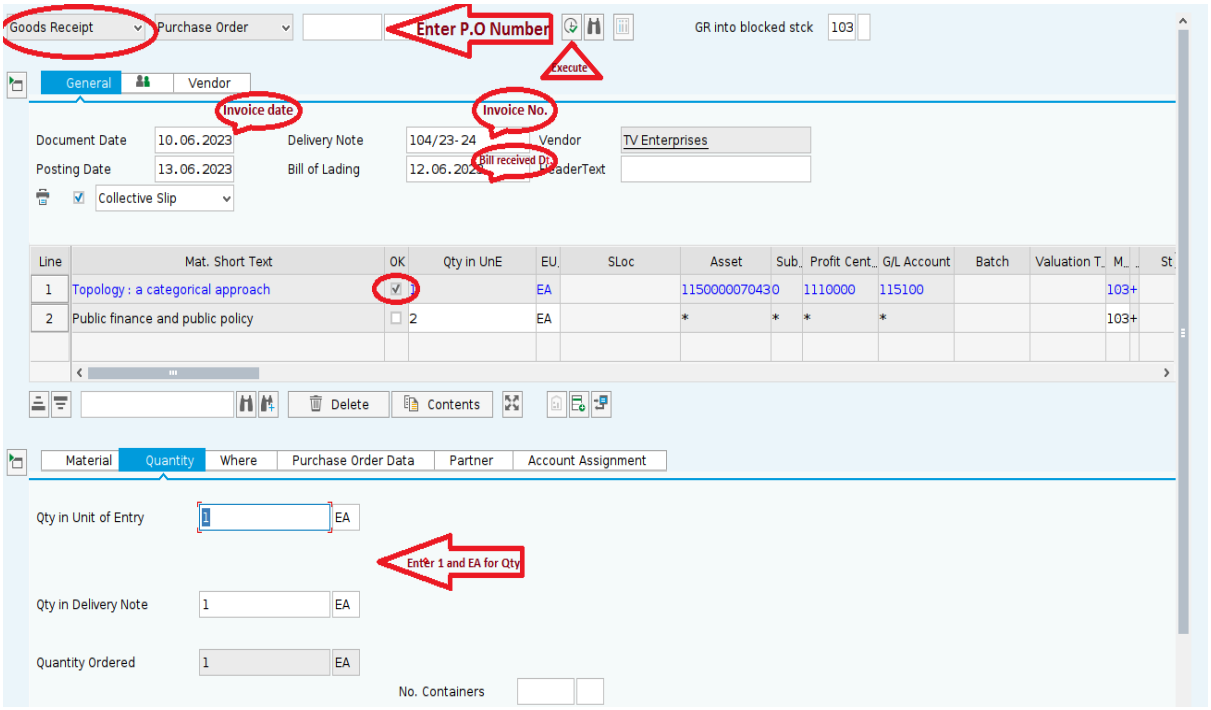

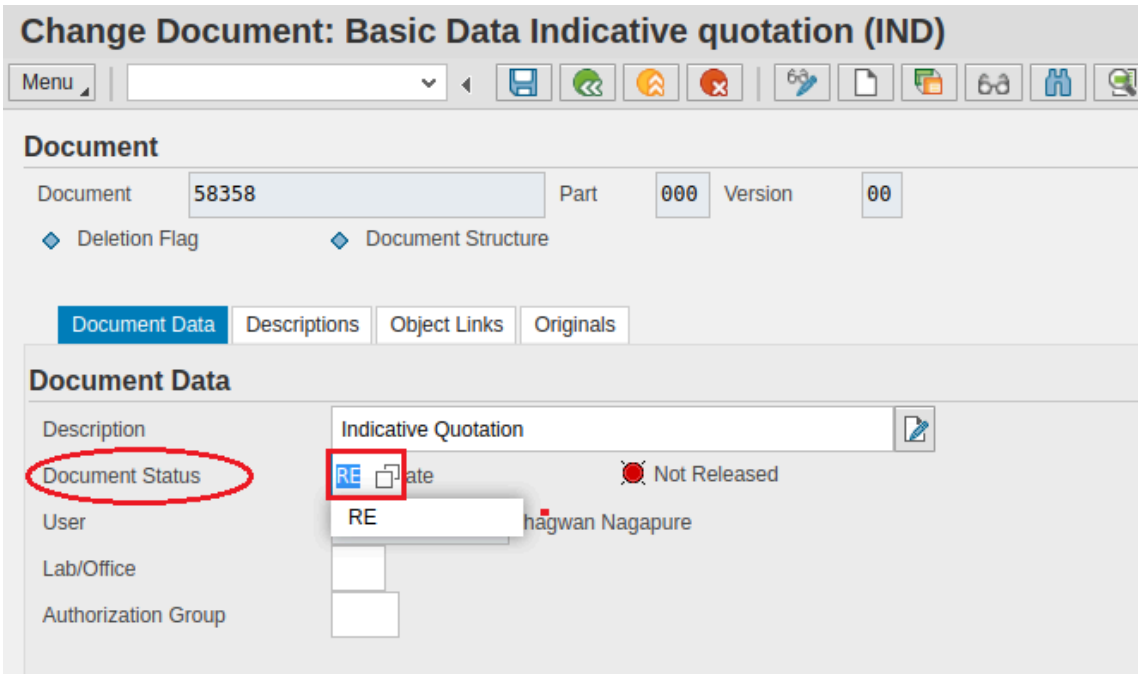

- A column will be displayed; double-click on the first cell.

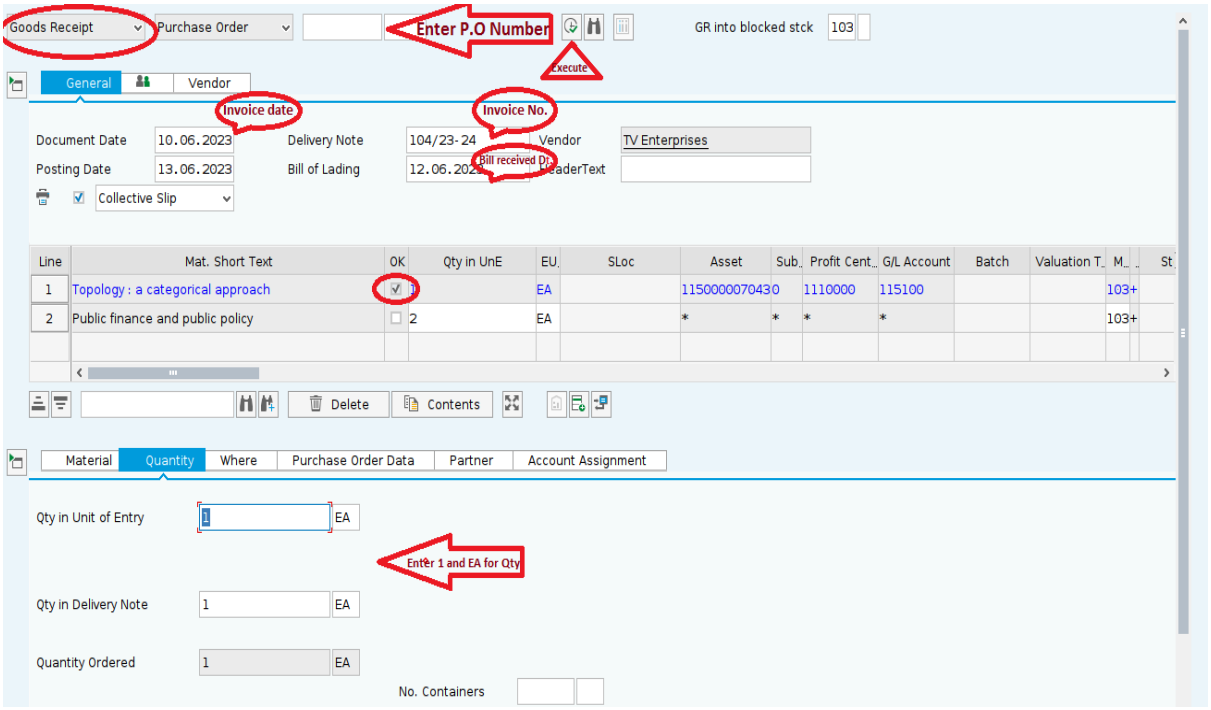

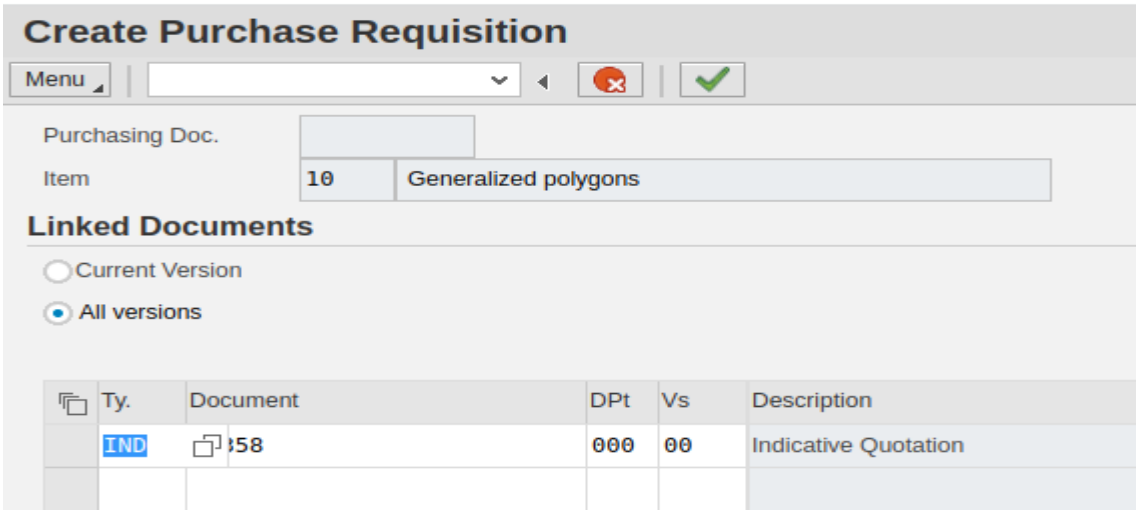

- Then a *related window* will appear.
- Update the document status from CT (Create) to *RE* (Release) on the *Document Data* tab.
- *Save* 

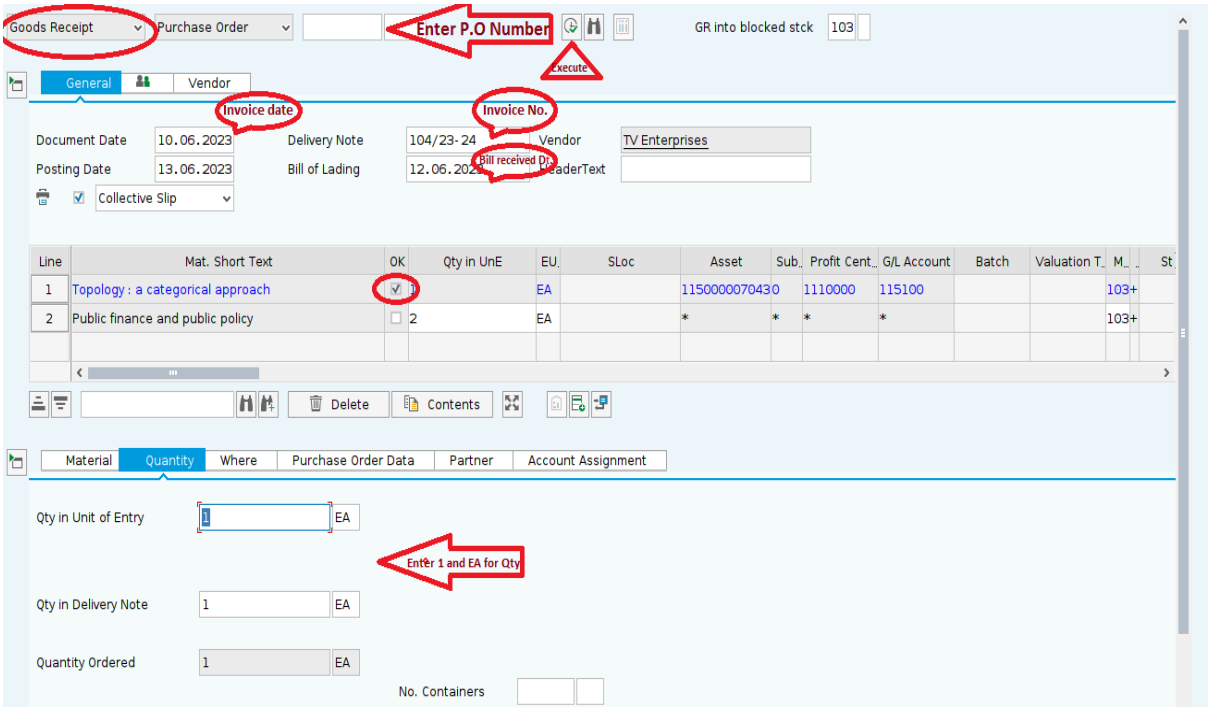

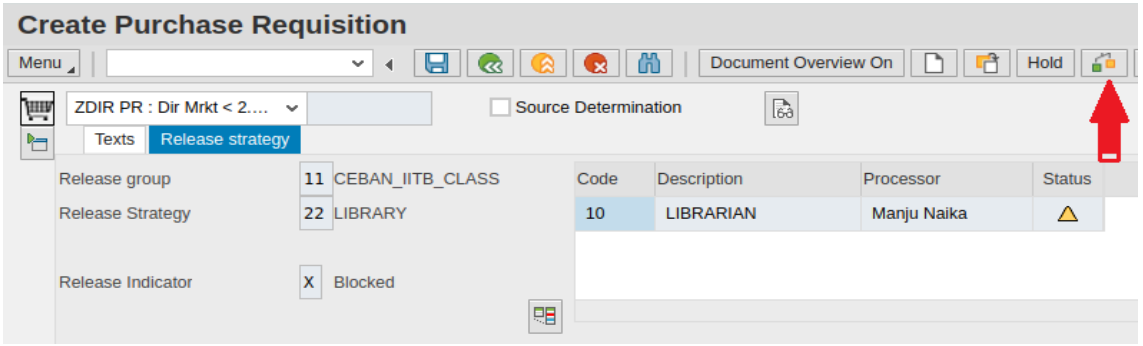

- On the window's taskbar, click the *Green tick (to transfer)*.

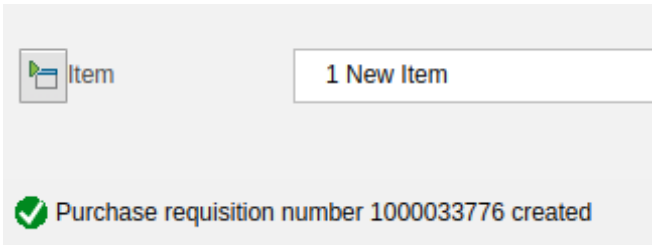

- To *check the document*, click on the check  icon.
- A message will appear if there is an issue with the document.
- *Save*  if the *document is okay*.

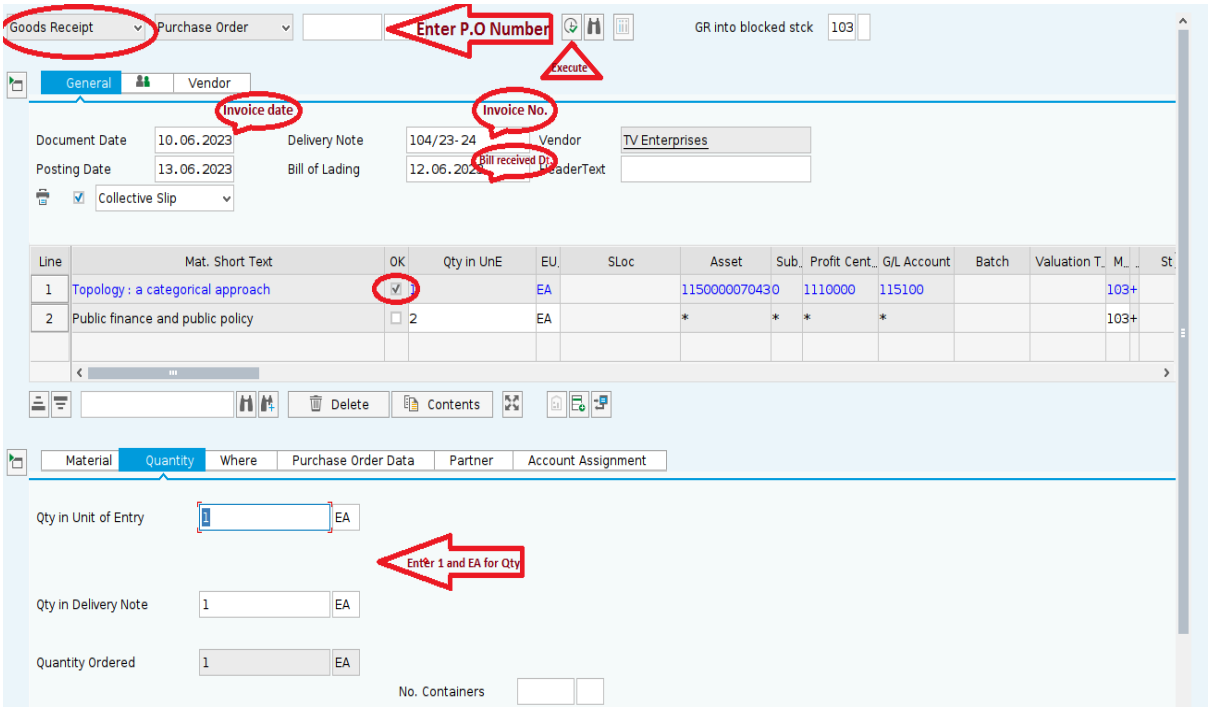

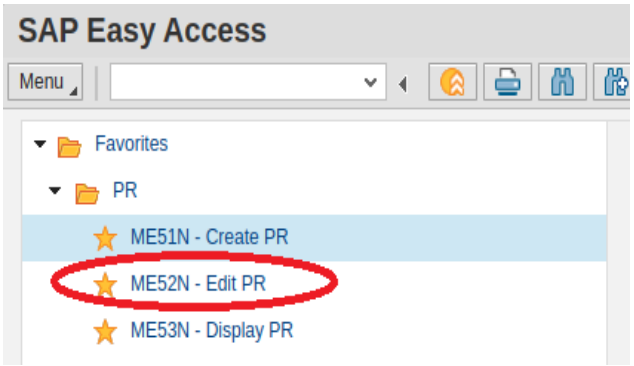

- PR number will be created, and note down the *PR Number*

2.1.1.2 Edit PR (ME51N)

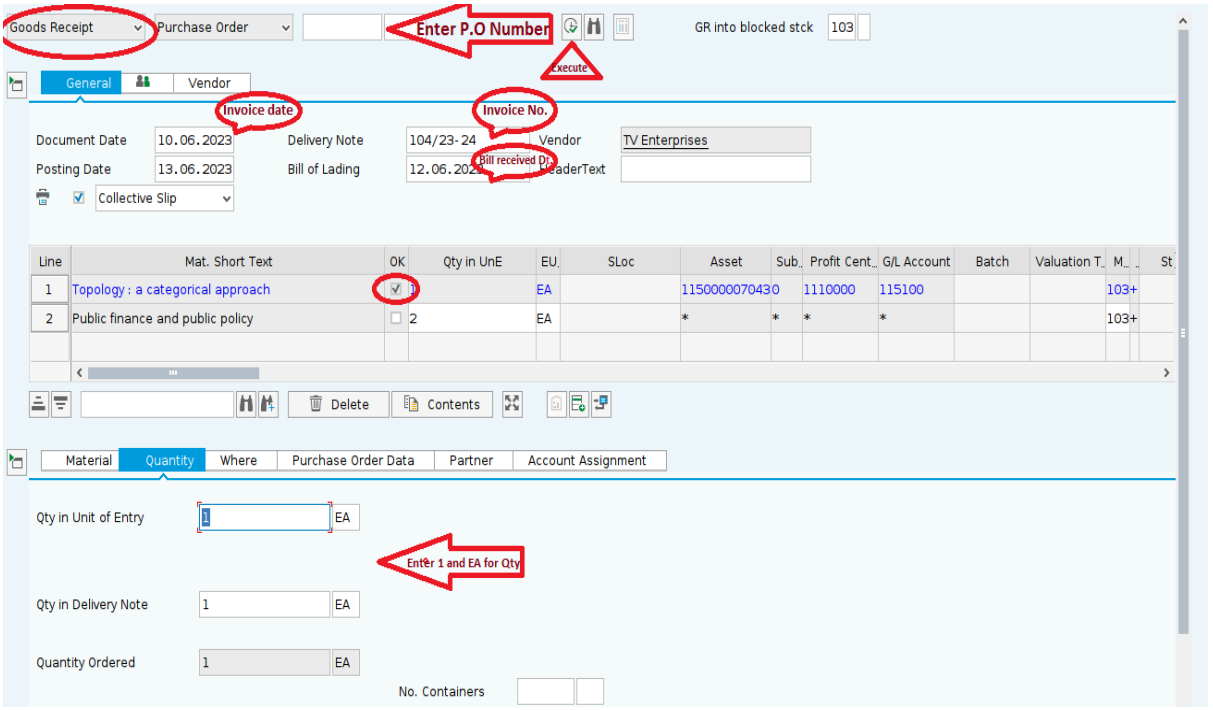

Using T-code *ME51N* and according to the directions will enable you to edit PR and take a print.

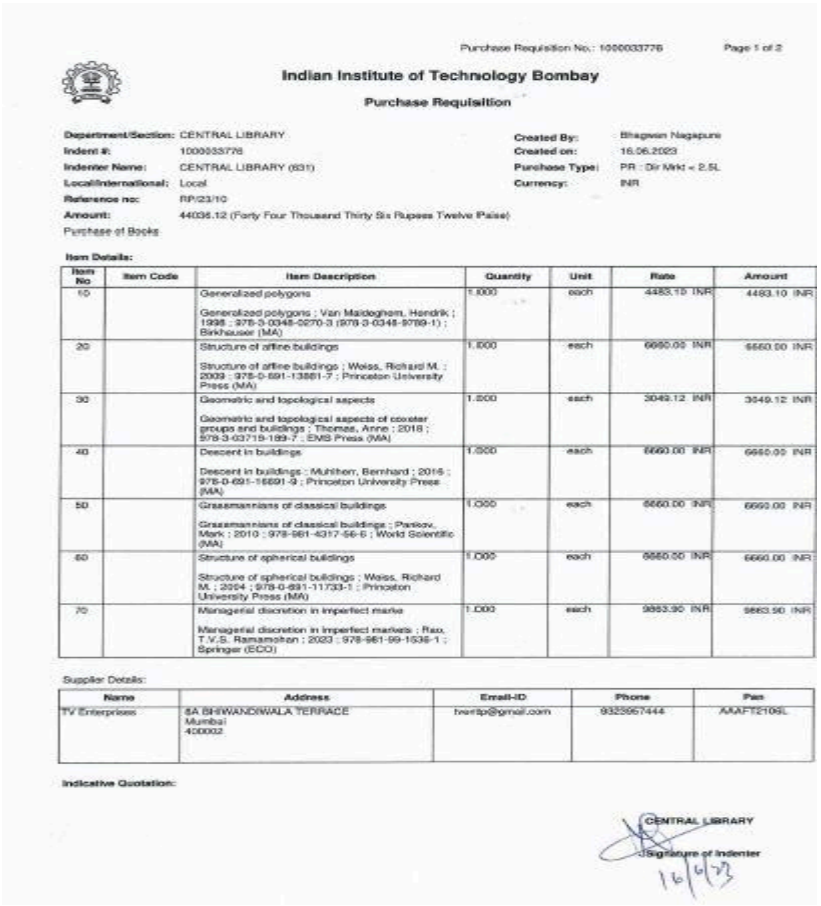

- A print PR option can be found in the third section of the window, on the "Customer Data" tab, for this particular document.

- If we want to change data or take a printout of the other vendors, then click on the "*other PR document"* icon, which is shown in the top row.

Indicative Quotation:

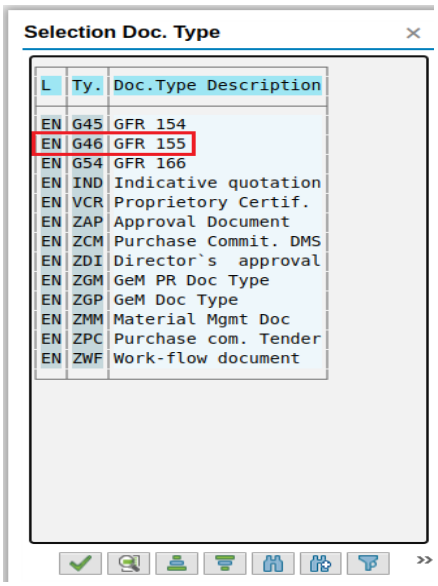

CENTRAL LIBRARY
Signature of Indenter
16/6/23

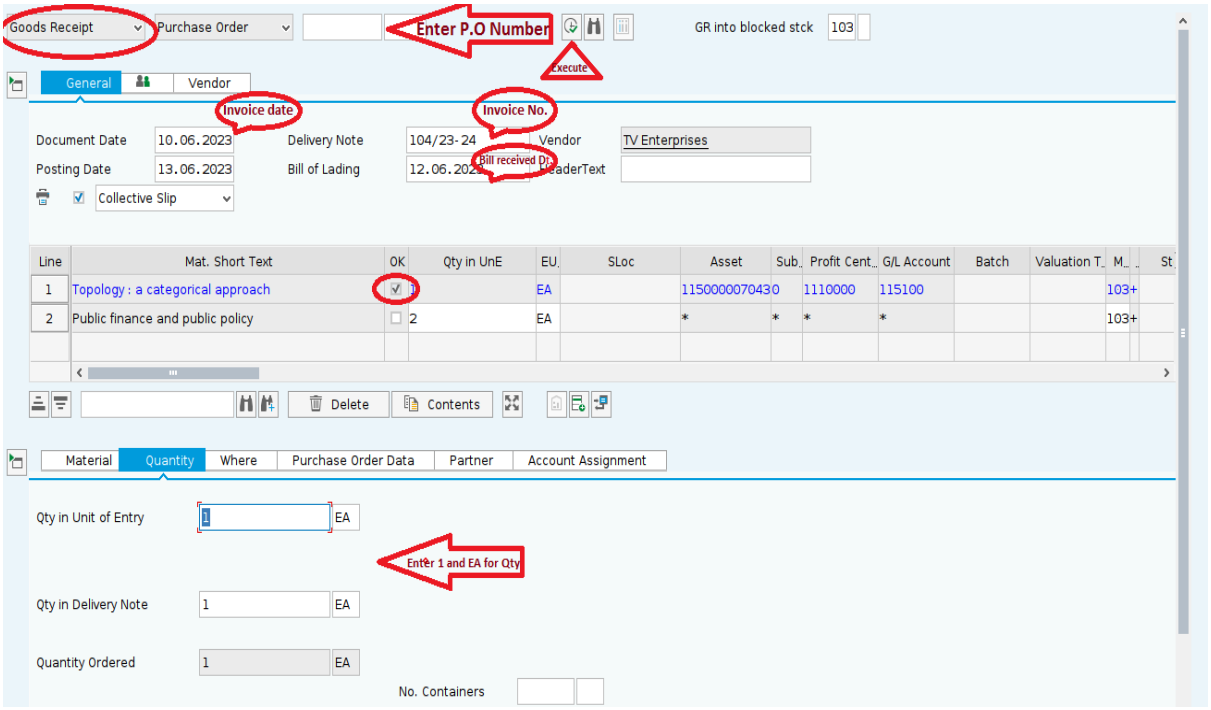

2.1.1.3 Attachment of GFR in PR

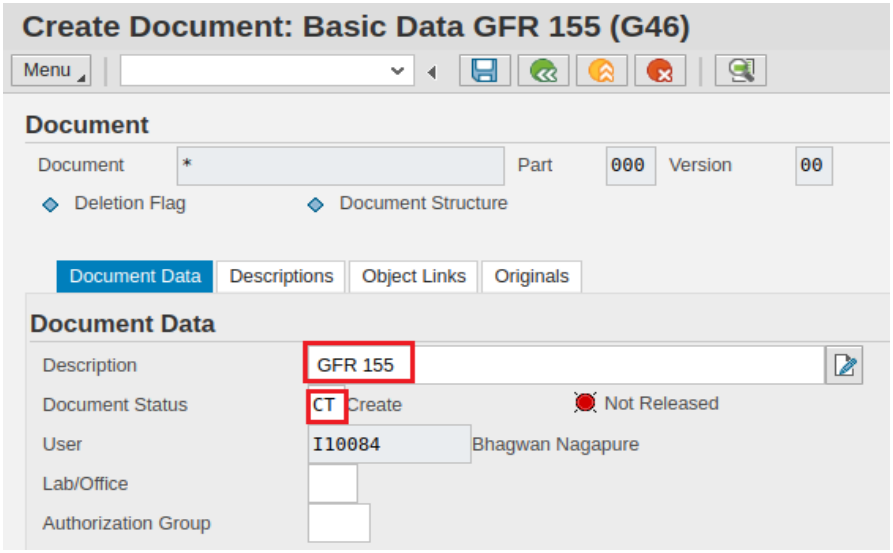

After collecting the hard copy of the PR, we must obtain approval (a signature) from the HOD or the person in charge of the section before attaching it to the GFR, as well as approval through the SAP system.

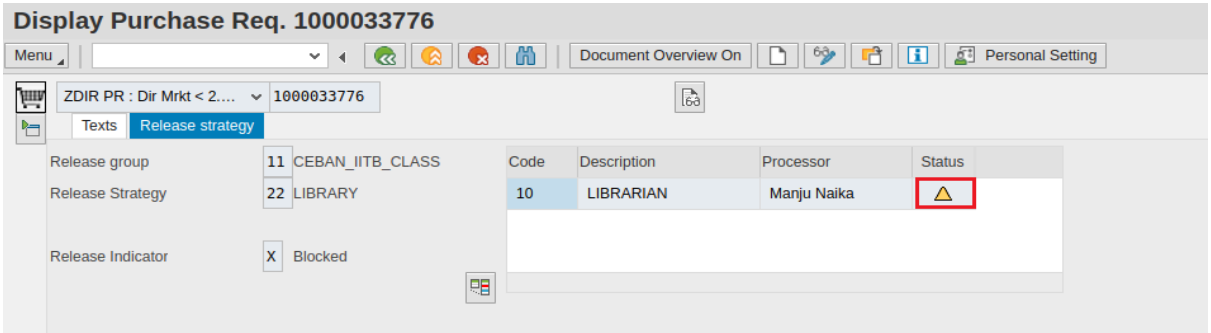

To attach a PR document to the GFR (Goods for Resale), we must follow all the procedures for attaching a comparative statement with PR. However, we only want to select *GFR 155* from the dialogue box, rather than the indicative quotations.

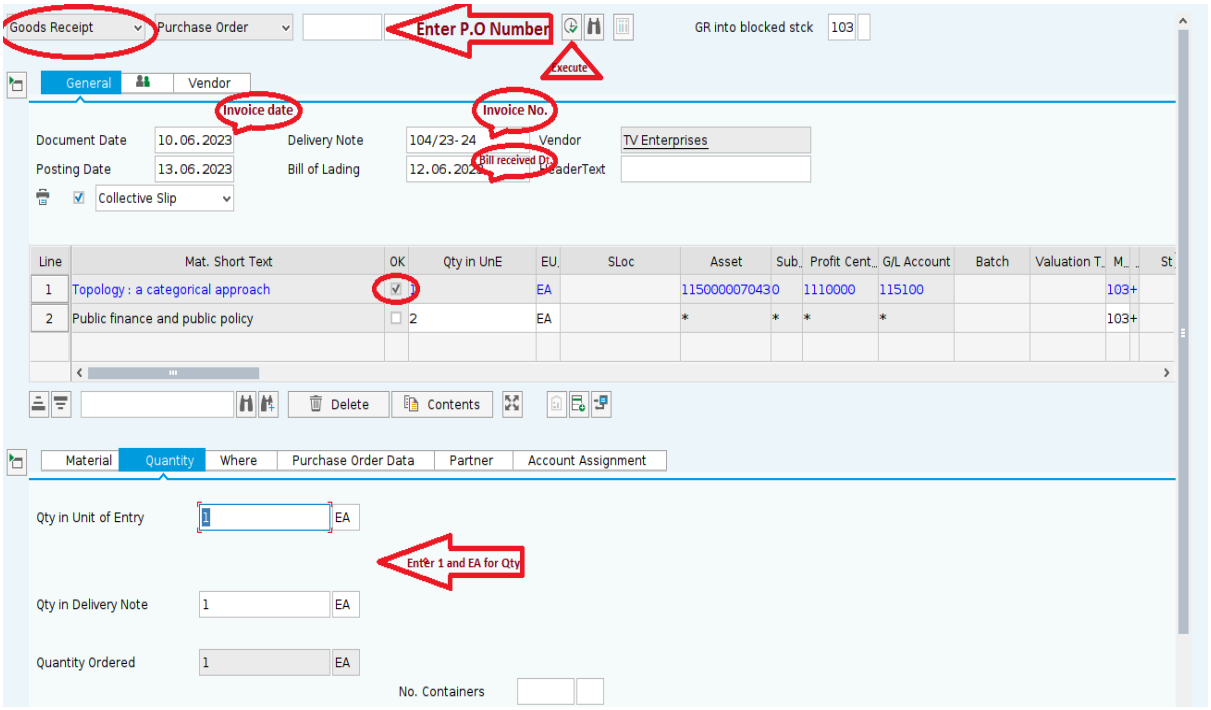

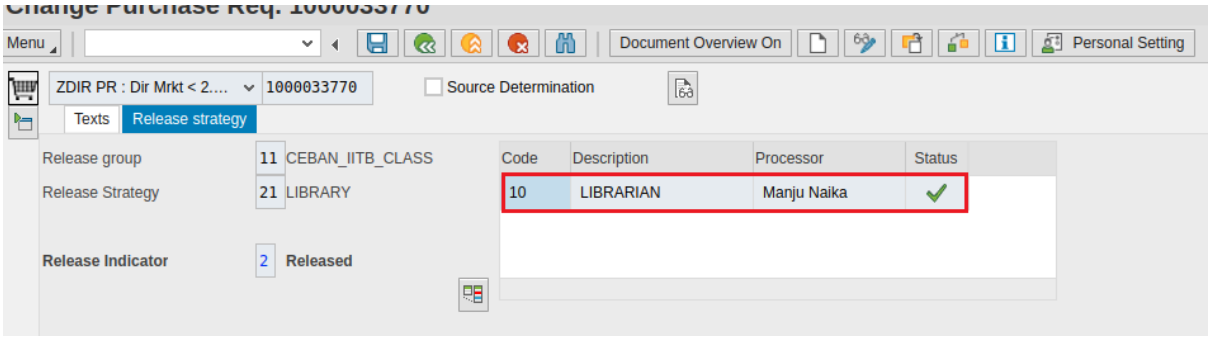

- After attaching the documents for creating a PO, we need the approval from the HOD/In-charge.
- After getting the approva,l we can proceed to the next step.

We must check the PR number to find out whether the document has been released or not. Green check marks indicate that the material has been released.

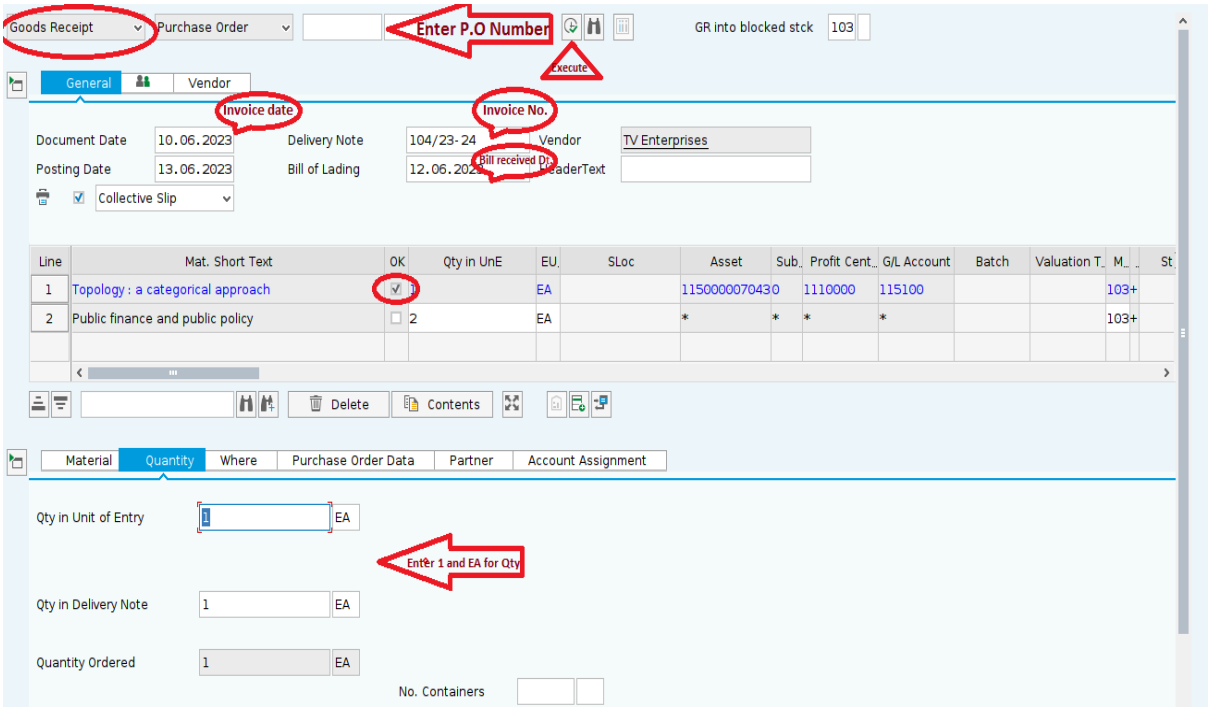

2.1.2 Purchase Order (PO)

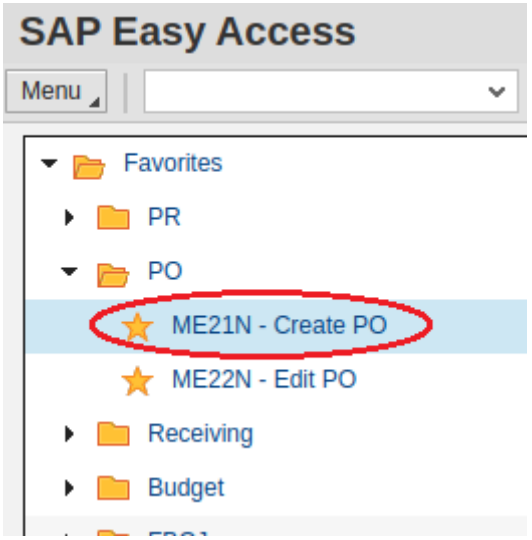

Formal request or instruction from a purchasing organisation to a vendor or a plant to supply or provide a certain quantity of goods or services at or by a certain point in time.

2.1.2.1 Create PO (ME21N)

To create a PO, follow these guidelines.

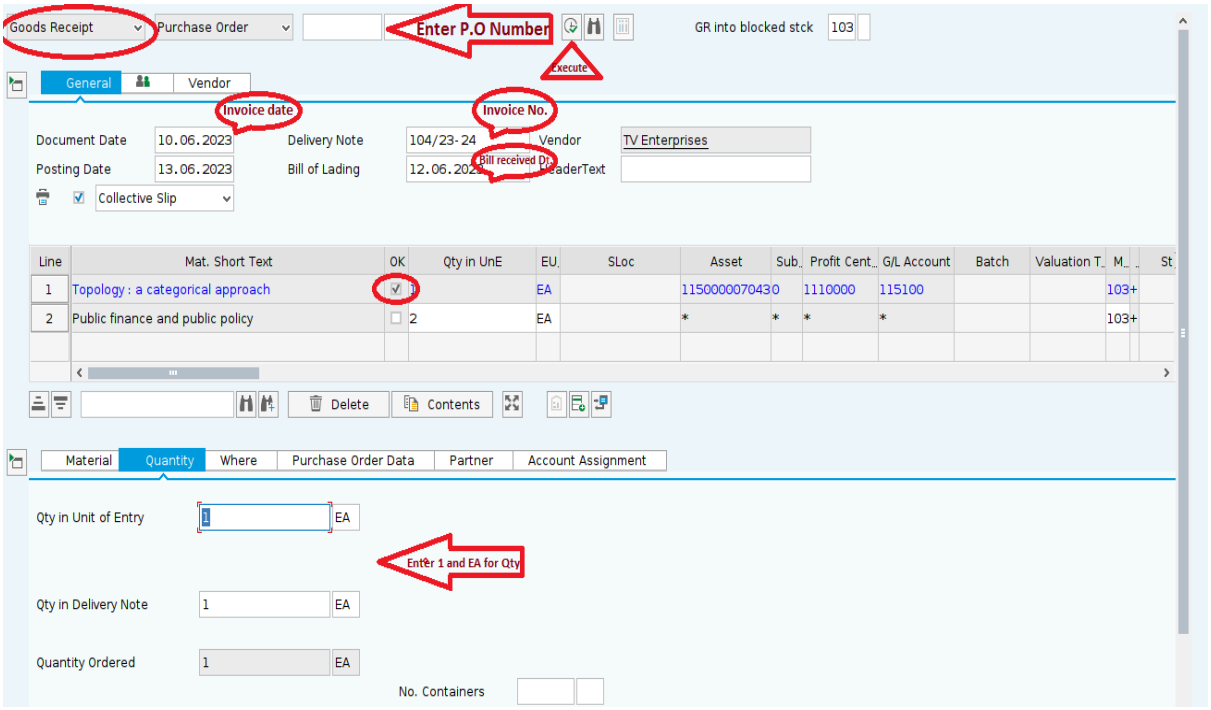

- Select the *t code ME21N*

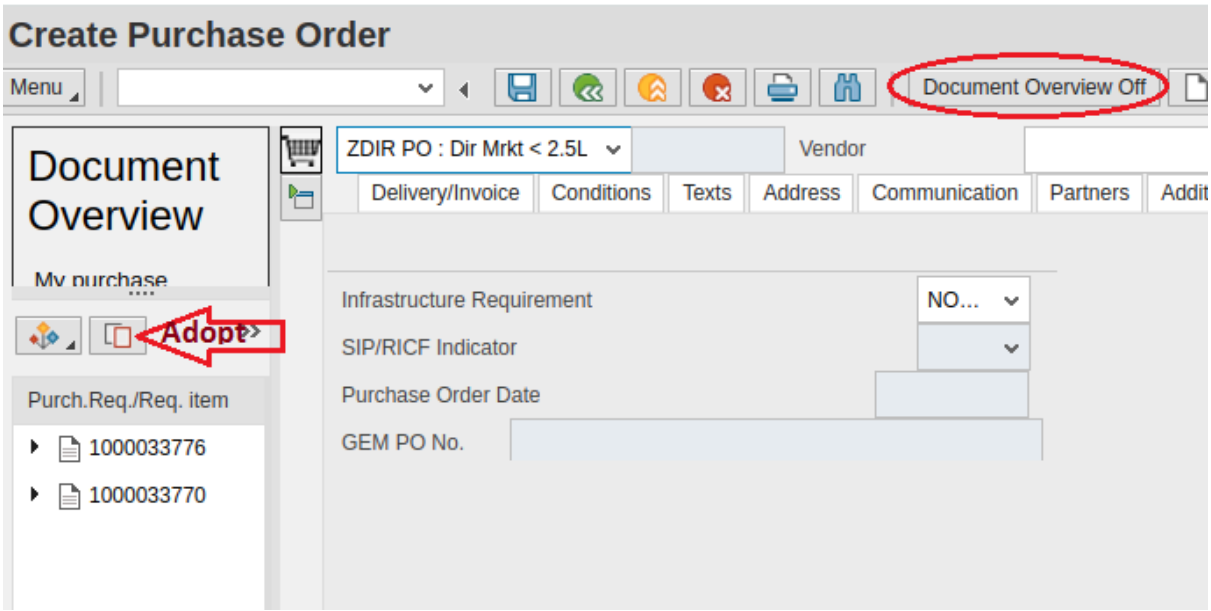

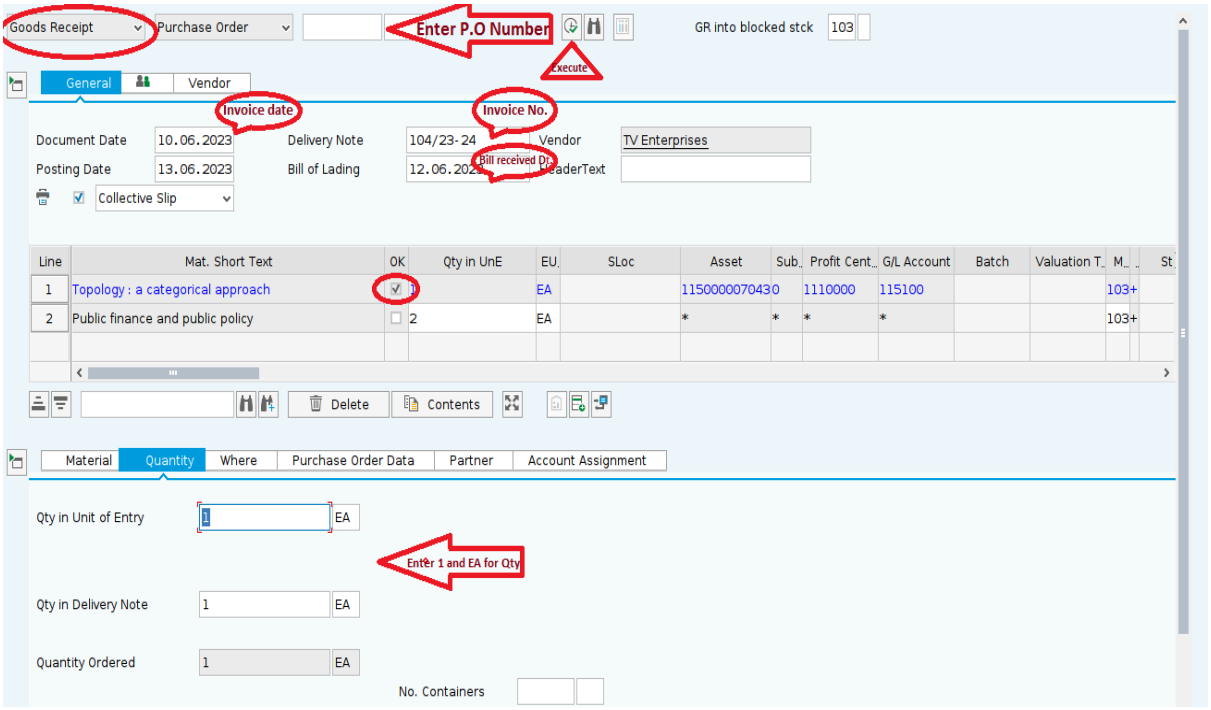

- A new window will be opened.
- Choose the *PR No.* from the *document overview.*
- Ensure the Document Overview tab is disabled in the window's upper right corner if you are unable to access the Document Overview option.
- Select the *adopt icon*  under the Document overview.
- Then the details related to the PR No. will be displayed. Simply *click once* on the PR number.
- Make Sure that *ZDIR PR: Dir Mrk<t2.5L* from the dropdown in the second row of options. Choose the appropriate option

  (Choose *ZDIR PR: Dir Mrk<t2.5L* for Books and *ZSTI PR: Single Tender* for e-books).

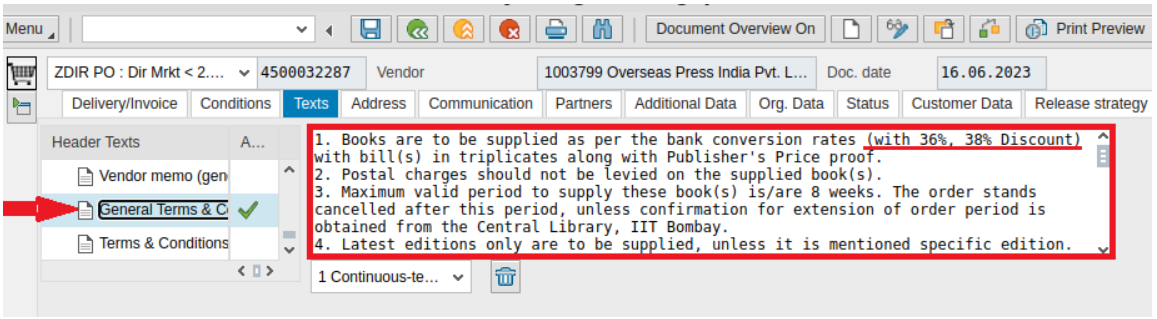

- Select the *Text tab* from the row of tabs in the *window's first section*.
- Select 'Terms of Payment" from the *header list.*
- In this box, paste the payment terms.

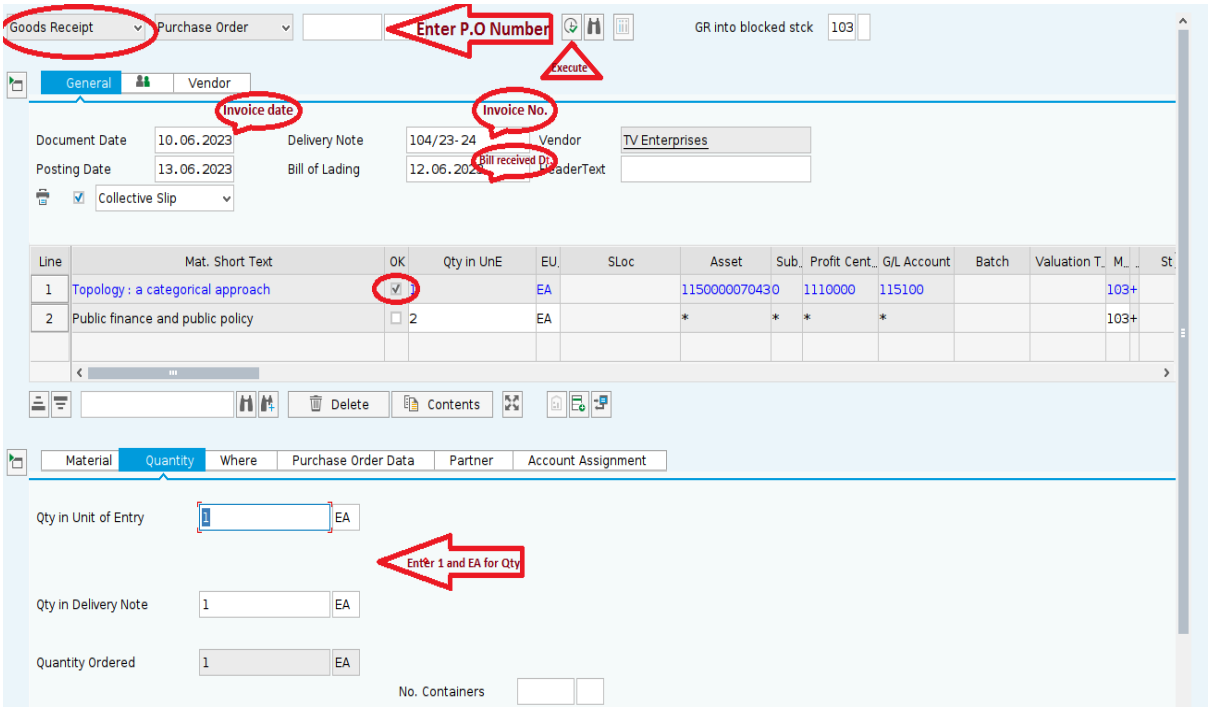

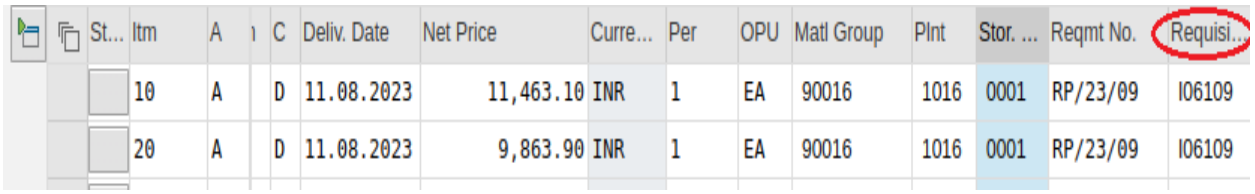

- On the *header text list*, select General Terms and Conditions.
- Enter the *general terms and conditions* into the *text box* next to it.
- Include the *discount percentage* when pasting the texts.

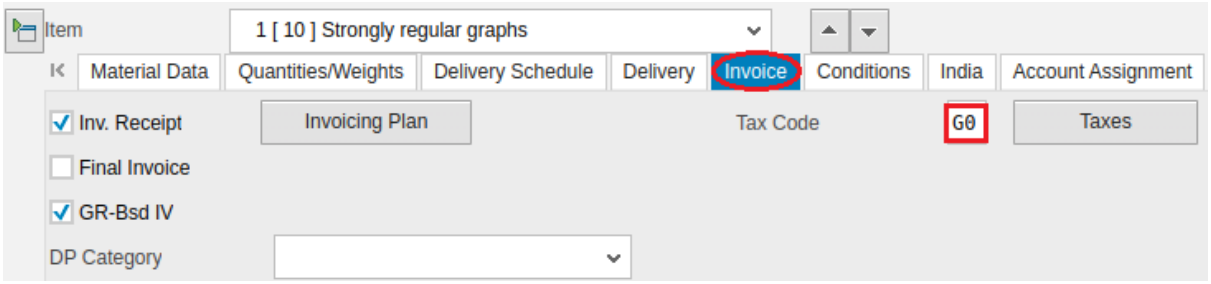

- Include the *requisitioner number* (Faculty ID) on the second window pane.

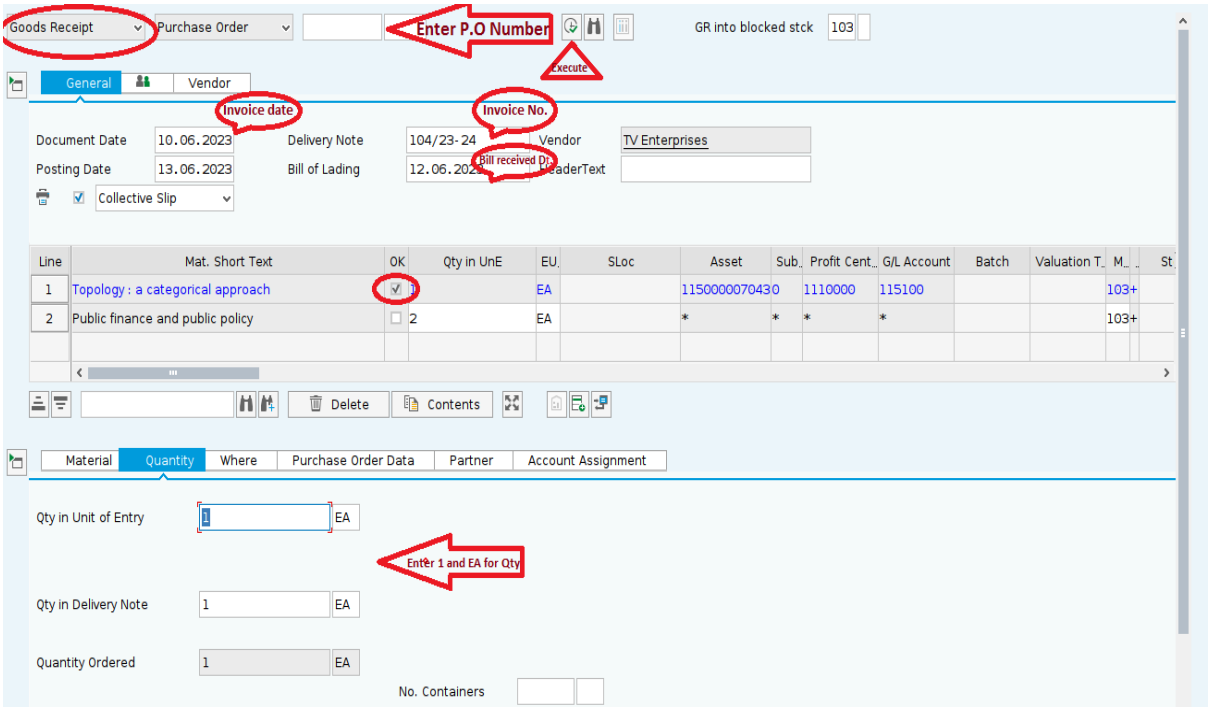

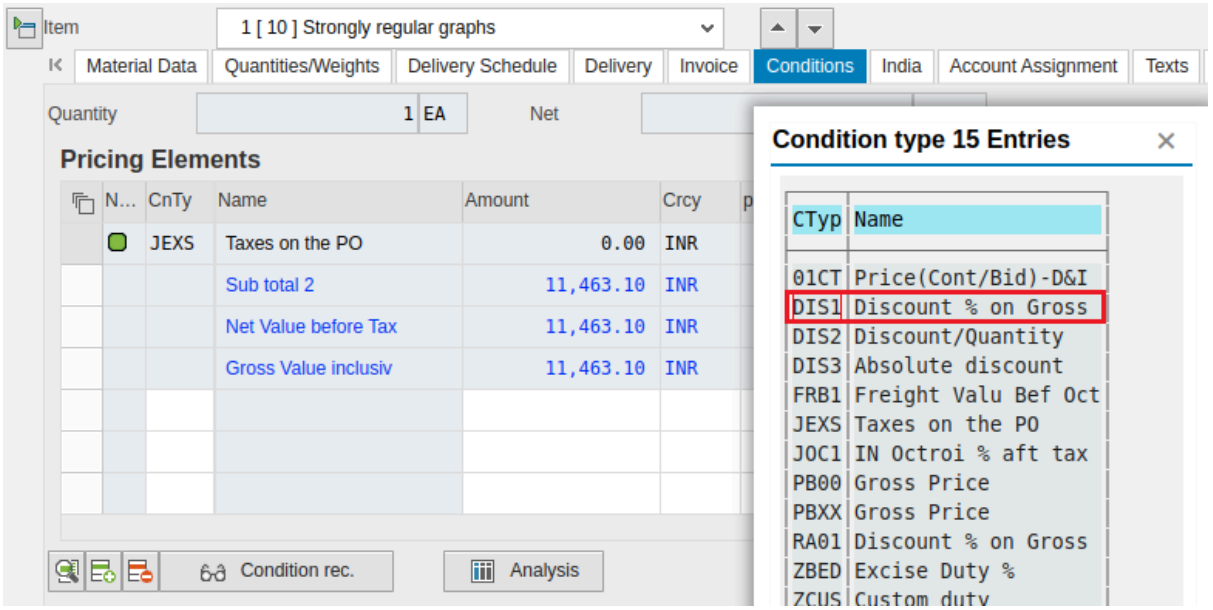

St...	Itm	A	C	Deliv. Date	Net Price	Curre...	Per	OPU	Matl Group	Plnt	Stor. ...	Reqmt No.	Requisi...
	10	A	D	11.08.2023	11,463.10	INR	1	EA	90016	1016	0001	RP/23/09	I06109
	20	A	D	11.08.2023	9,863.90	INR	1	EA	90016	1016	0001	RP/23/09	I06109

- Enter *G0 (G zero)* as the *tax code* in the *third section* of the window's *Invoice tab.*
- Navigate to the other titles by using the up and down arrows on the same pane, and then repeat the process if there is more than one.

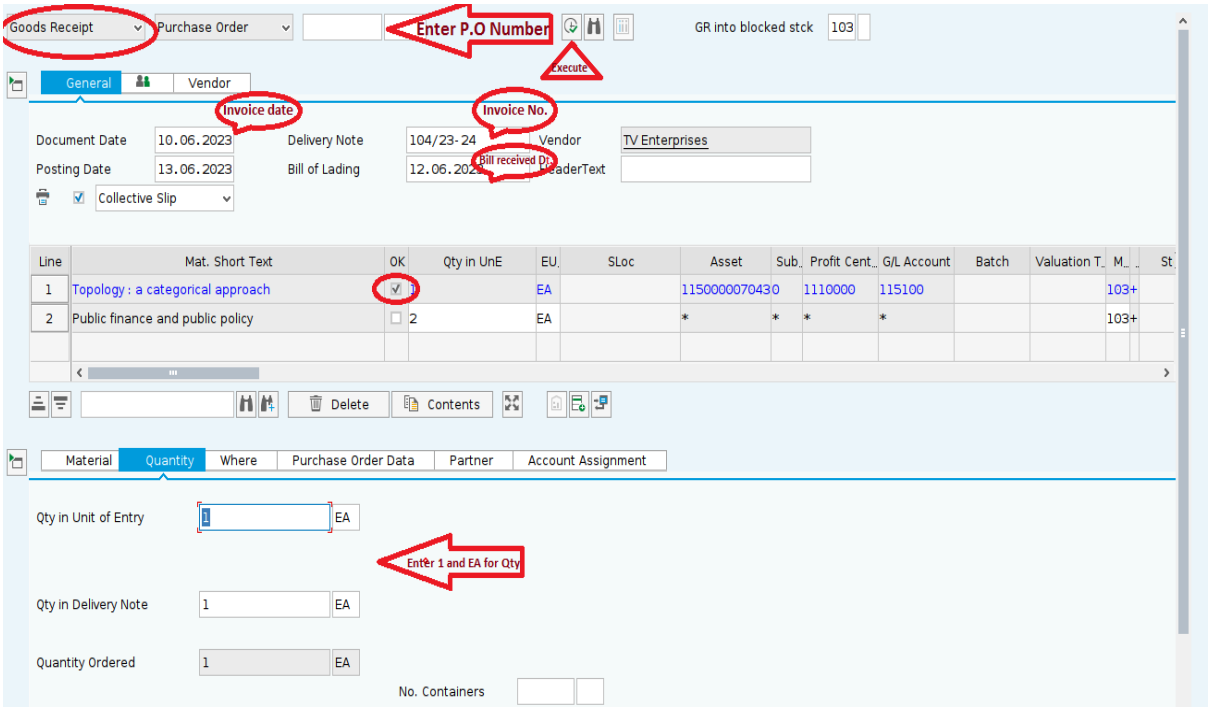

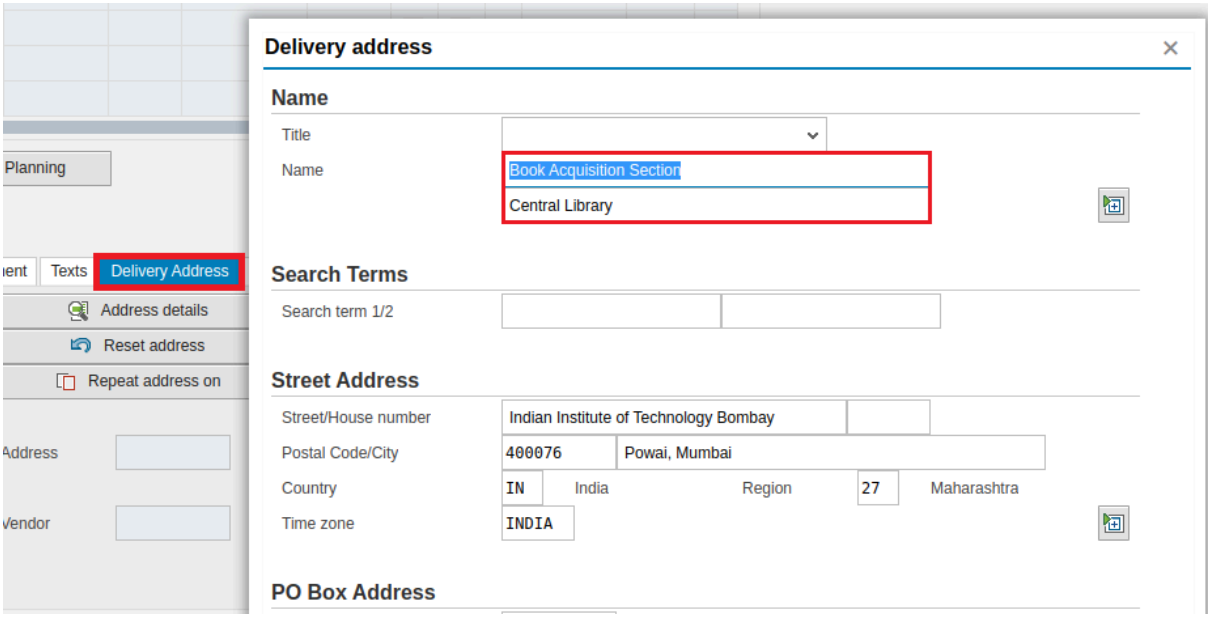

- In the third section of the window, select the "*Conditions*" tab.
- A dialogue window will pop up after clicking the blank first cell.
- Select *DIS1* for the discount.
- Mention the *discount in the amount section*.

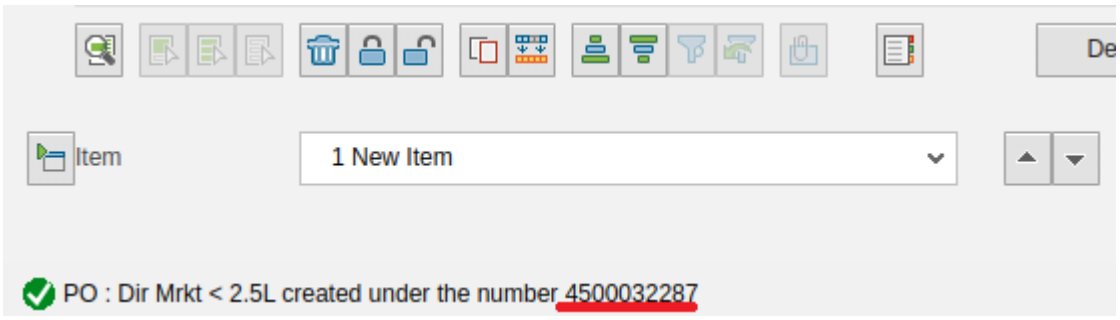

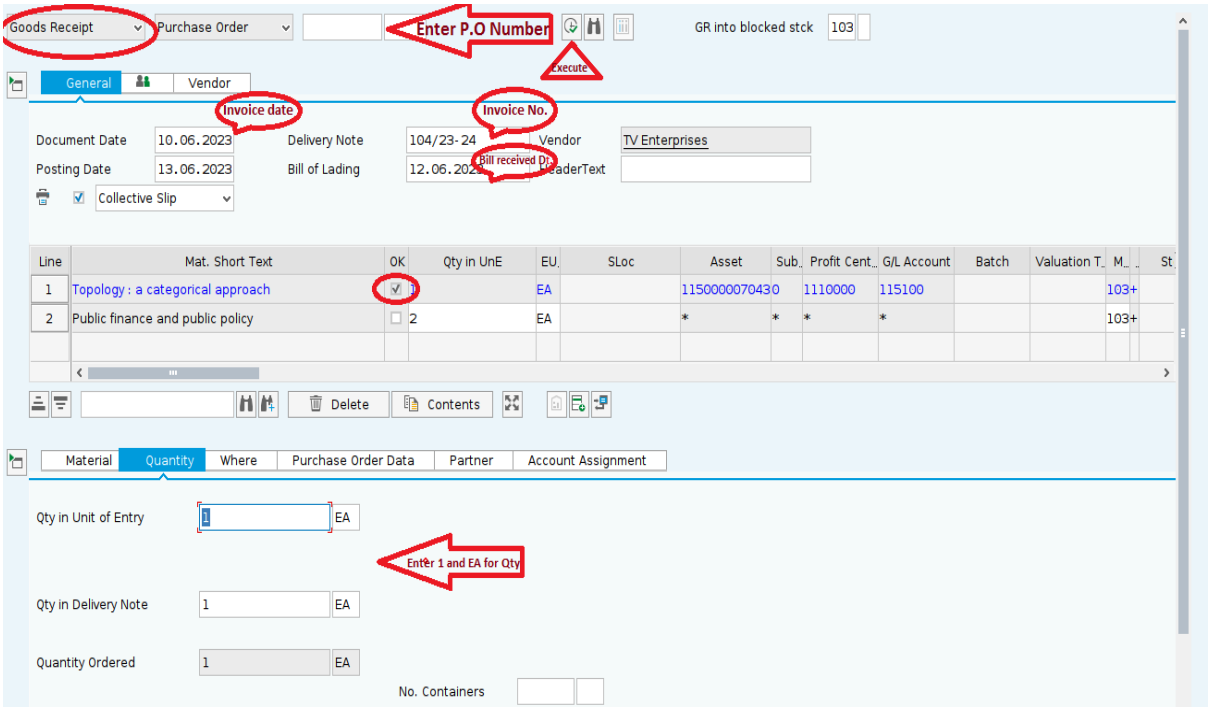

- In the *third section* of the window, select the *"Delivery address"* tab.
- A new pop-up window will appear.
- In the *spaces* provided, enter the *necessary information*.
- *Tick mark* on the window.
- Click *ok* on the next window.
- The address will then be displayed under the 'Delivery Address' tab.

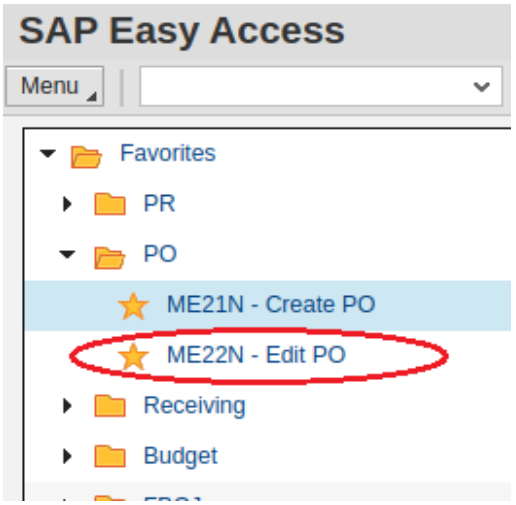

- *Click on the save icon*  *for saving the PO, and* note down the *PO Number*

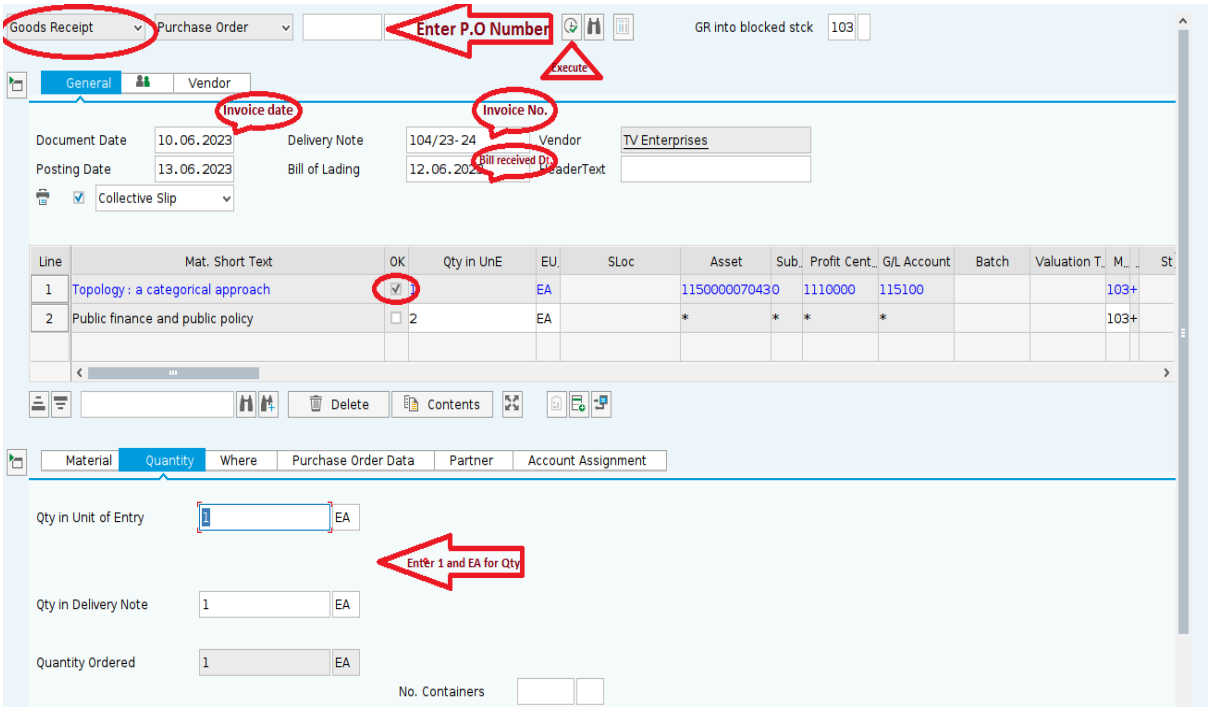

2.1.2.2 Edit PO (ME22N)

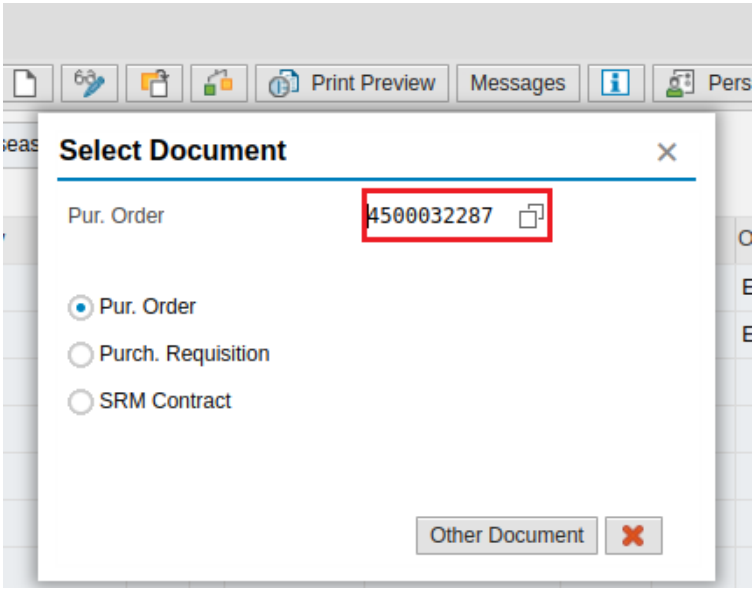

Using T-code *ME22N* and following the directions will enable you to edit the PO and print it.

- Click on the other documents icon.
- A new pop-up window will appear.

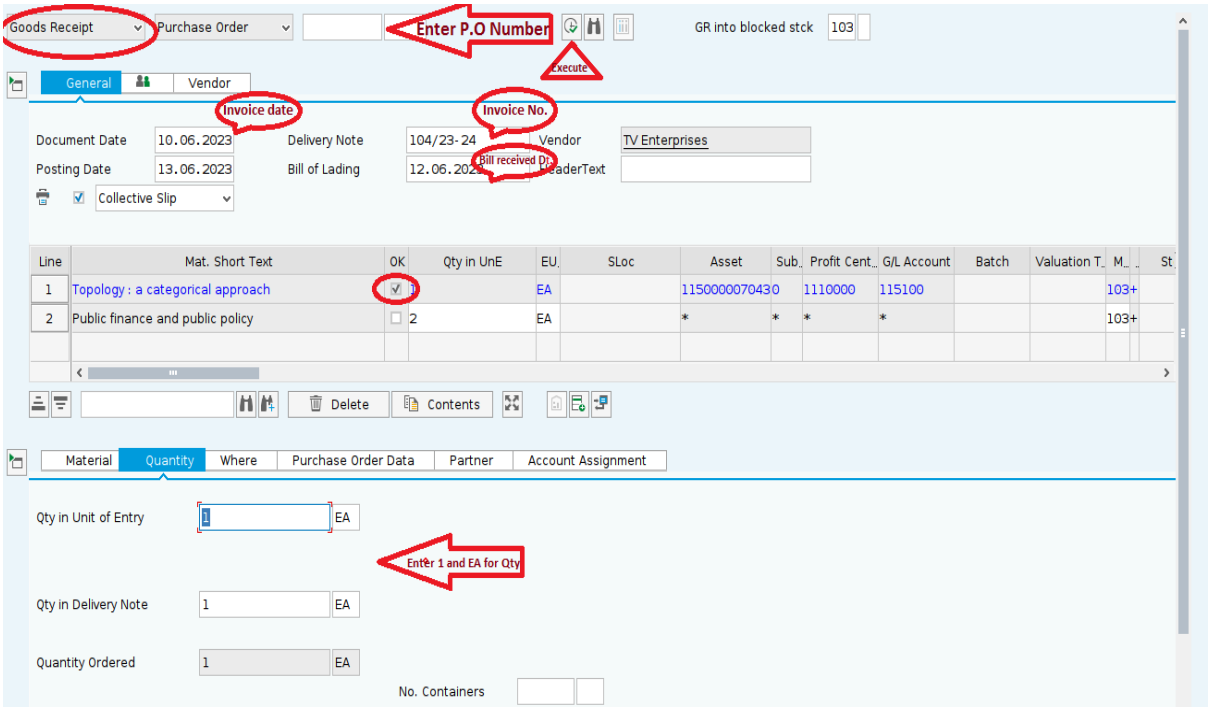

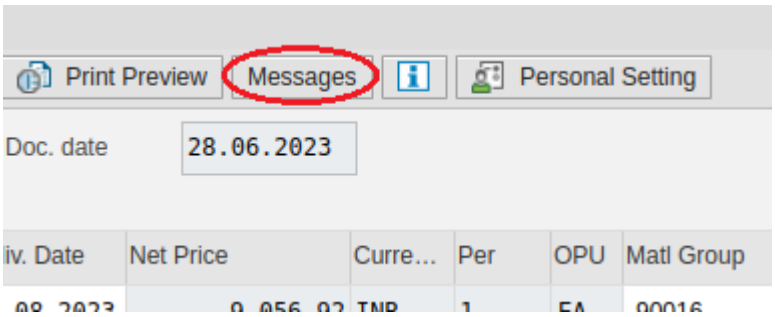

- Enter the *PO number*.

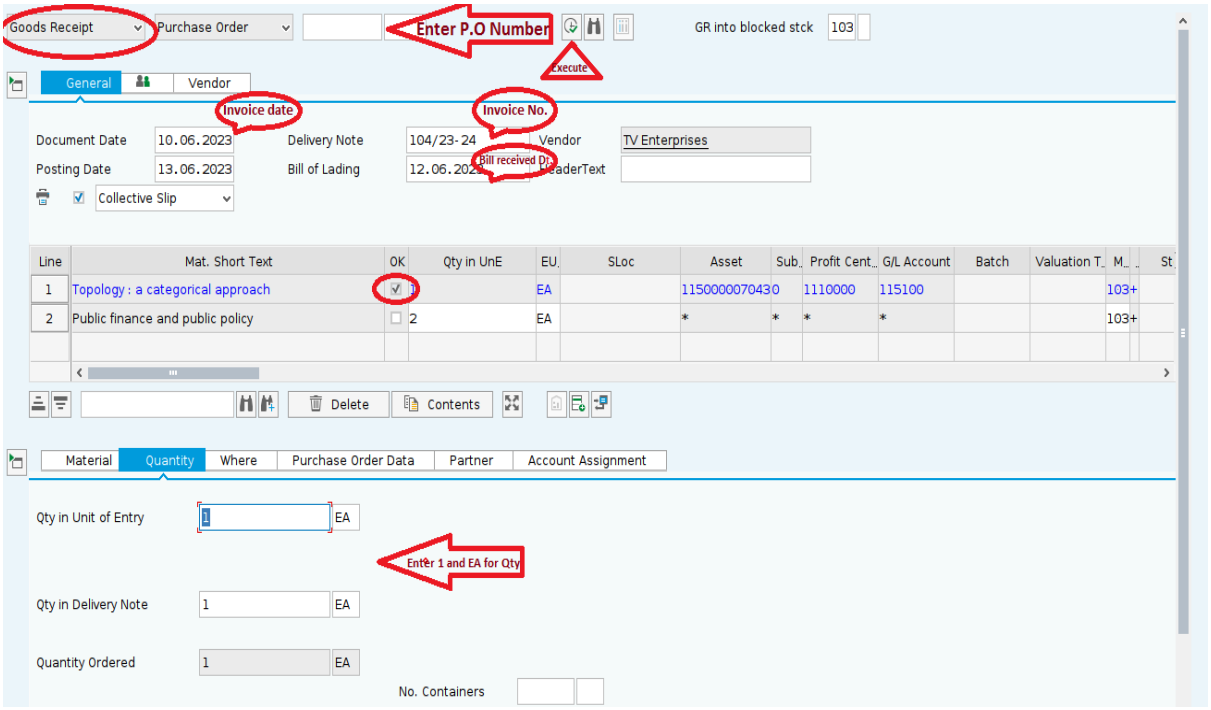

There is a risk that an error may occasionally occur when printing a PR or PO. In this case, the draft printout won't be seen. To overcome this:-

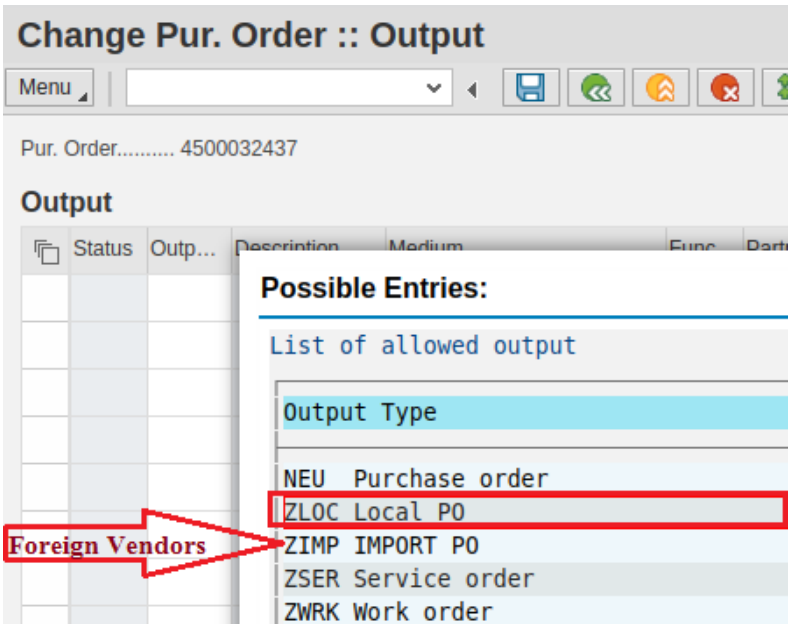

- Select the *Messages* tab from the first part of the window

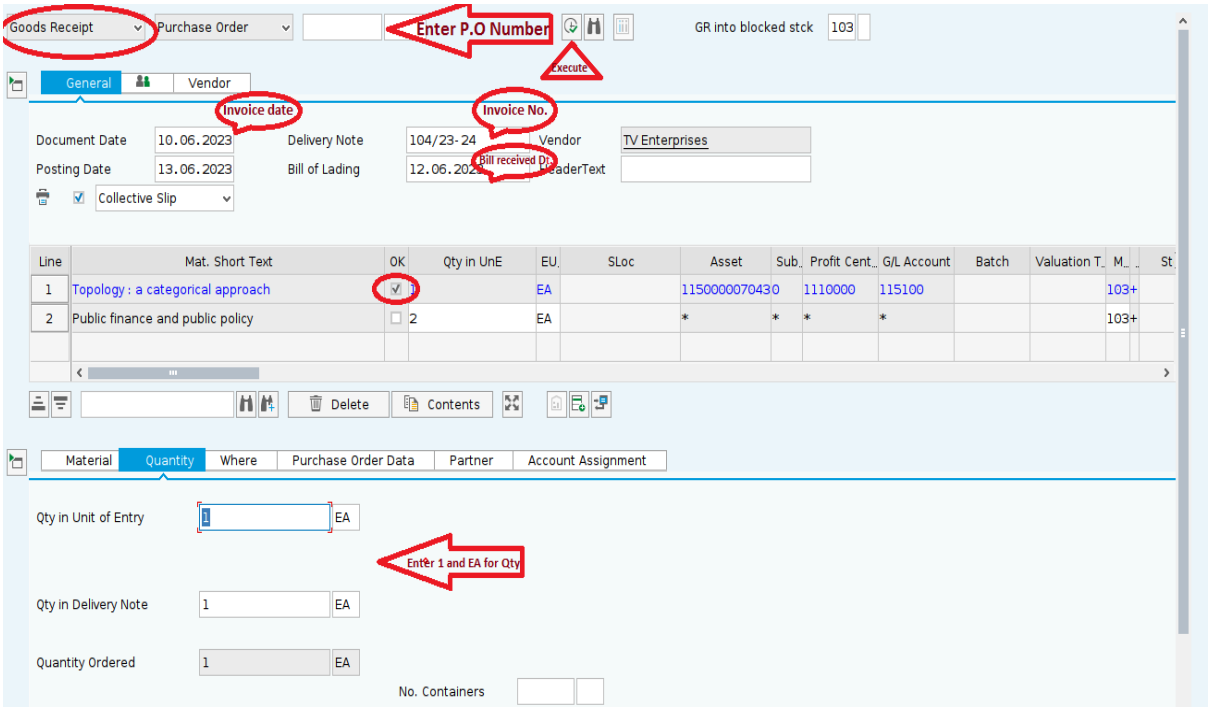

- Then click on the blank cell of the table
- A pop-up will be displayed, and choose *ZLOC Local PO* for local vendors.
- If the vendor is foreign, choose *ZIMP Import PO*

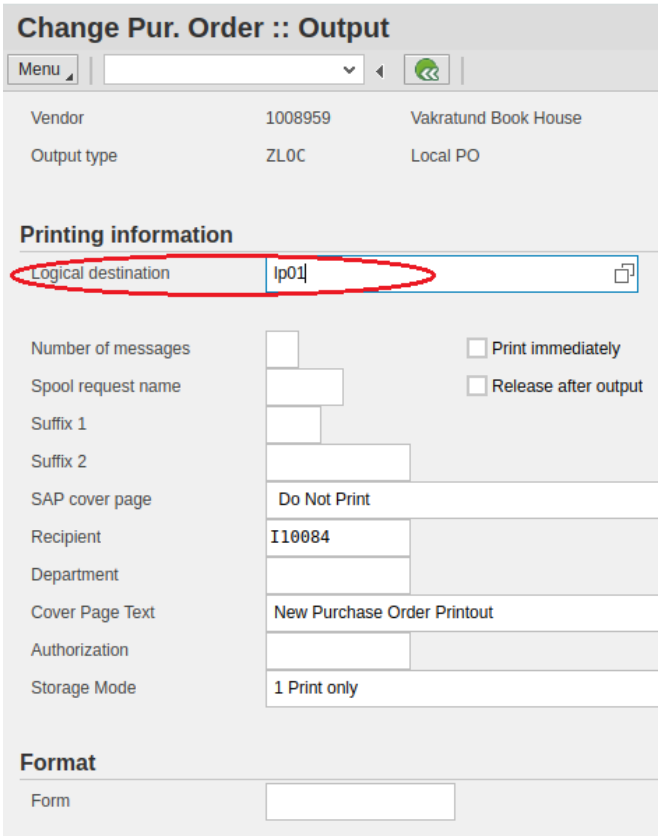

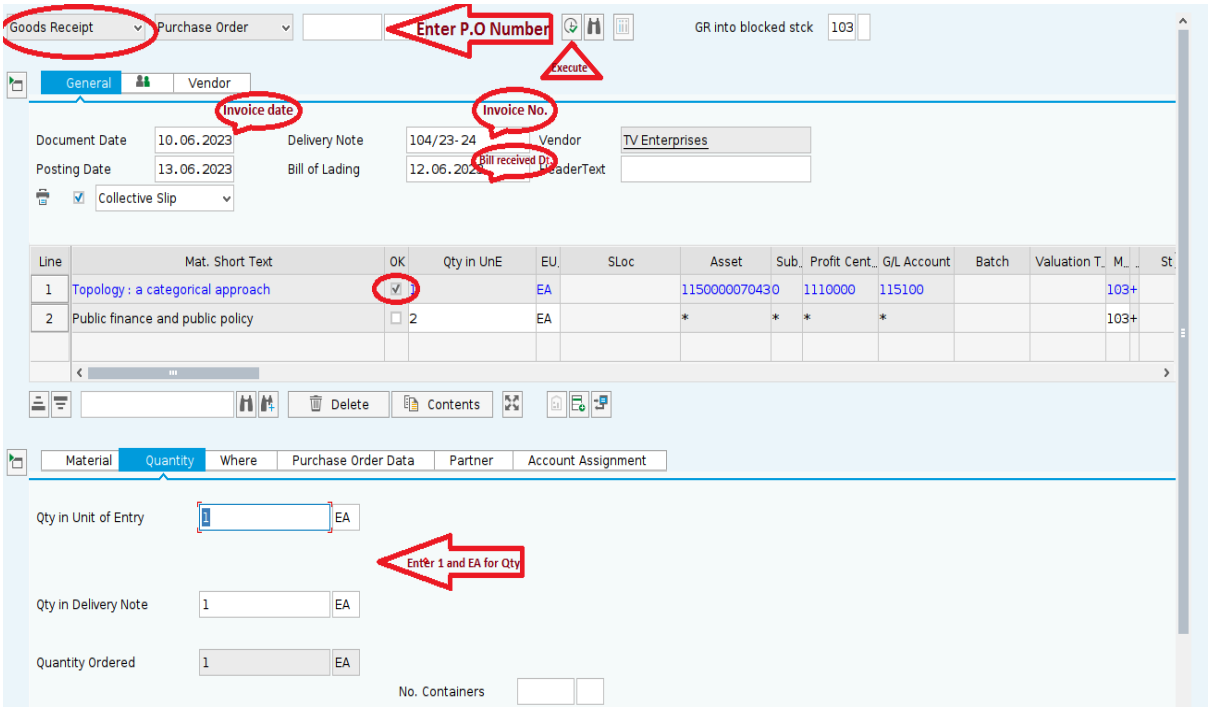

On the next window

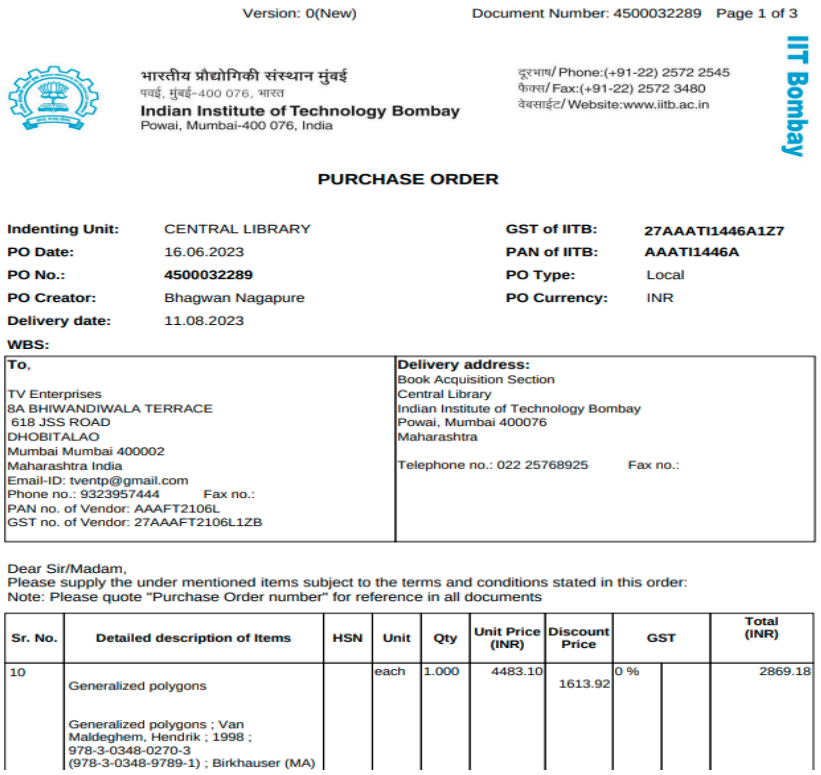

- Local designation - *Lp01*
- Press *Enter*
- Then *Save*

- *Check the details to ensure they are correct.*
- *Then inform HOD/Incharge to check and approve the PO.*
- *After the approving, print out three copies of the PO*

Registers are maintained in the BAS Section for entering PR and PO numbers, as well as suggestion numbers. Spreadsheets are maintained to store all suggestion numbers, PR, PO, etc., and to access them conveniently.

2.2 Ordering through Koha LMS

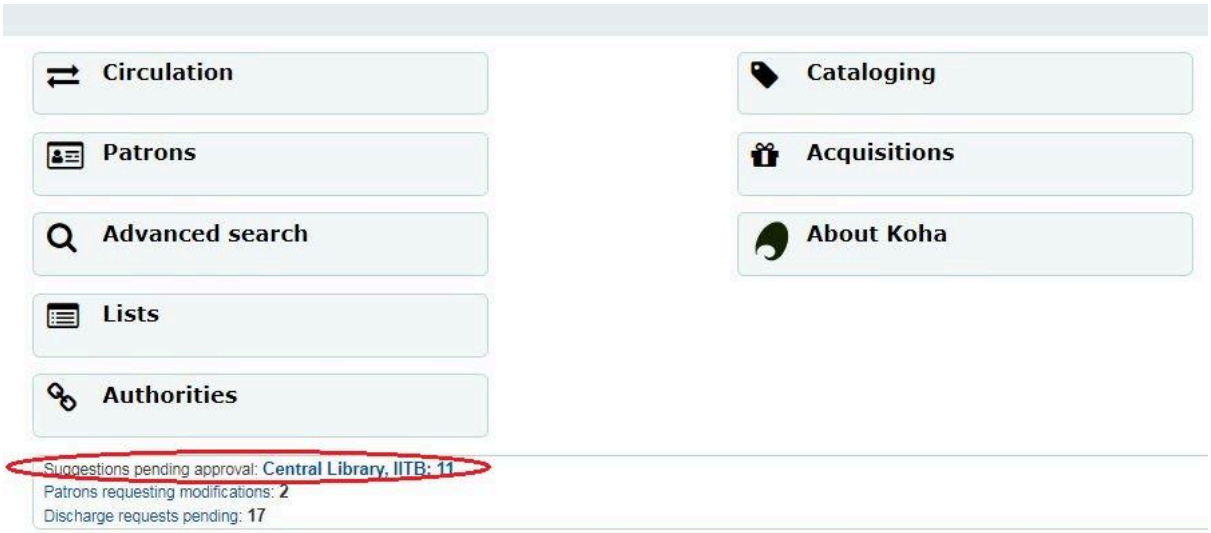

To order books through Koha, follow the instructions below.

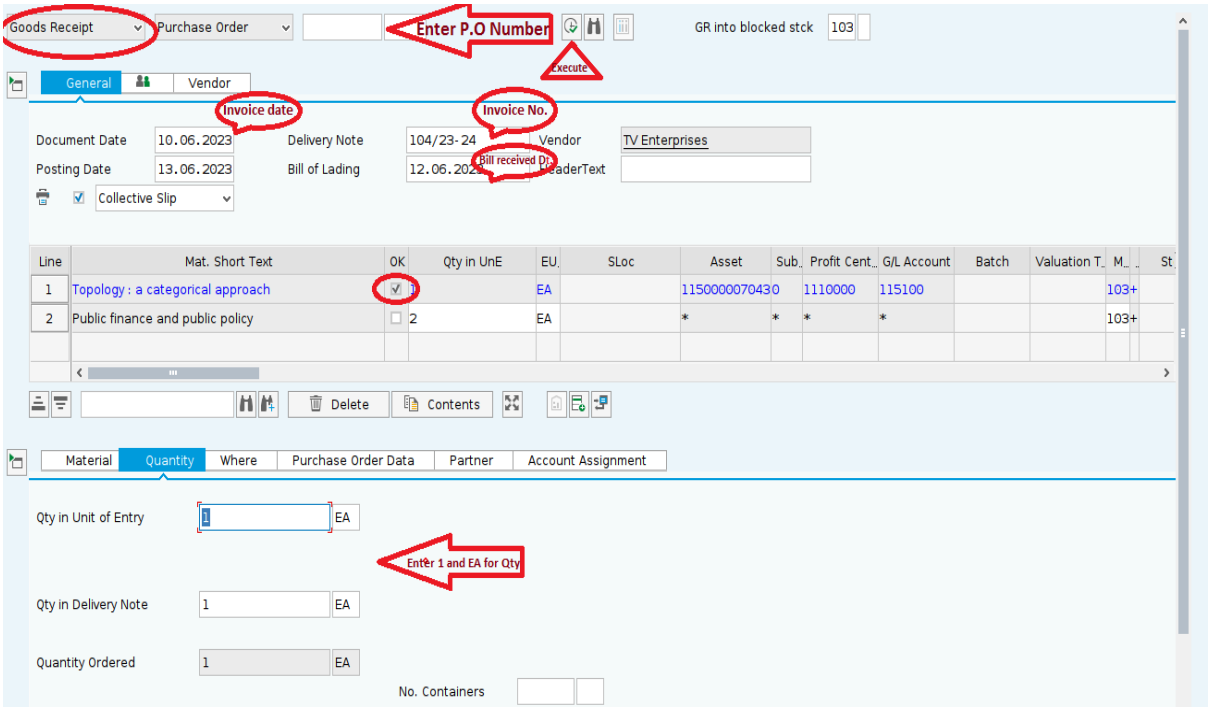

2.2.1 Suggestion approval

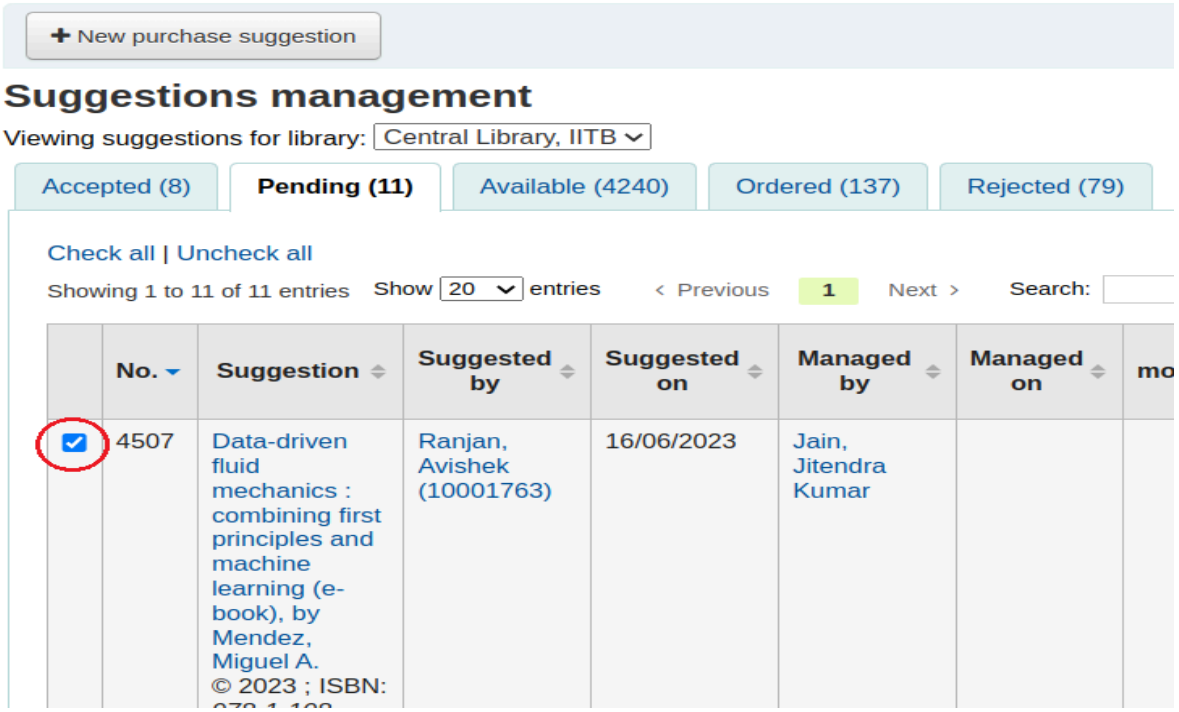

For ordering purposes through Koha, we first need to change the status of the suggestions from 'pending' to 'accepted'. To do this, follow the instructions below.

- Browse the *Koha homepage*.
- Select the *"Suggestions pending approval*" option from the menu below the module tabs.

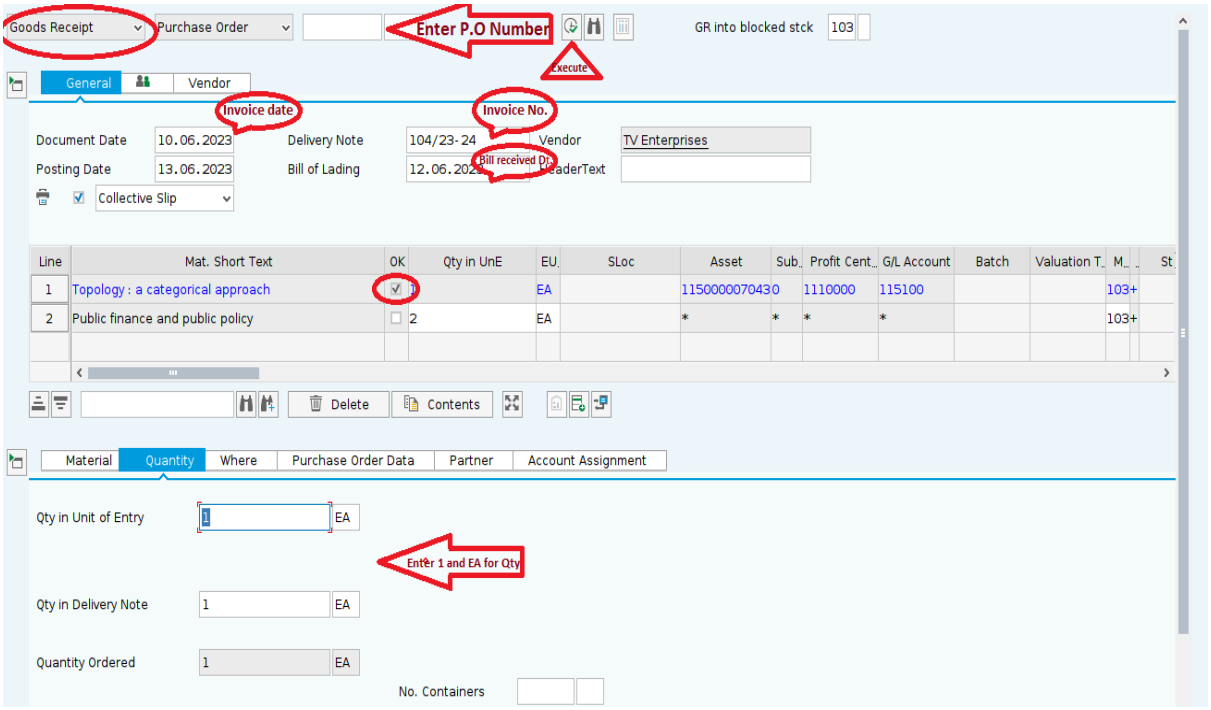

- A new window will be opened.
- Select the *title* you want to process by *checking the box* next to its *suggestion number.*

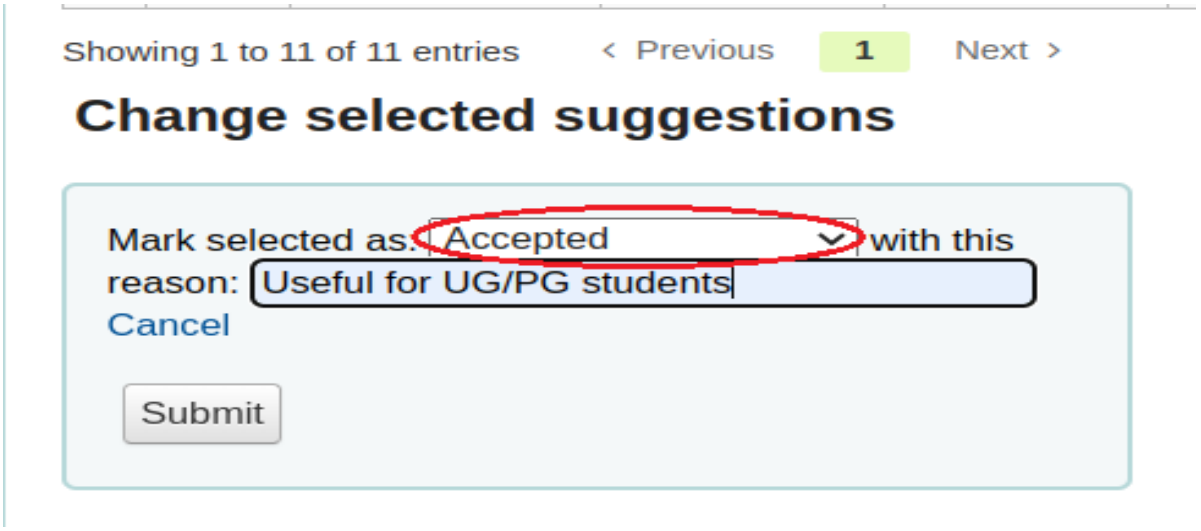

There will be a few fields at the bottom of the page that need to be filled out.

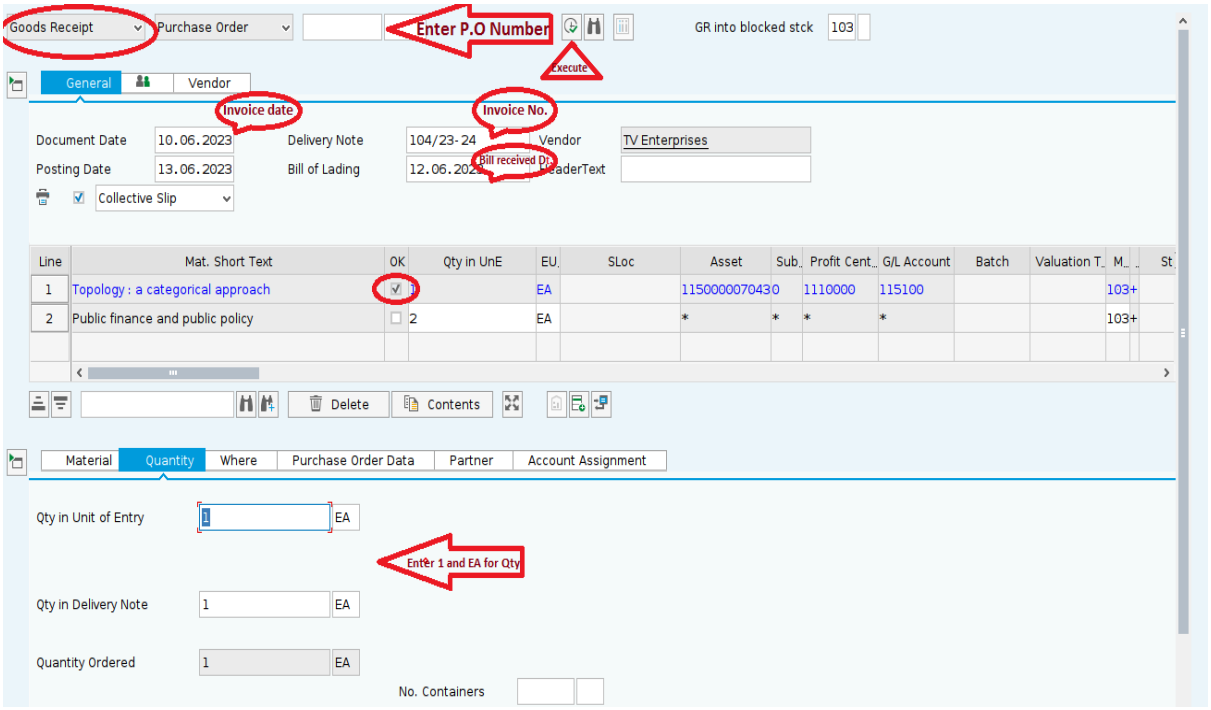

- From the *dropbox*, select the *accepted* option.
- Type in the *reason* for *accepting the suggestion.*
- Click the *submit* button.
- The suggestion will change from pending to accepted.

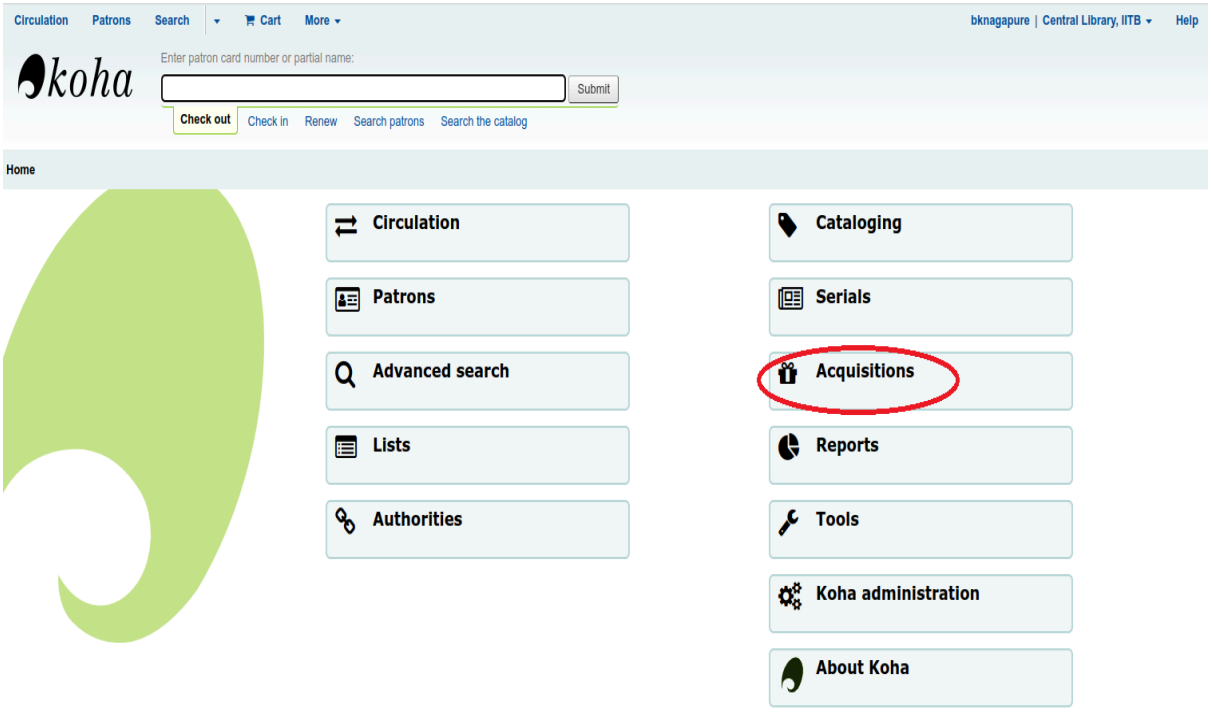

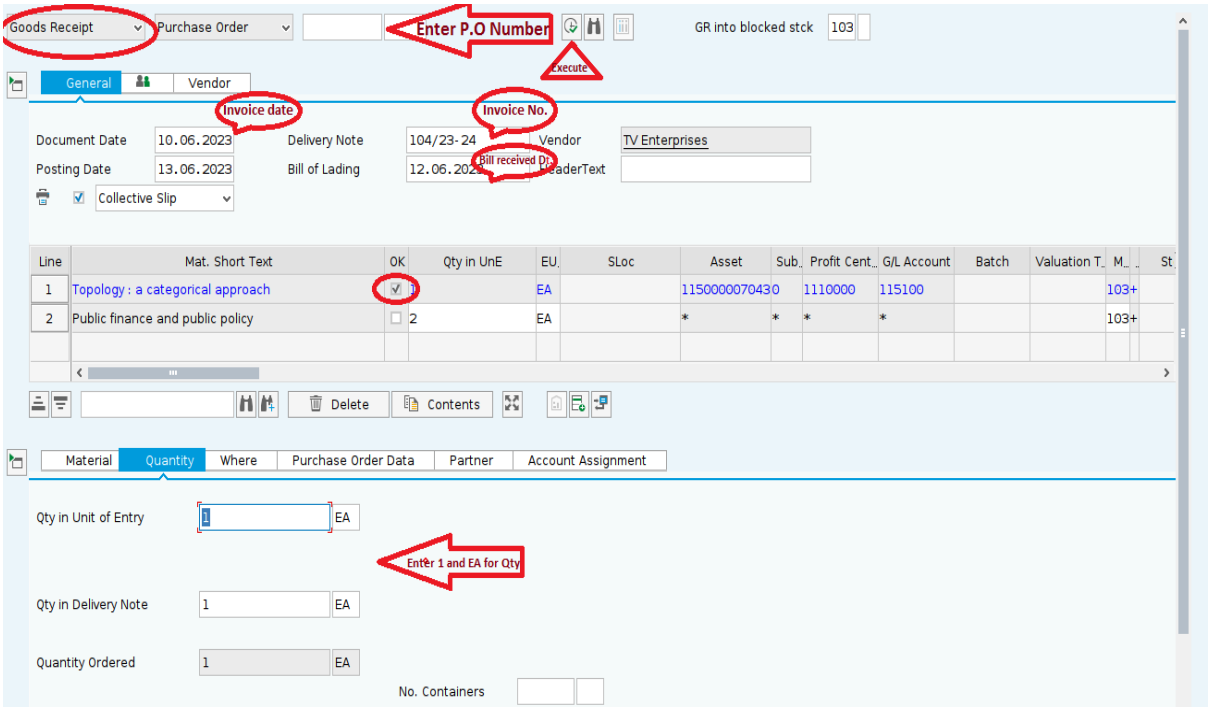

2.2.2 Ordering of the suggested books

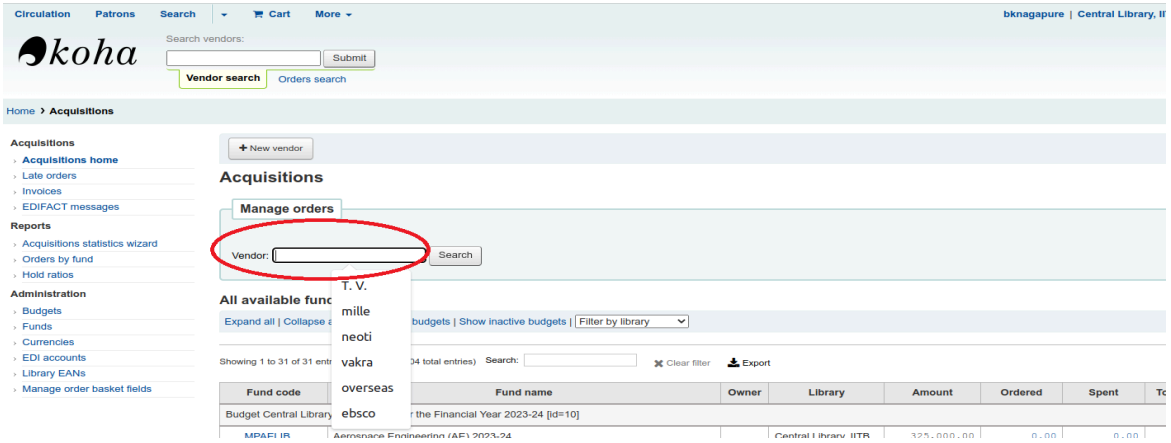

- From the home page, click the *acquisitions module*.

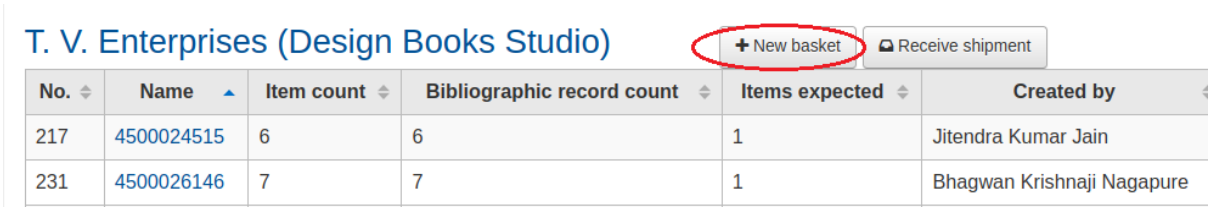

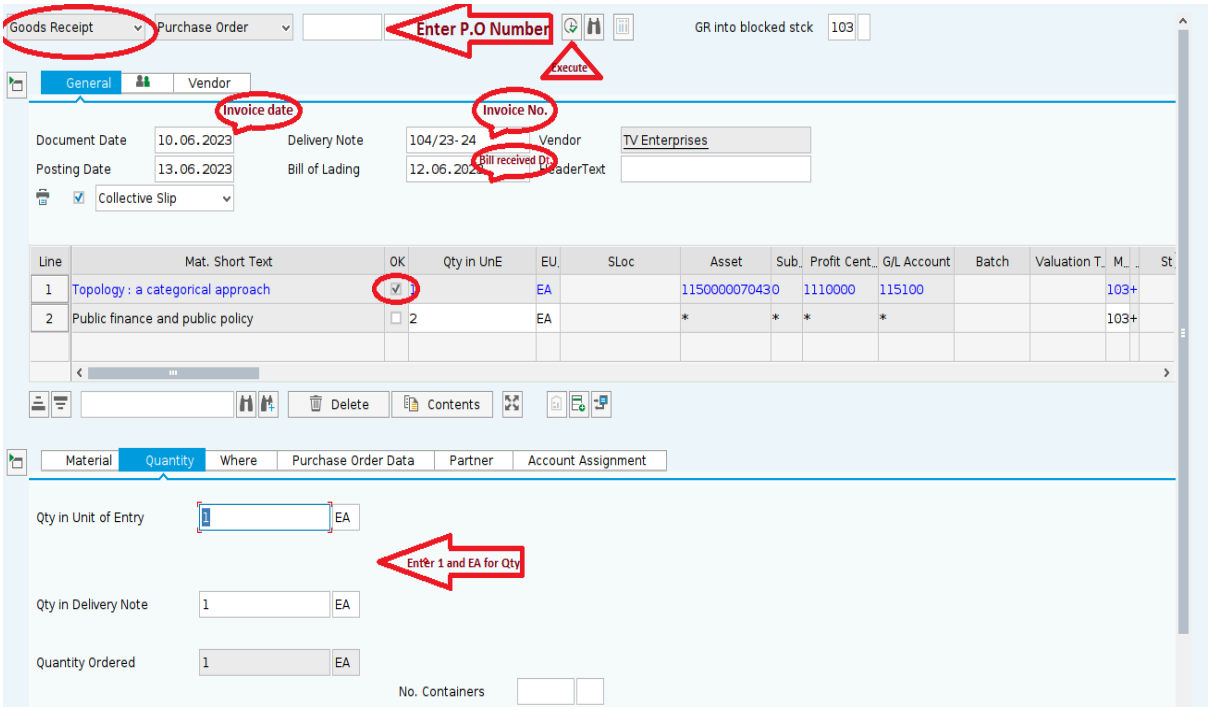

- Search for the *vendor* in the *search box*.
- Then click on the *new basket*.

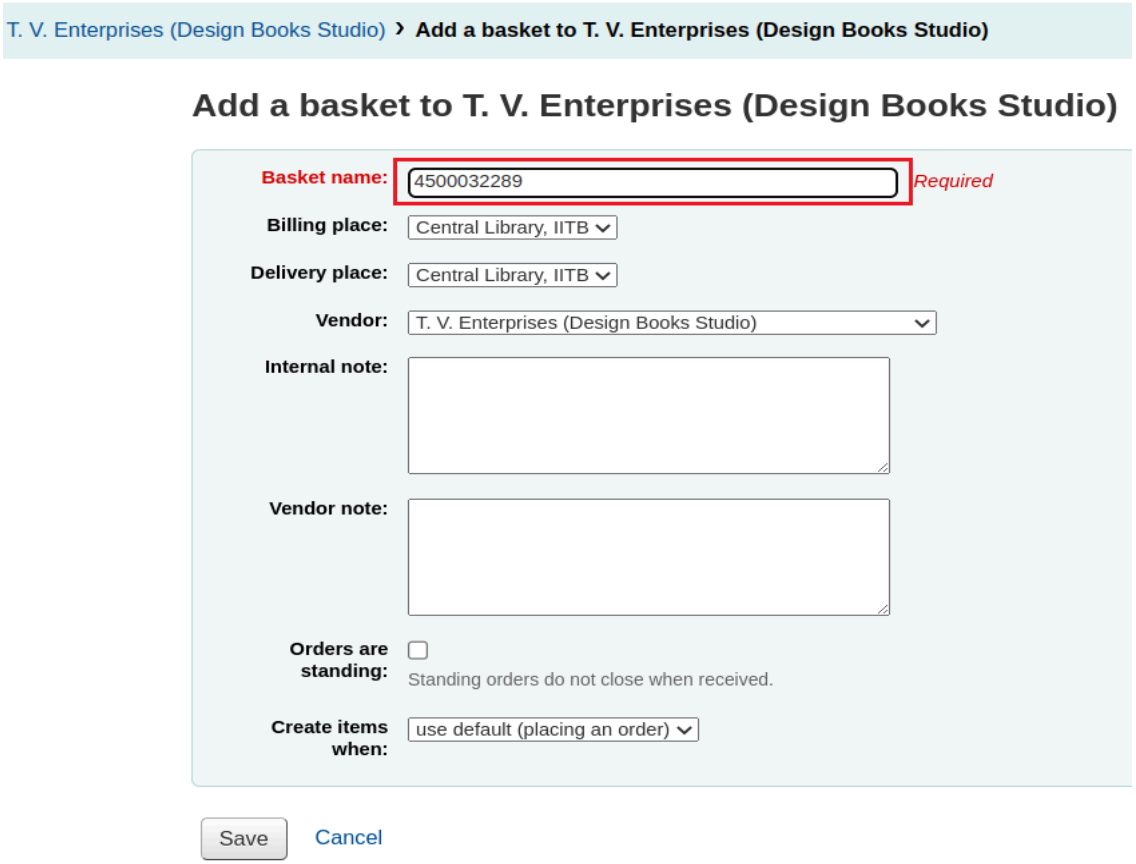

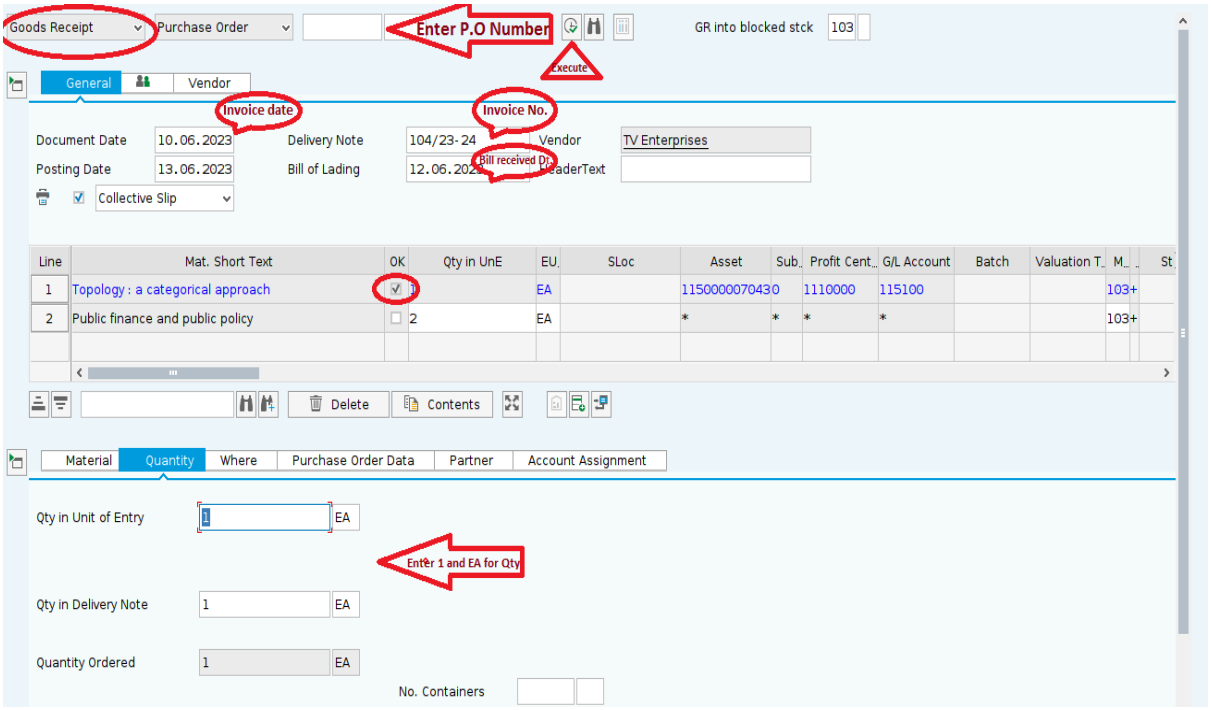

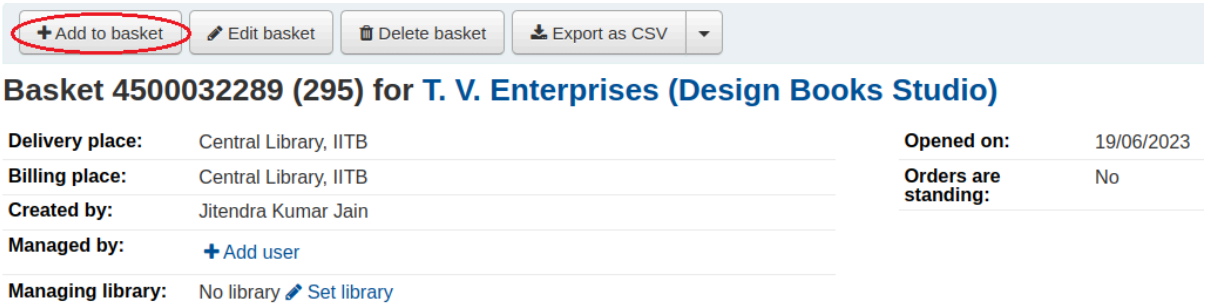

- A new window will open.
- Basket name - *PO number*
- *Click on Save*

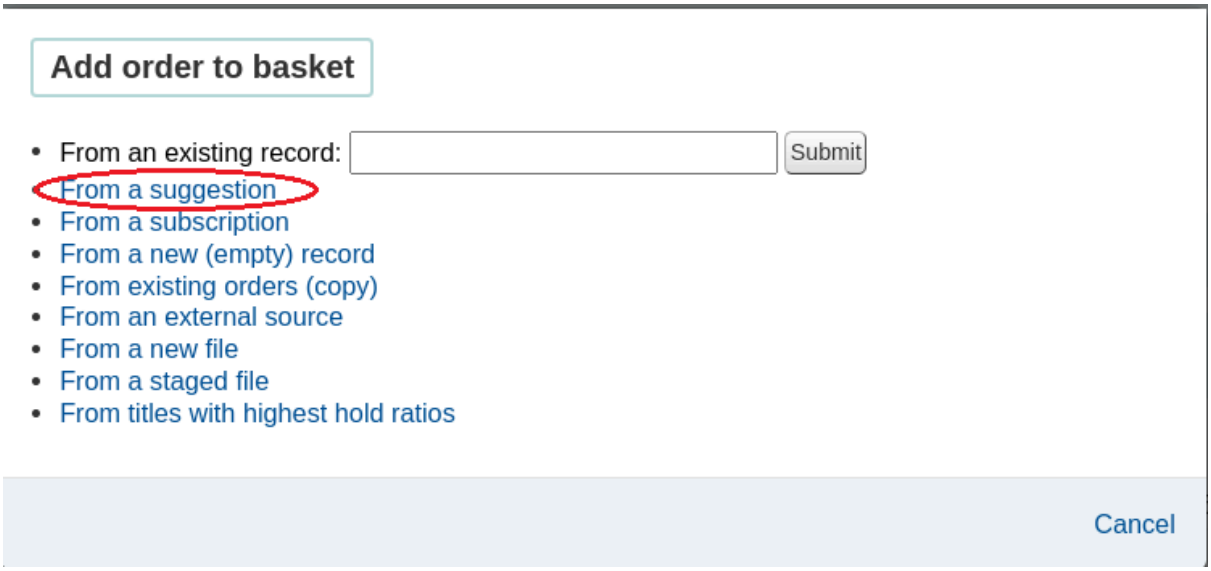

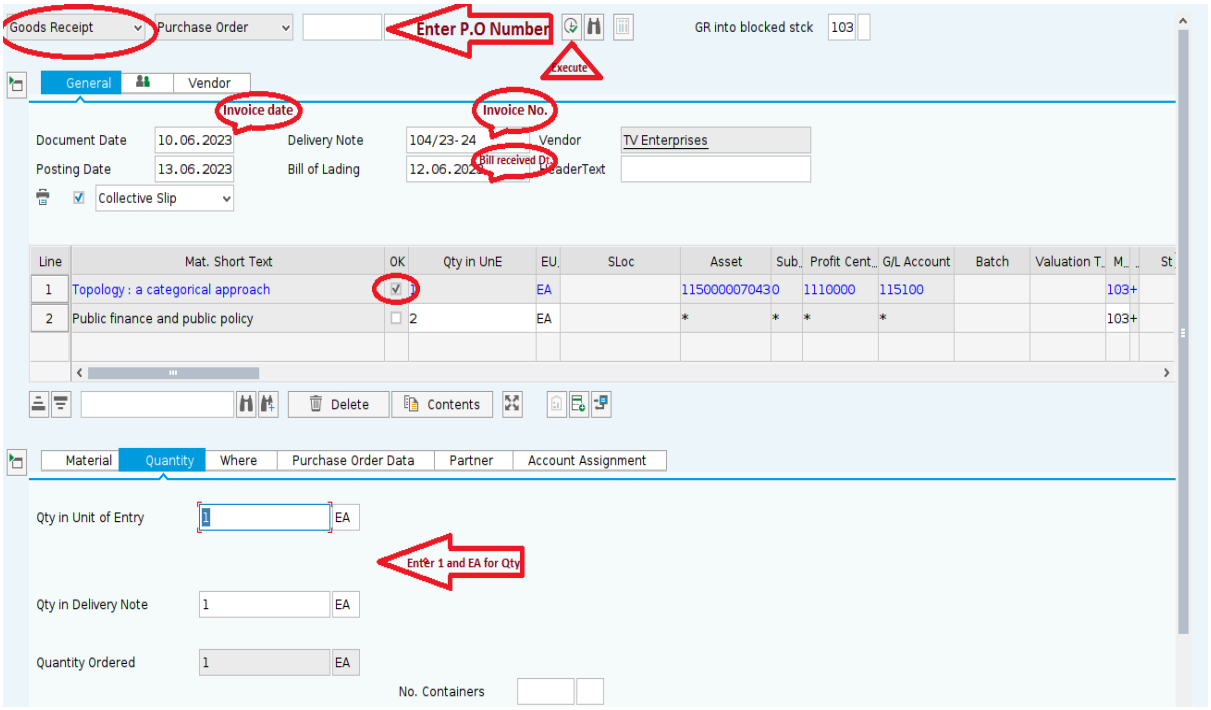

- Select 'Add to Basket' from the next window.

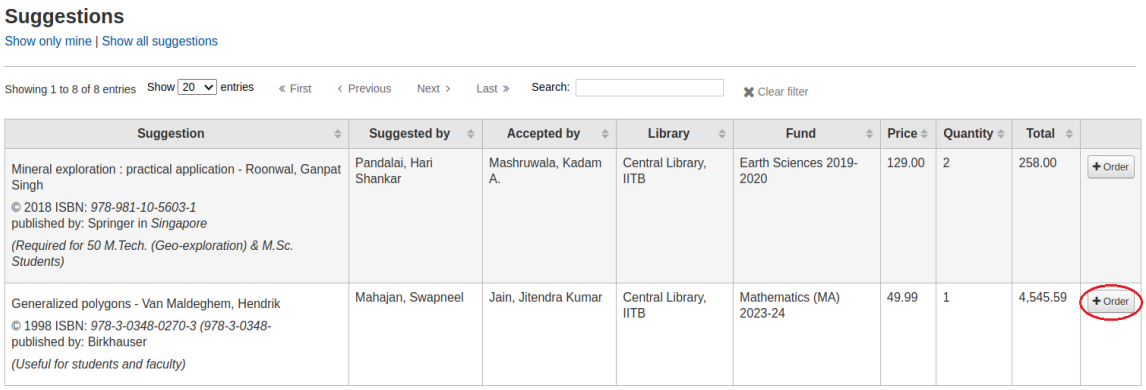

- From the following window, choose "*from a suggestion*".

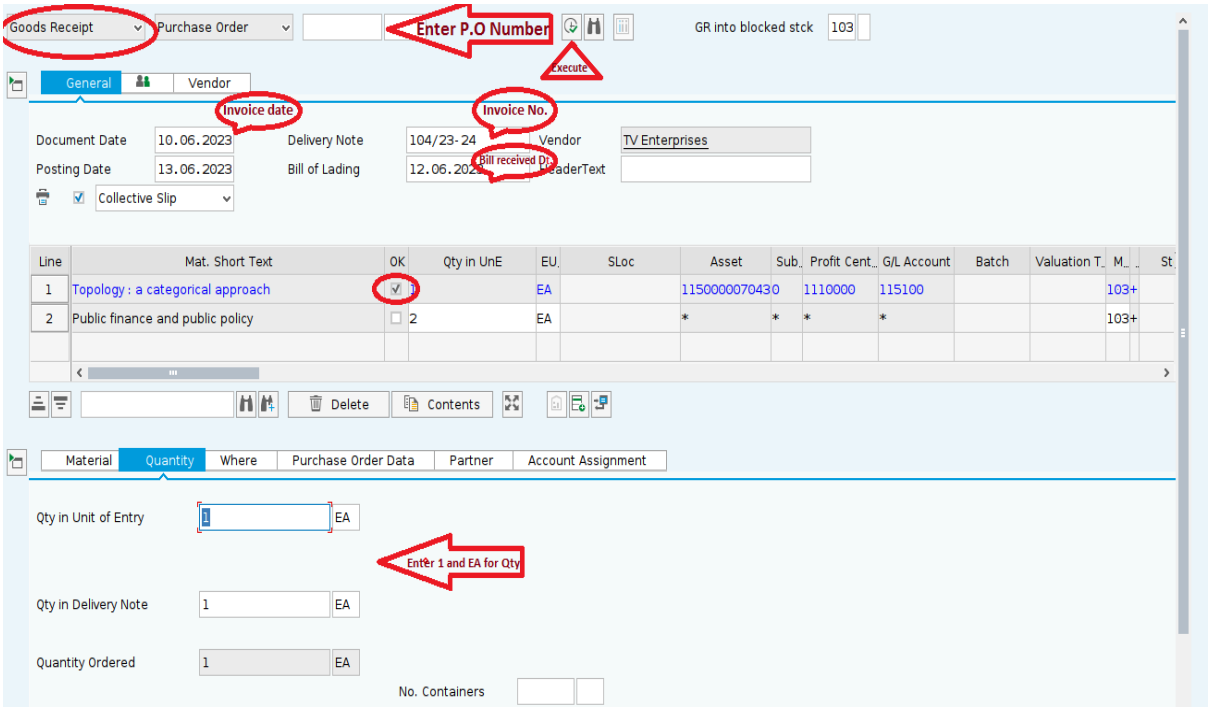

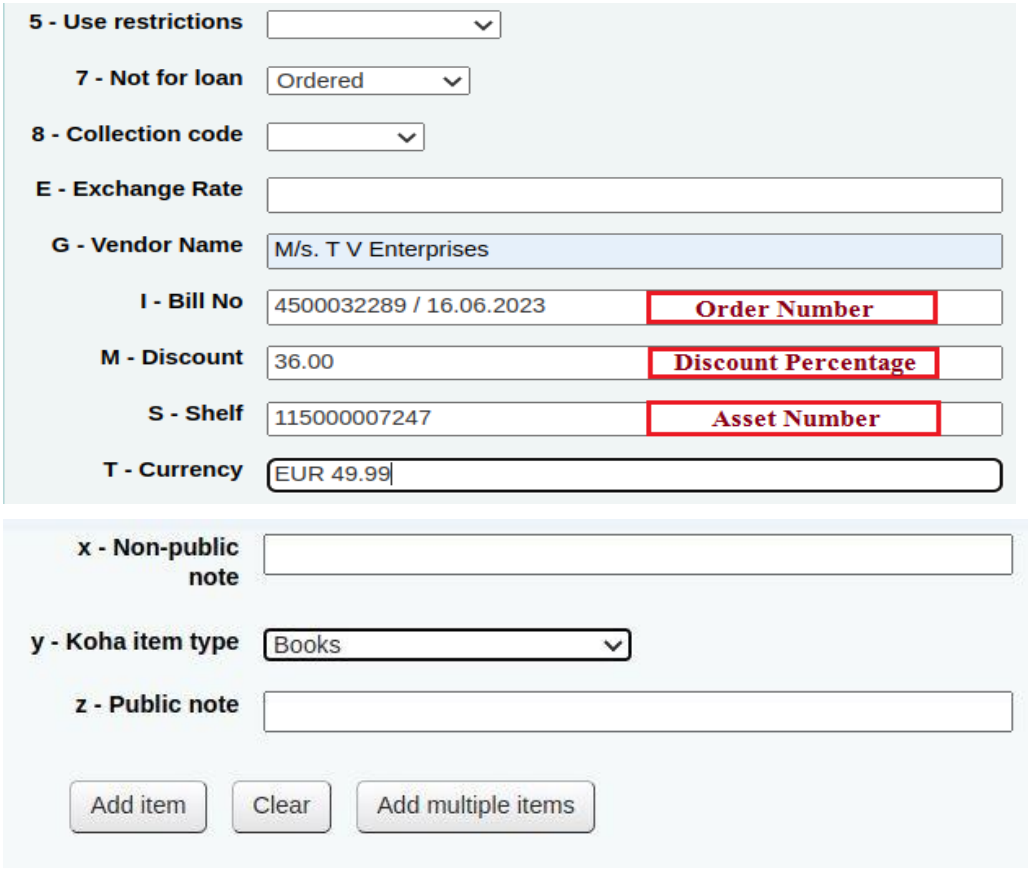

- Select the title we want to order from the list of options
- There is an *order* option next to the title on the right. choose it

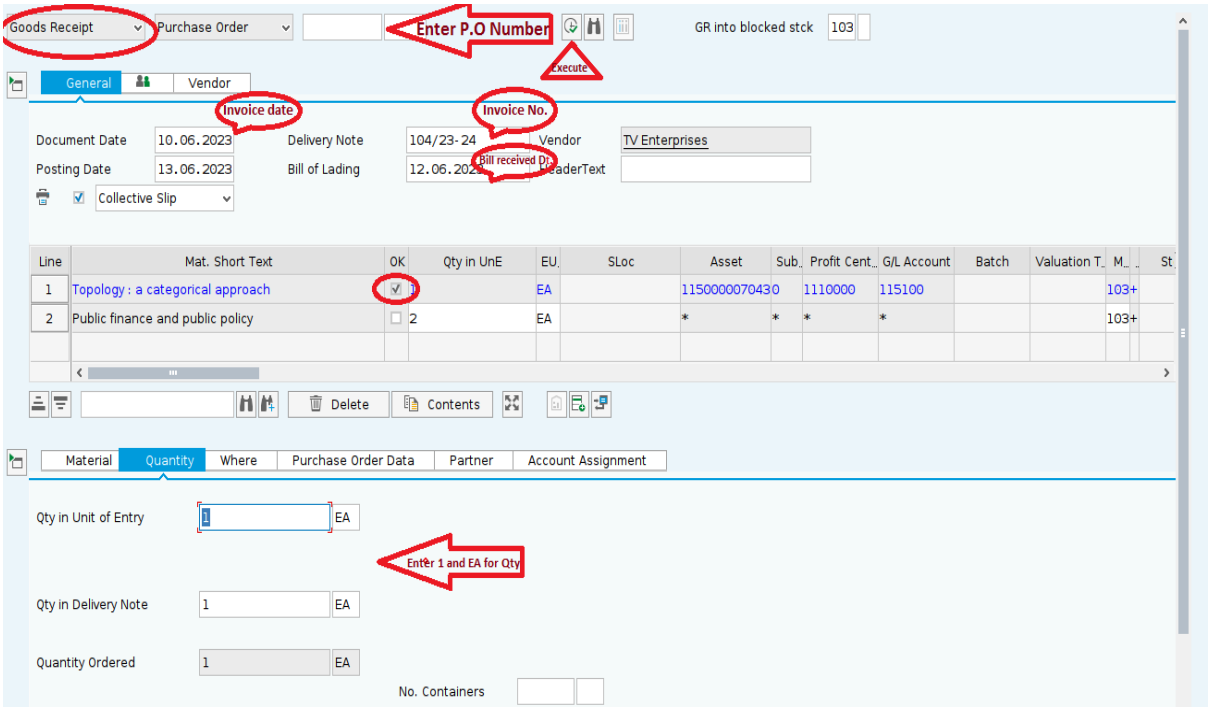

- The selected title information will be shown when you select the *order button*.
- Fill out the relevant information in the *final section* of the window.
- Not for loan- *Ordered*
- Enter the *vendor name*
- Bill number - *Order number / Date*.
- Discount field - *Discount percentage*.
- Shelf - *Asset number*
- Currency - Enter the actual amount as specified by the vendor, along with the corresponding currency (e.g., *INR, USD, EUR)*.
- Enter *Koha item type*.
- Then, *click the Add Item* button.

- After adding the item, *quantity 1* will be displayed.
- Check and fill out the *accounting details like Fund, Currency, Price, and Discount*
- Then click on the *Save* button.

2.3 Physical Steps in Ordering

- Registers are maintained in the BAS Section, including the order register and suggestion register. Additionally, numerous files are kept for separate Vendors, departments, and faculties.
- The order register contains details such as the PR number, PO Number, vendor name, faculty name, suggestion number, amount, and other relevant information.
- The suggestion register includes the suggestion date, suggestion number, suggested faculty details, and vendor, among other details.
- In the suggestion file, suggestion forms are kept. In this form, we must include the suggestion number.
- Spreadsheets are maintained to store all suggestion numbers, PR, PO, etc., for convenient access.

3. Receiving

Book receiving refers to the process of physically receiving books that have been ordered or acquired by a library or book provider. It involves verifying the condition and quantity of the received books and updating the records. It mainly includes three steps.

- **Physical Steps**
- **Book-receiving steps through Koha**
- **Book-receiving steps through ERP**

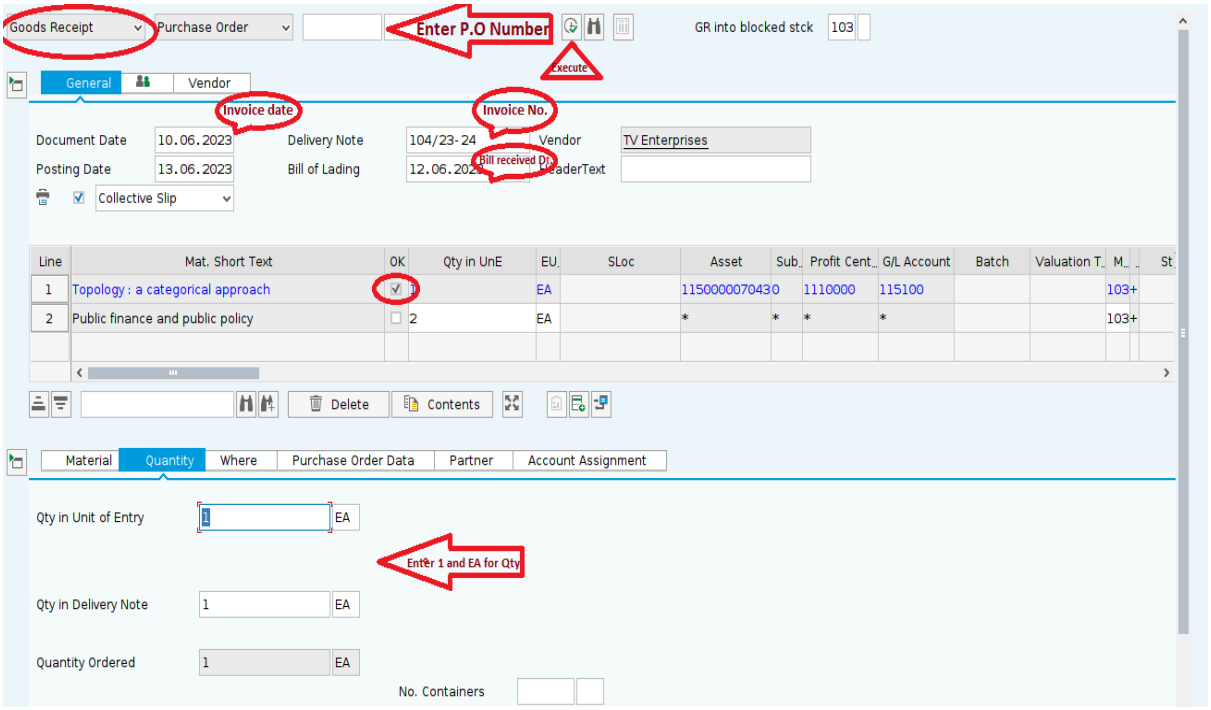

3.1 Physical Steps

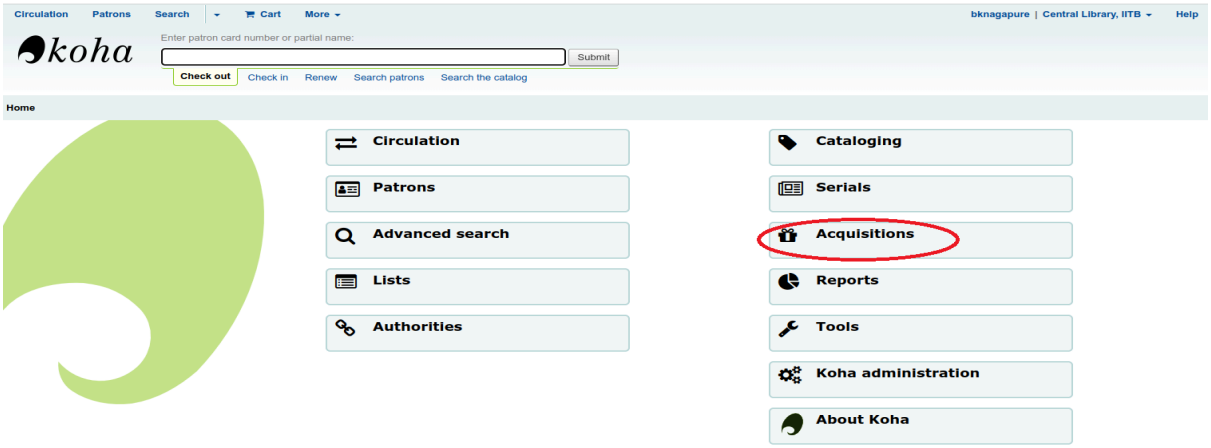

- *Cross-check* the bills once you've received the books containing the bills to make sure all the information is *correct.*
- Please mention the department code on the bills and include the *accession numbers* for the books.
- *Certify* (seal on the back side) the *original bill and one copy*, ensuring it includes the necessary information.
- Send the *original copy* to the account section, and as you send it, put the bill's information in the *physical register*.
- Keep one certified *Xerox copy* in the BAS section.

3.2 Book-receiving steps through Koha

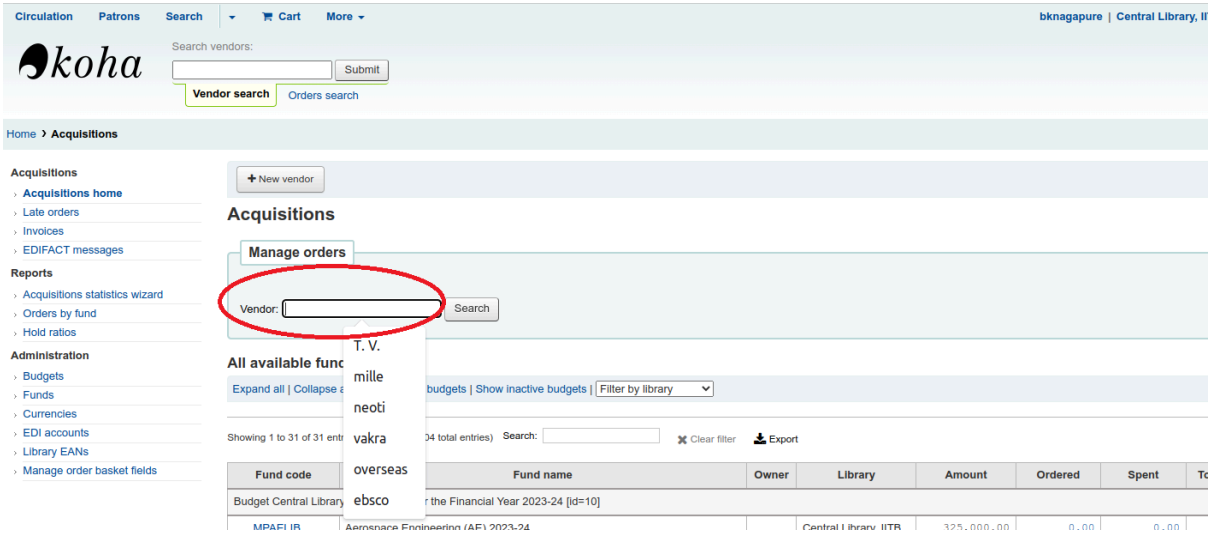

The book receiving steps in Koha typically involve the following process

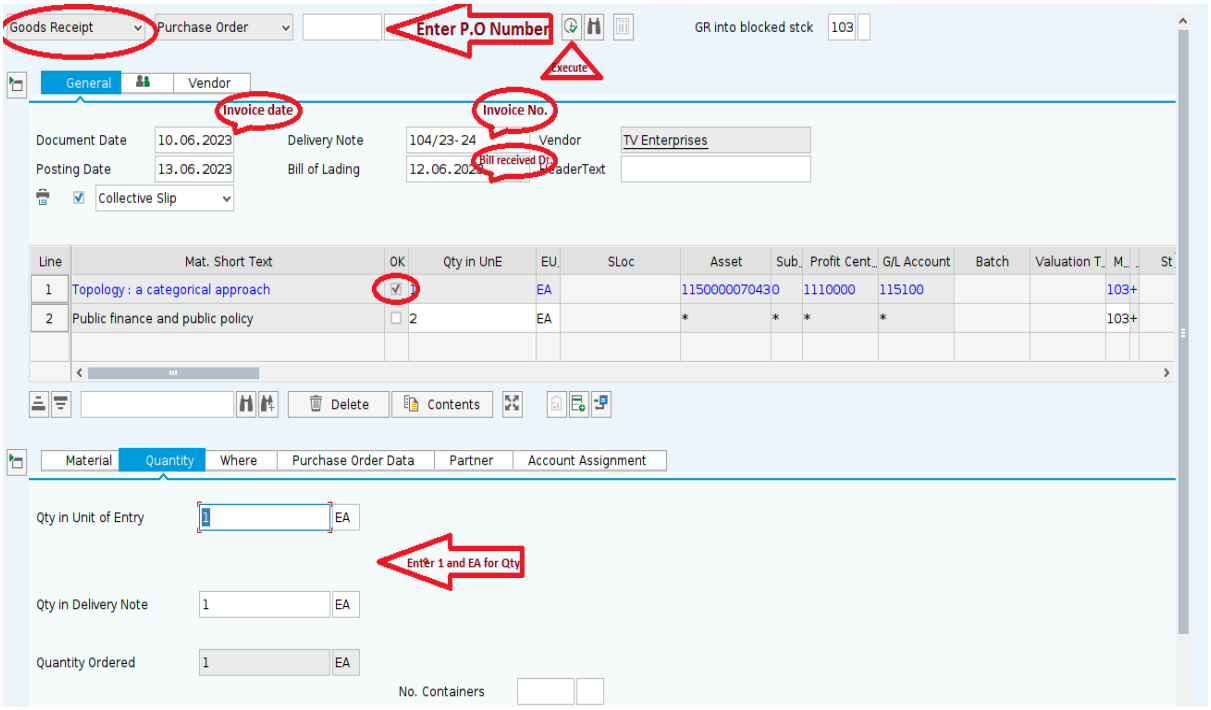

- From the home page, click the acquisitions module.

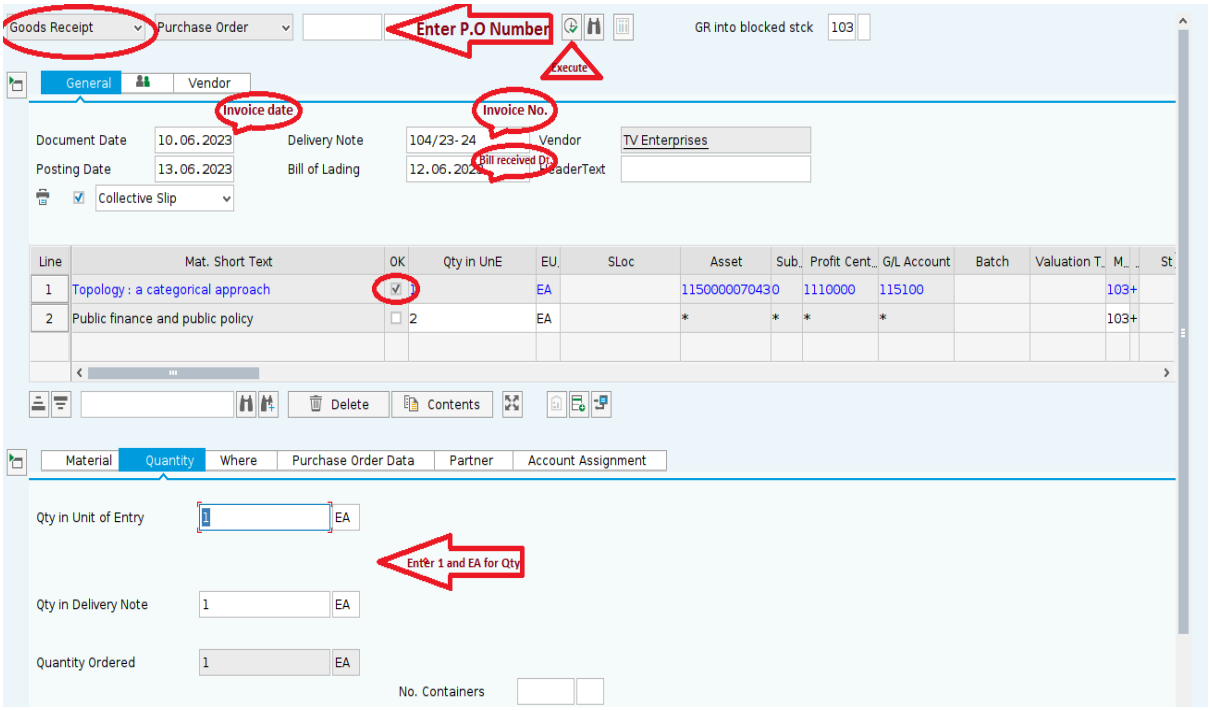

- Enter the vendor's name in the search field.

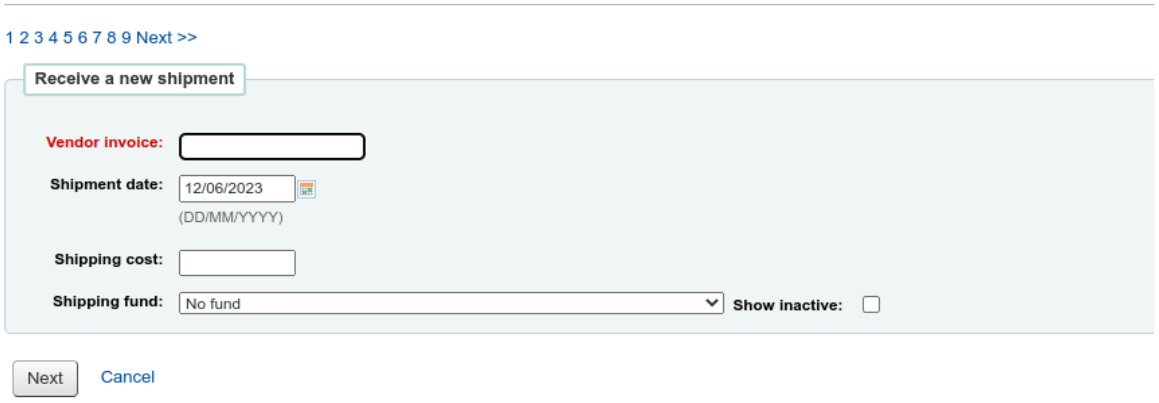

- Select *'Receive shipments' after obtaining* the vendor's information.

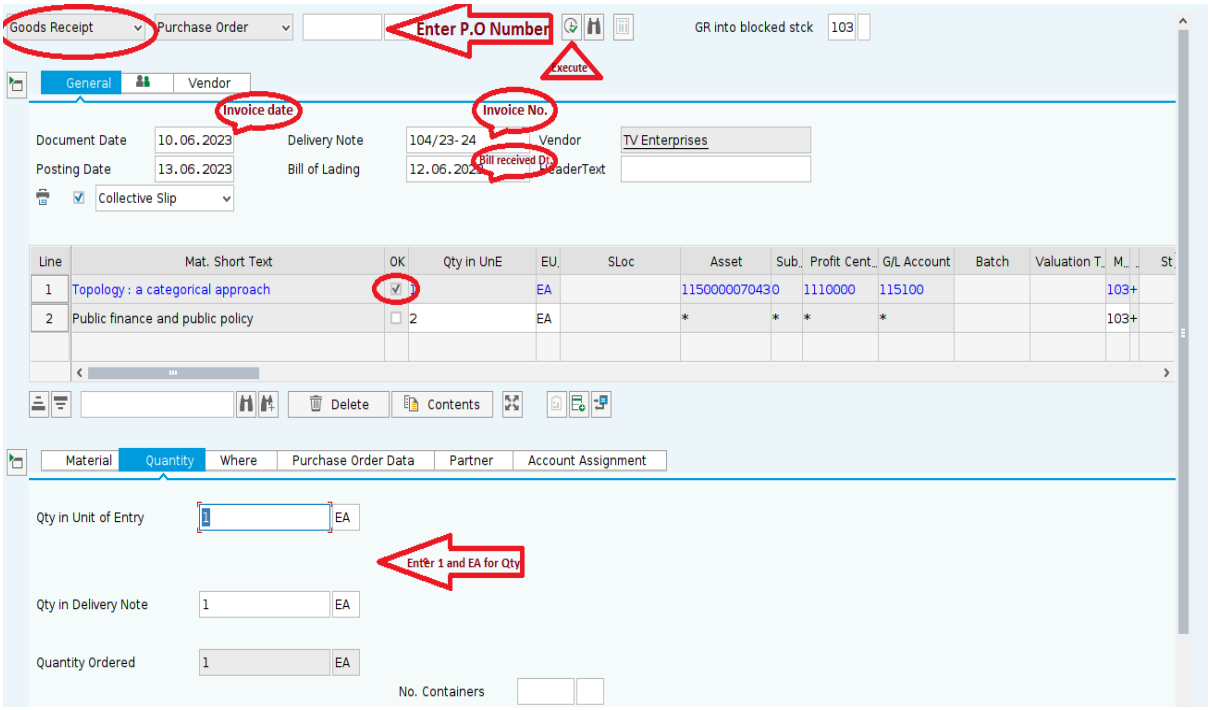

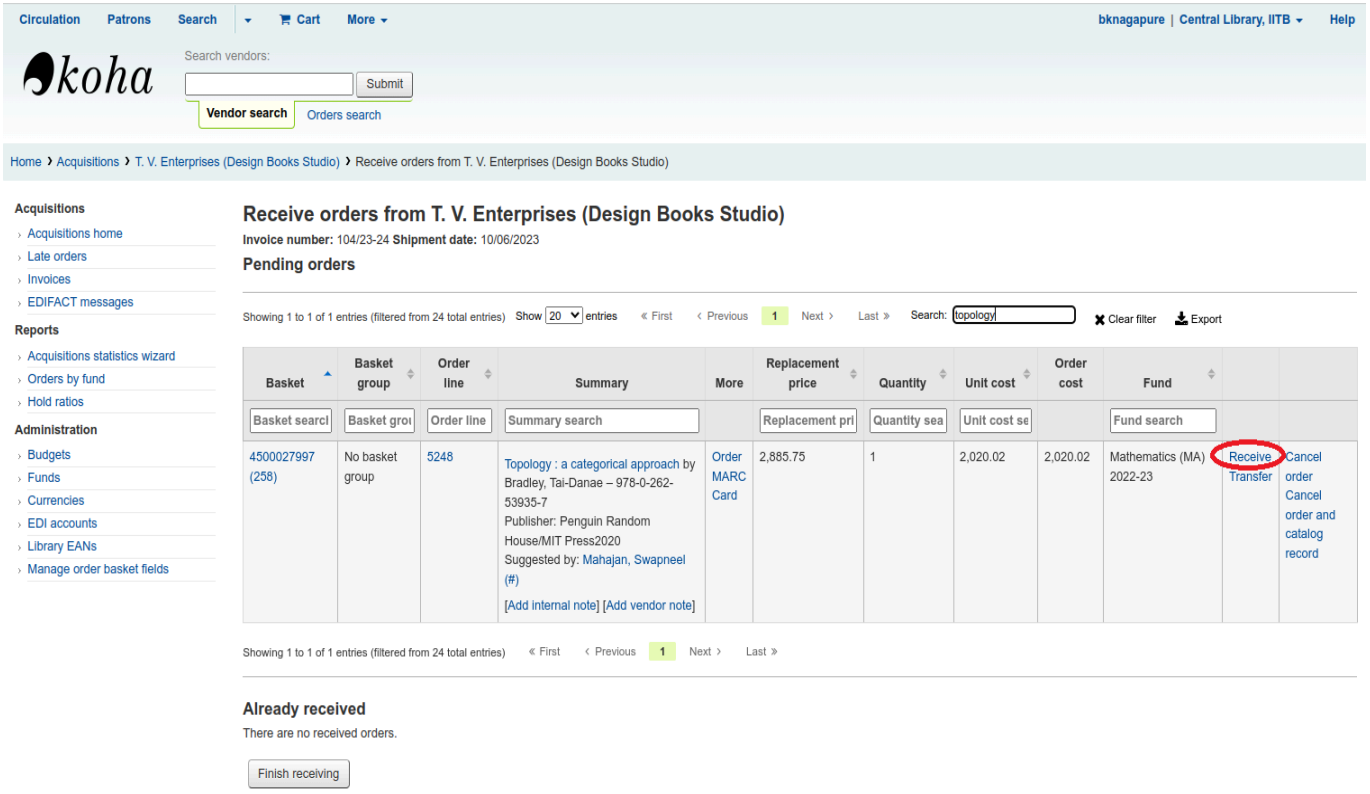

- We can view the vendor's shipping information by selecting the *"Receive Shipments"* tab.
- Towards the bottom of the page, there is a field labelled *"Receive new shipments."* Put the invoice information here. Then click *next.*

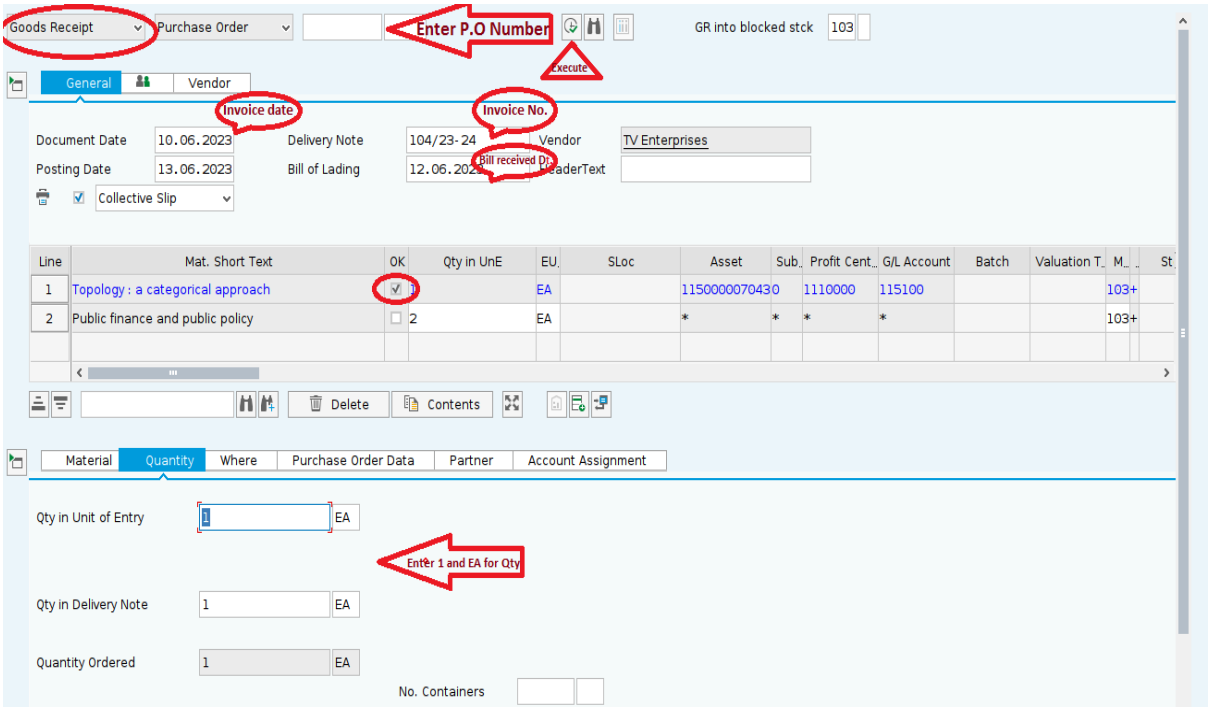

- On the next page, all lists provided by the vendor will be visible.
- Or use the search box to enter titles for receiving books one by one.
- The book name will appear as you type the title into the search field.
- Click *Receive* once you've obtained the book's title.

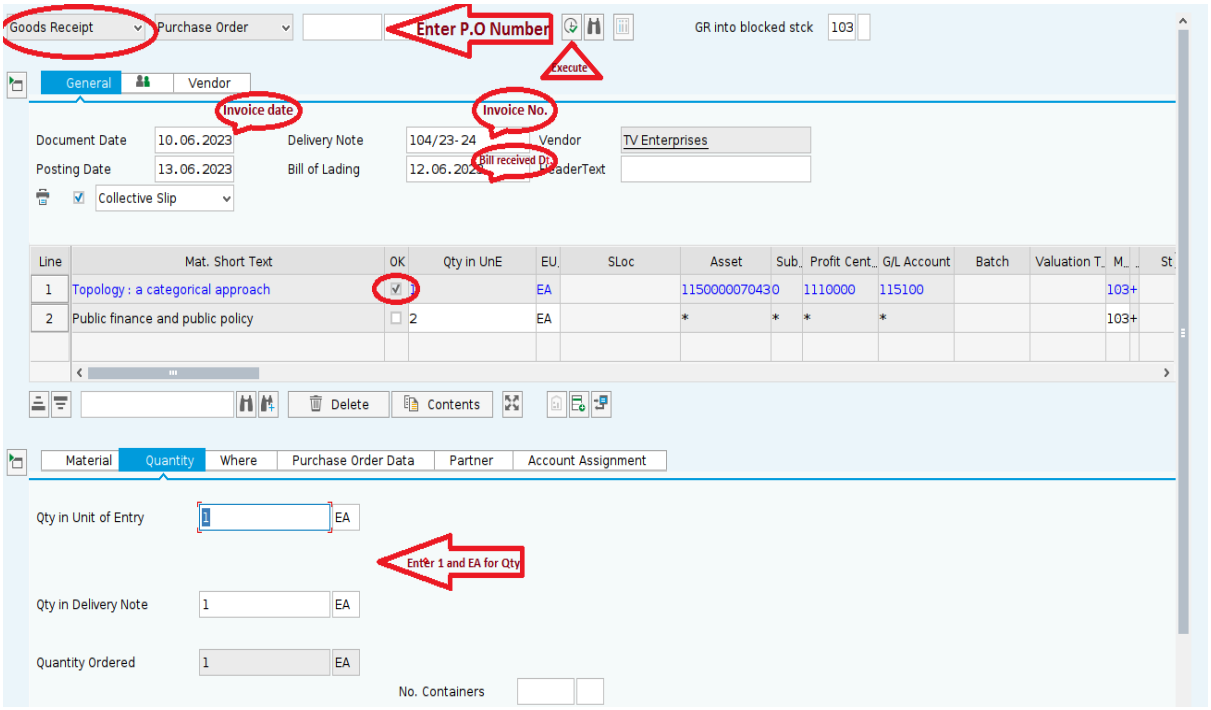

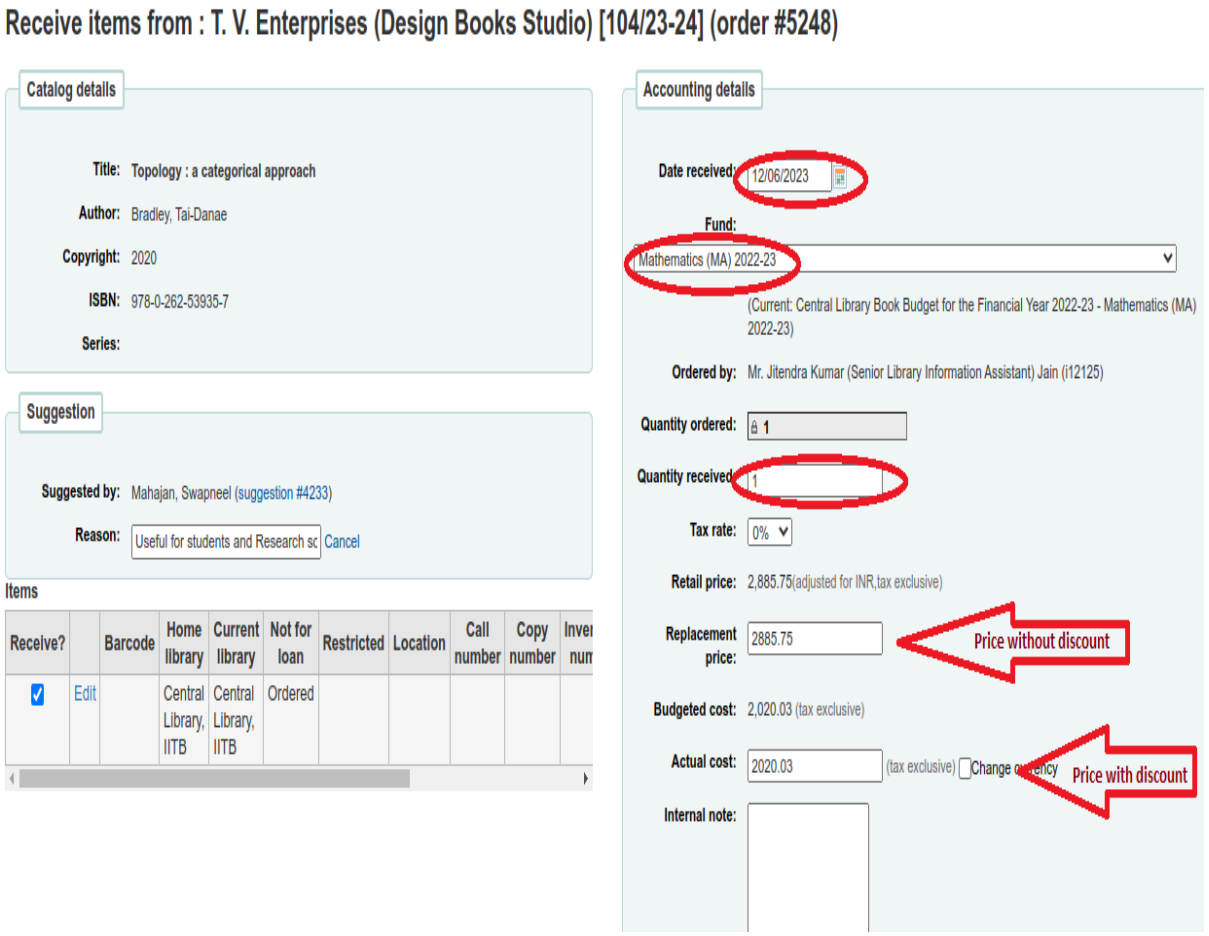

- After clicking *"Receive,"* a new window will open, similar to the one below.
- To complete the procedure, follow the steps given below.
  - ☐ Select a date.
  - ☐ Choose the *fund information* (use the current budget).
  - ☐ Enter the number of *quantities* received

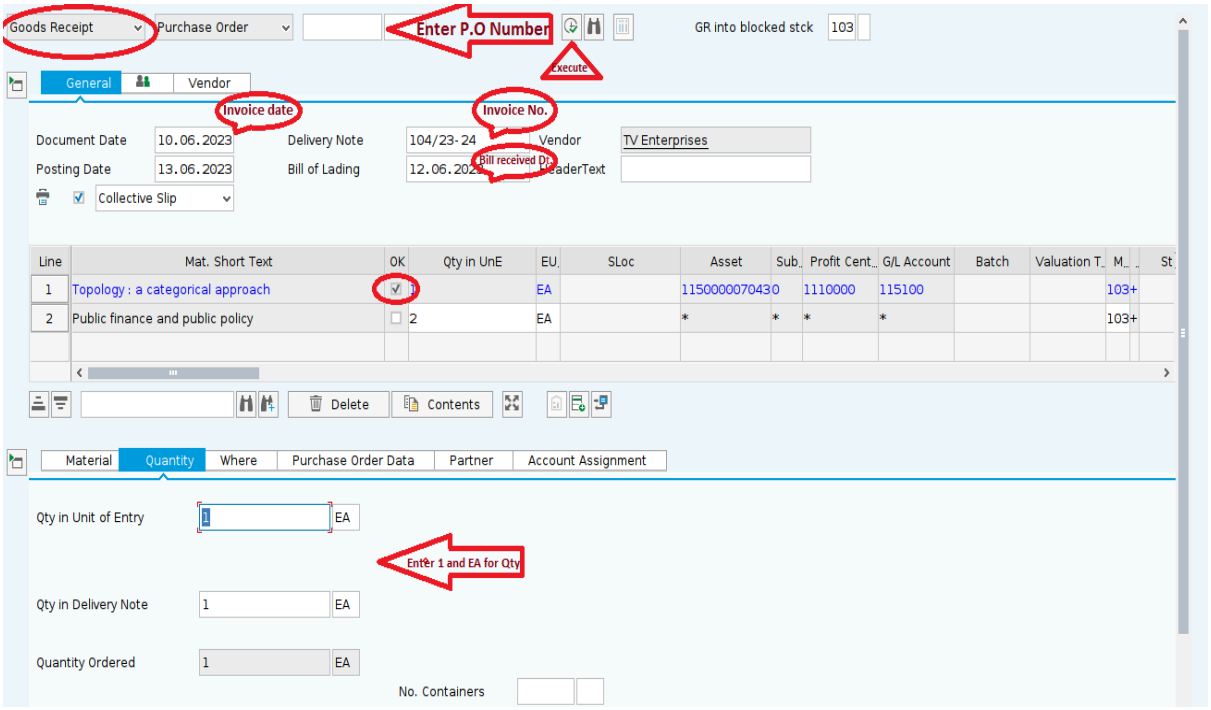

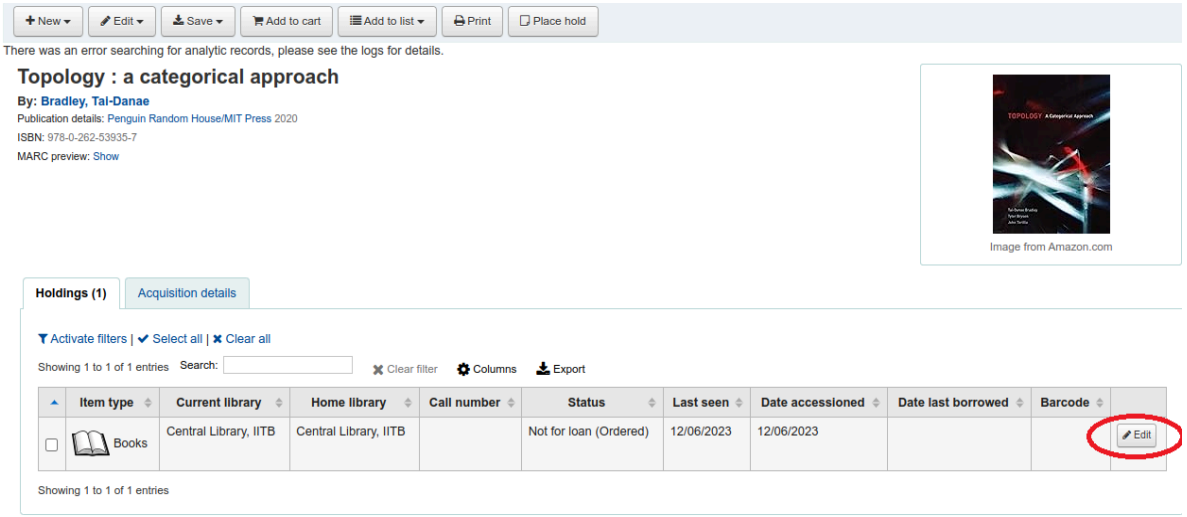

- ☐ Type in the *Replacement price*, which is the total original cost.
- ☐ Enter the *Actual cost*, which is the book's cost after the discount we received.
- ☐ If there is any difference in book cost, enter the price according to the invoice
- ☐ Click the Checkbox to receive the book
- ☐ Then click on the *save* button.

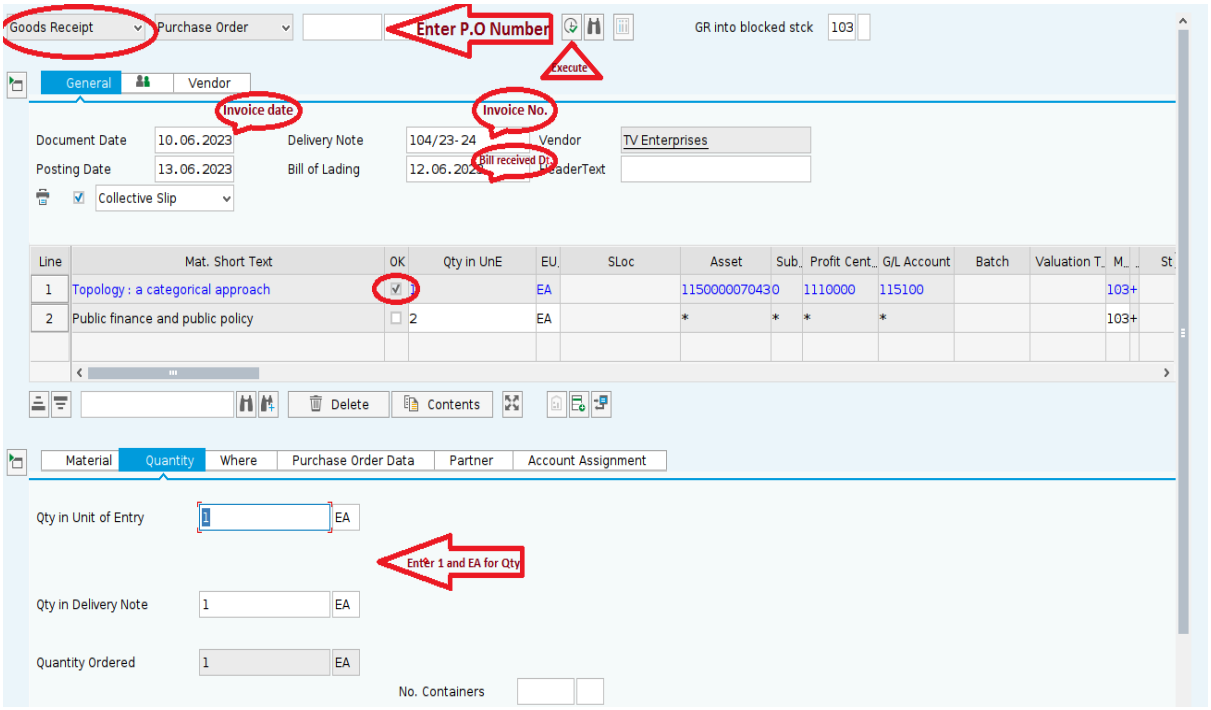

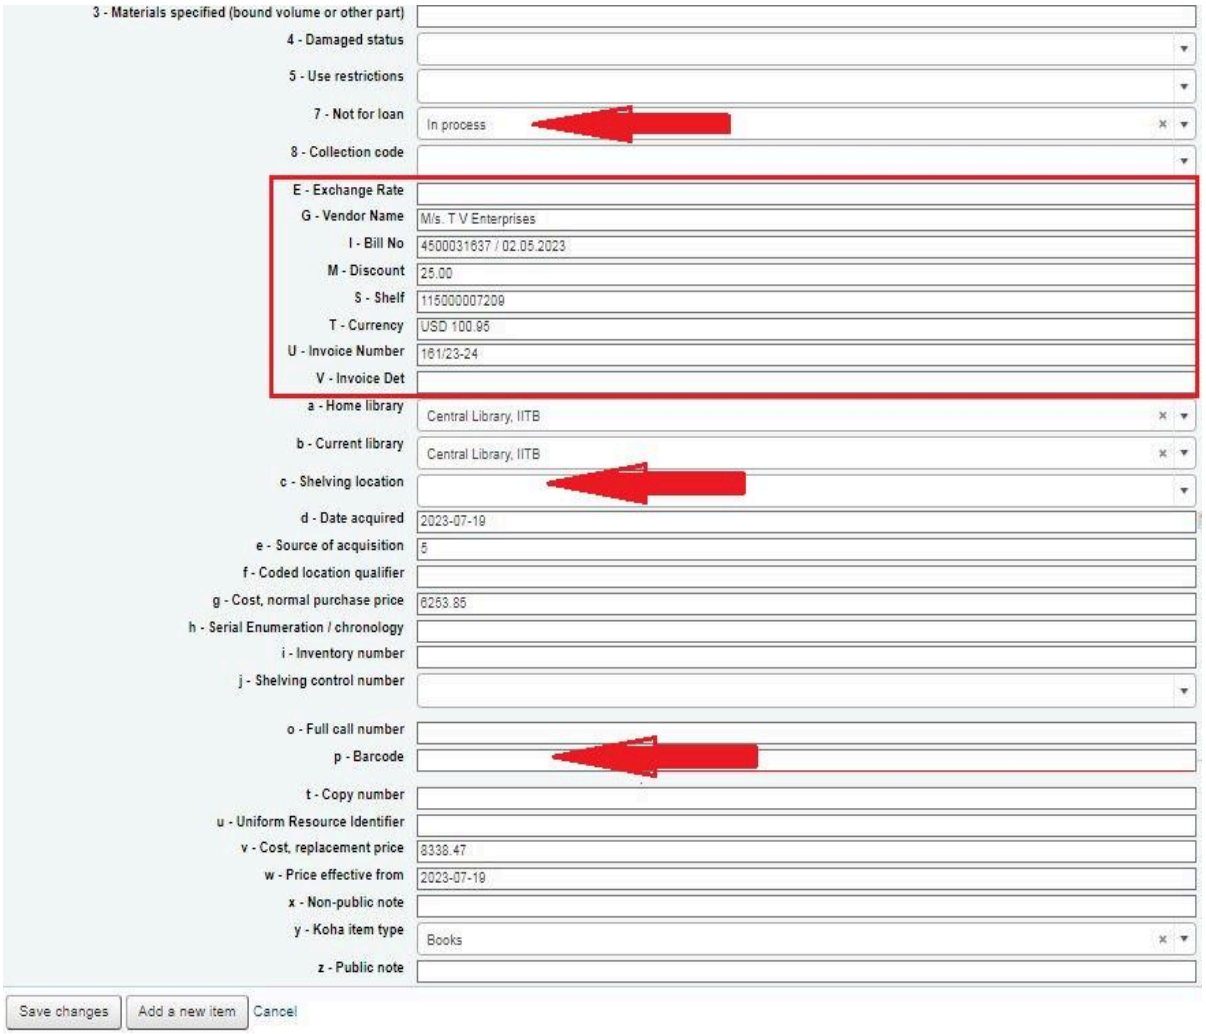

- After saving the details, right-click on the book title.
- Then Select *Edit*.

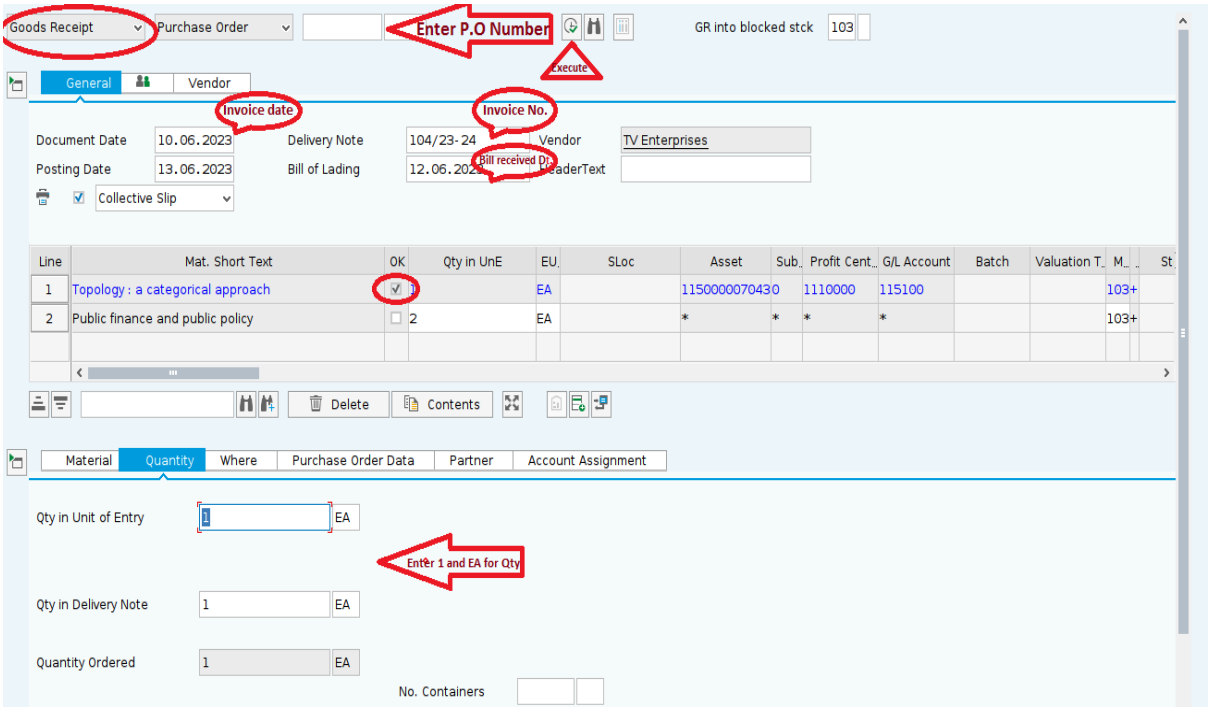

- Fill the window with the necessary information.
- Enter Accession Number
- S-Shelf means *Asset Number*

- Click on the save button.

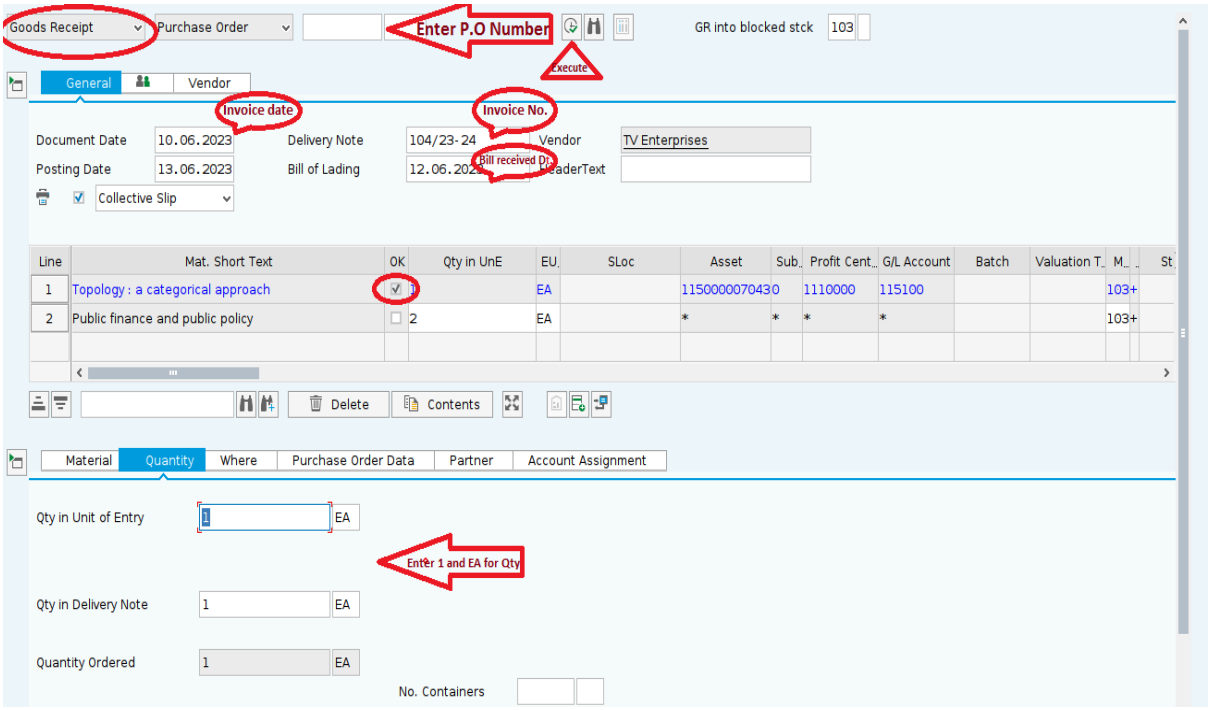

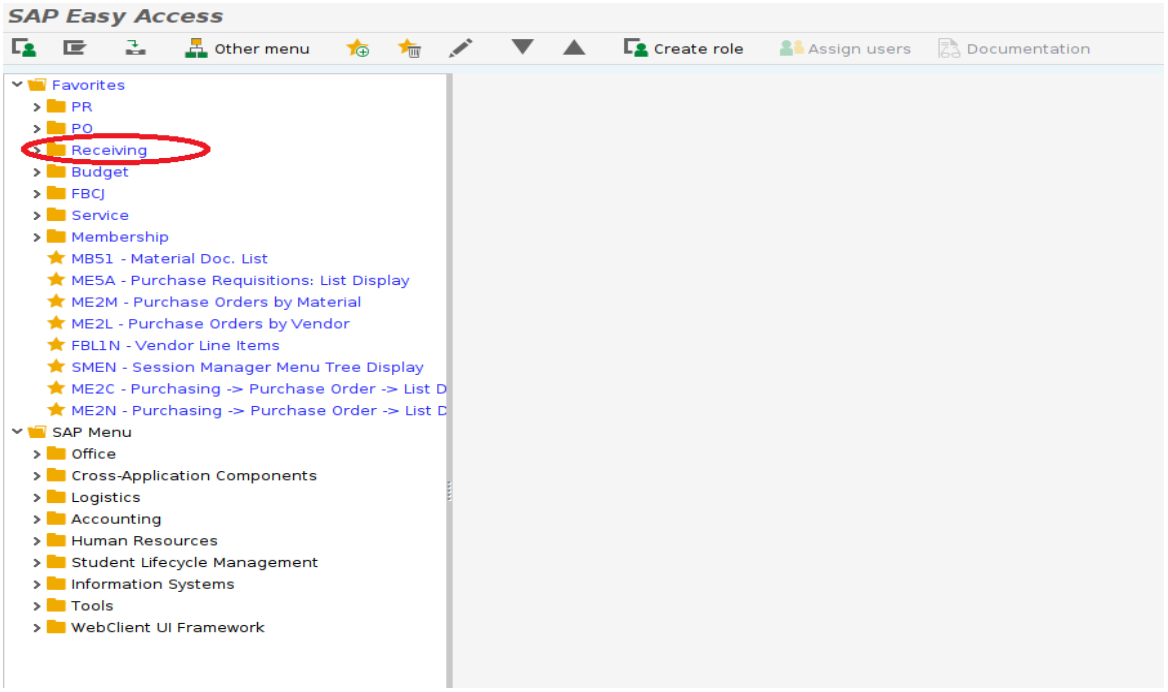

- Once complete, the receiving process then clicks on *'Finish Receiving' from the 'Receive shipment' tab, located below the 'Already Received'* tab.

3.3 Book-receiving steps through ERP

When receiving a book through Koha, it may be necessary to also update the information in the ERP (Enterprise Resource Planning) system simultaneously. The integration between Koha and the ERP system enables seamless coordination of data across different platforms, ensuring accurate and synchronized records.

- Log in to the *ERP* system
- Go to *the Home page*
- *Receiving* can be found on the left side, under the *Favourites* menu.
- Choose *Receiving*

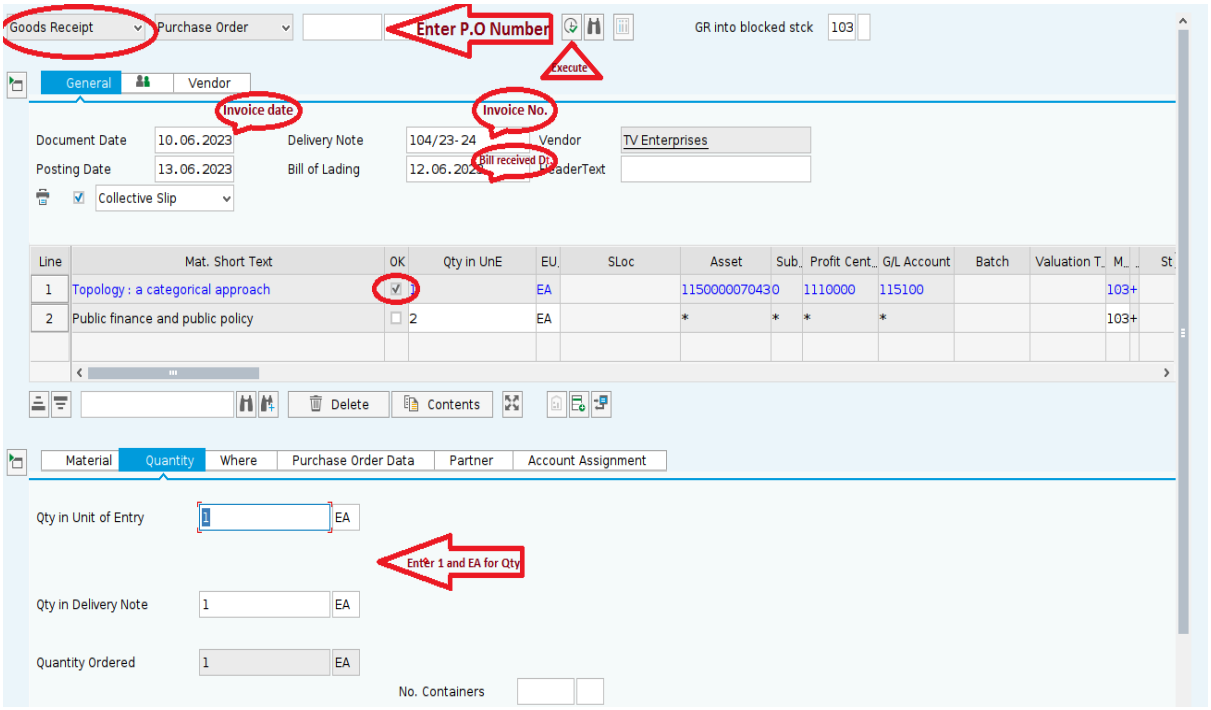

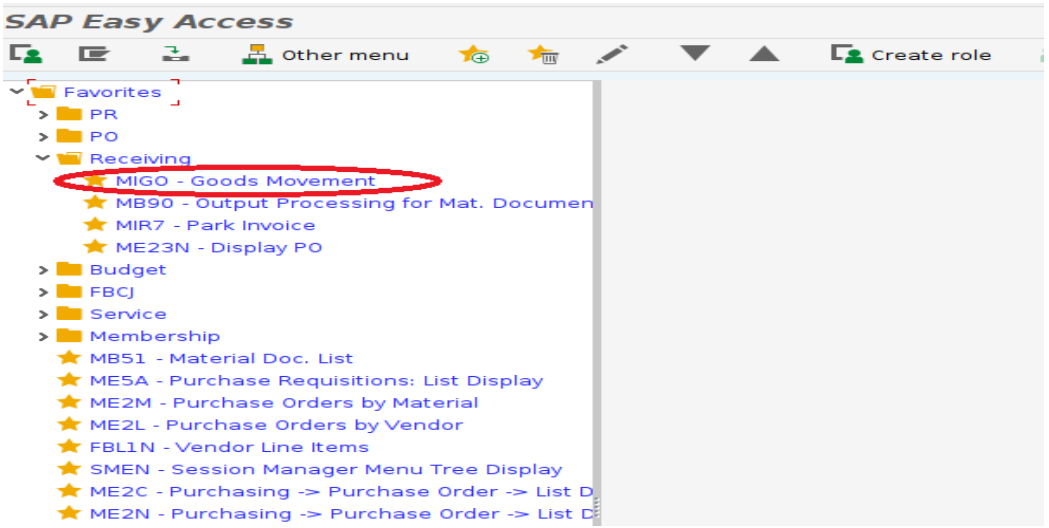

There are essentially three phases involved in book receiving.

- **Goods Movement (MIGO)**
- **Output Processing for Material Document (For Printing) MB90**
- **Park Invoice MIR7**

3.3.1 <u>Goods Movement (MIGO)</u>

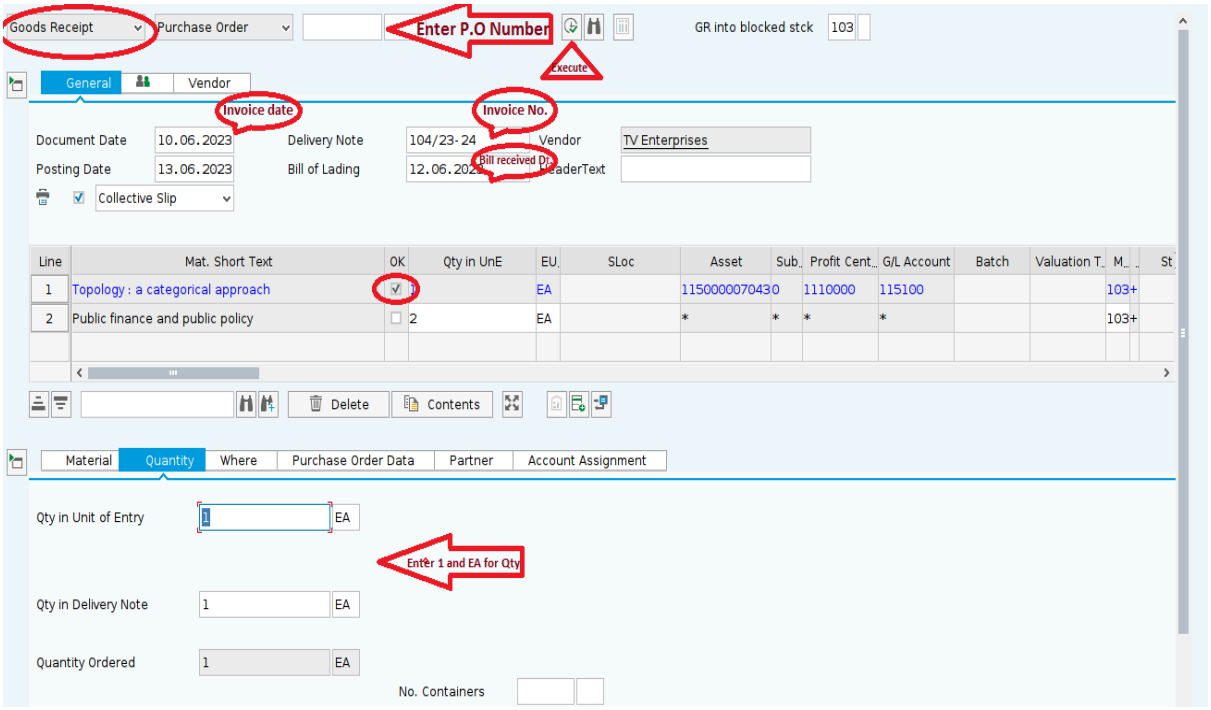

- Choose the *MIGO* T-code for *Goods Movement*

To facilitate the *Goods Movement,* stick to the instructions.

- Select *Goods Receipt* from the dropdown menu in the upper left corner of the window.
- Enter the *P.O. Number* in the textbox.
- The invoice date is the *Document Date*; thus, enter it.
- Enter the Invoice number in the *Delivery Note*.
- Insert the date the bill was received after obtaining approval from higher authorities in the *Bill of Lading*.
- Click on the check box and select ***Collective Slip*** from the dropdown
- Then select the *first* of the three icons in the middle of the window's top row, the *Execute icon* .

★ The number of titles will then be shown. By *ticking the box* to the right of the title, you can *select* it.

★ After *executing* give 1 (if the title on the bill is 1) and *EA* in the area for *Qty in the Delivery Note* on the second part of the window's *Quantity tab.*

➢ Select the "Where" tab, located near the "Quantity" tab.

➢ In the *Text Field*, insert *" Book received at BAS."*

➔ After completing these steps, a *checkbox* will appear in the lower left corner of the window.

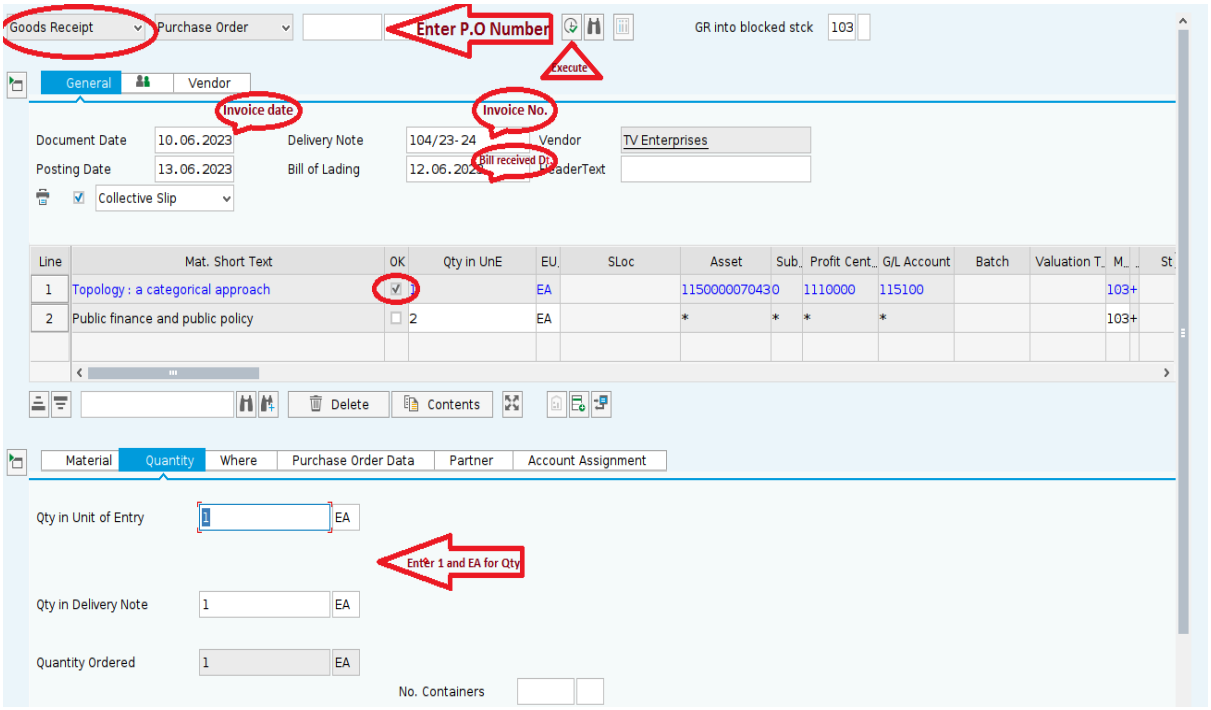

➔ Mark the *tick* if it is not already marked.

➔ Afterwards, a notification stating "Item OK" will appear in the lower left corner of the window.

➔ Click the ***check tab*** on the top side of the window

➔ After checking, a message will be displayed that *"Document is Ok"*

➔ Then, click the post tab near the check.

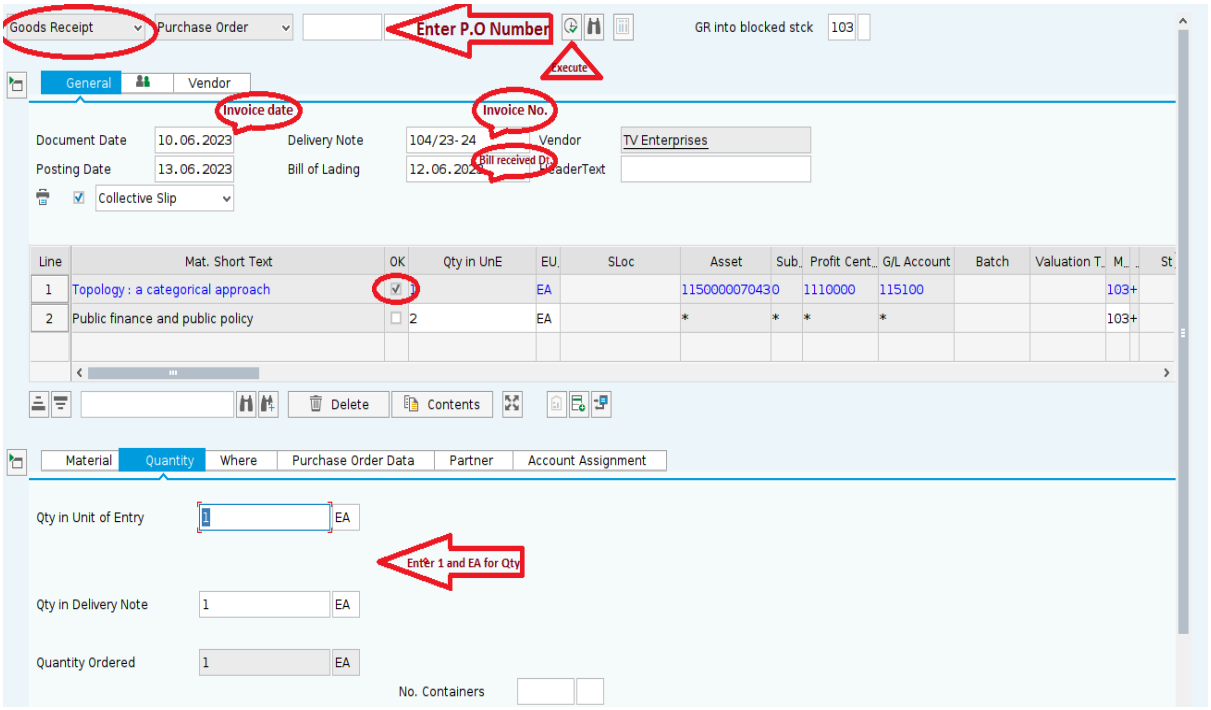

➔ After posting, a material document number will be displayed. *Note it down*

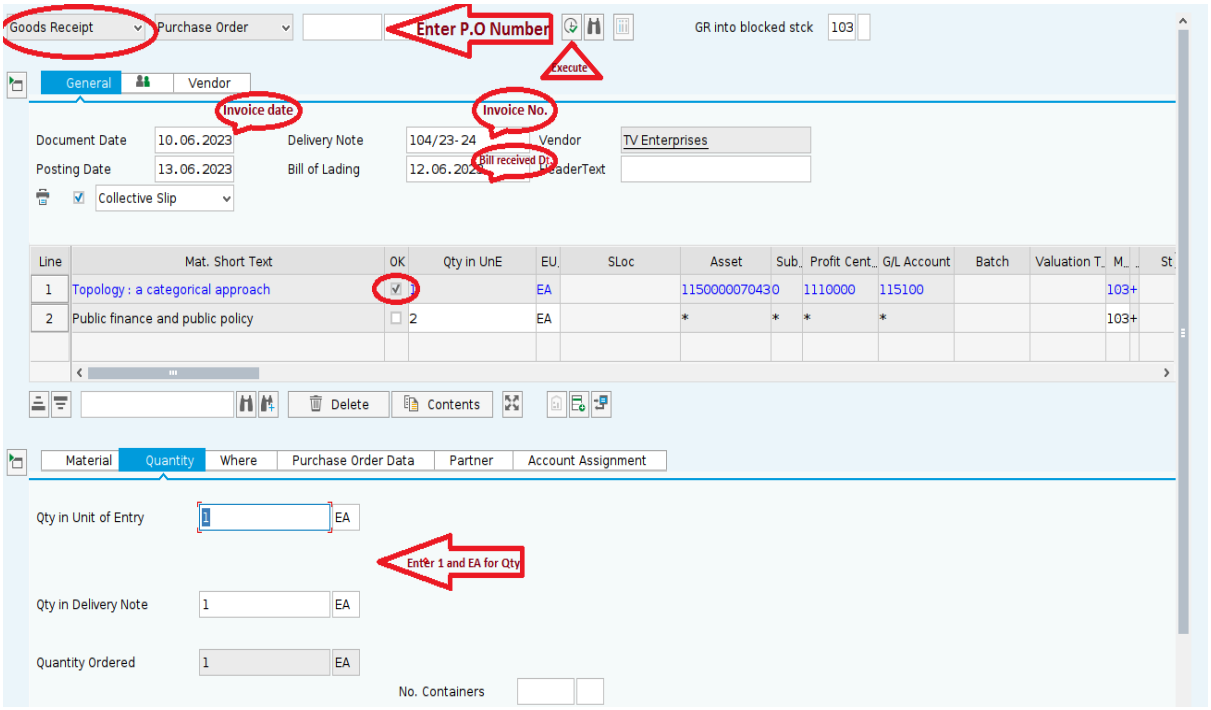

3.3.2 <u>Release of Goods</u>

Follow the instructions below to release goods.

- Select *G R Blocked Stock* from the dropdown menu in the upper left corner of the window.
- Then select the *first* of the three icons in the middle of the window's top row, the *Execute icon* .
- After *Execution,* remove the data from the *Qty in Delivery Note* from the second part of the window's *Quantity tab.*
- After completing these steps, a *checkbox* will appear in the lower left corner of the window.
- Mark the *tick* if it is not already marked.
- Click the ***check tab*** on the top side of the window

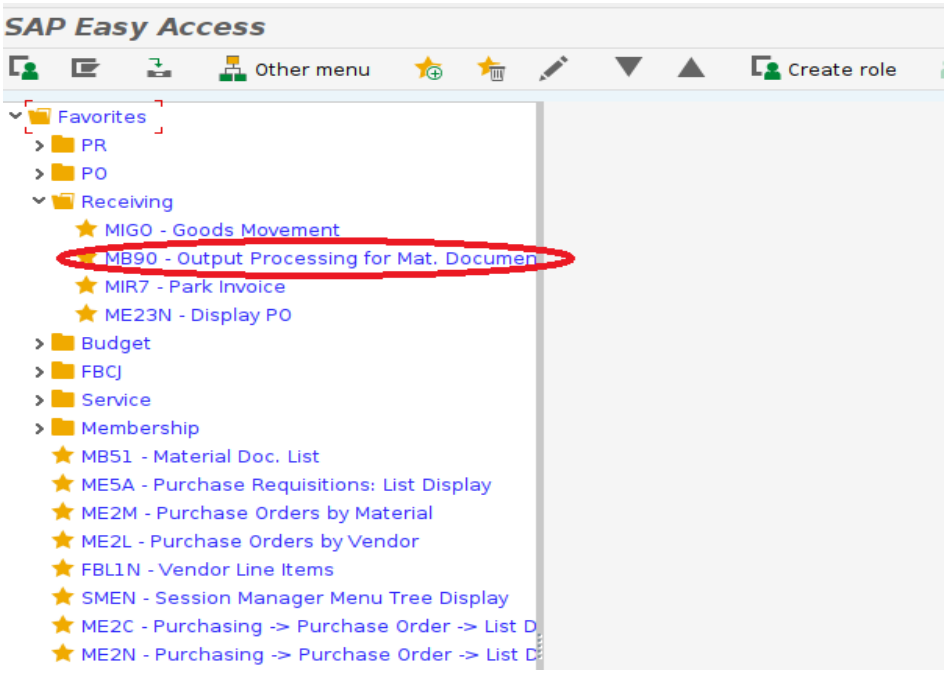

- After checking, a message will be displayed that *"Document is Ok"*
- Then, click the post tab near the check.
- After *posting*, a material document number will be displayed. *Note it down.*

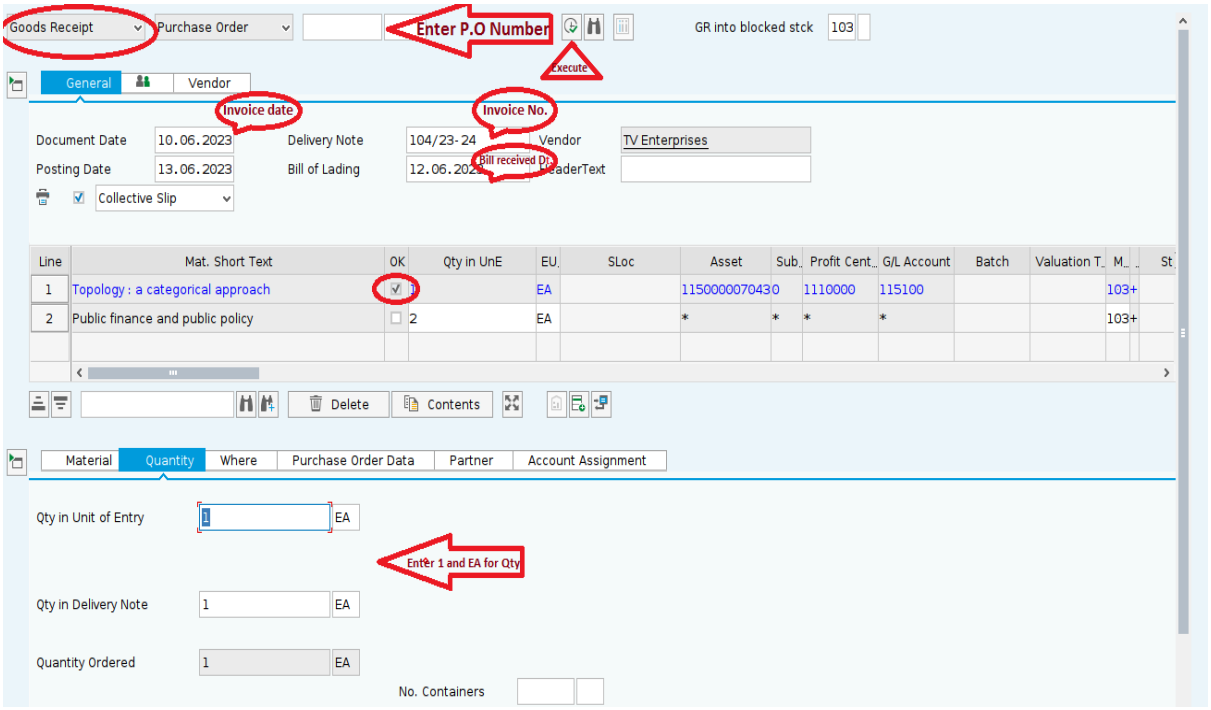

3.3.3 Output Processing for Material Document (For Printing) MB90

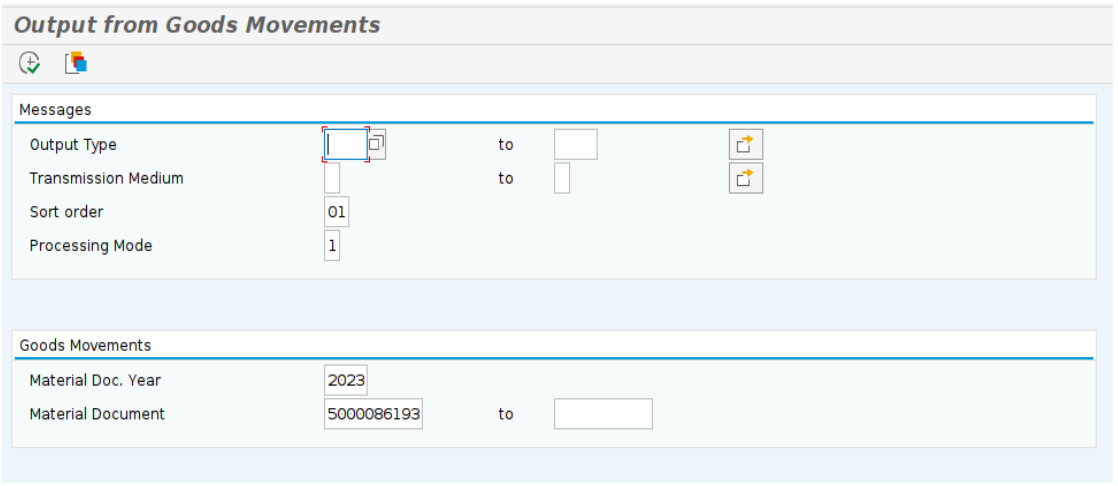

- Choose the *MIGO* T-code for *Output Processing for the Material Document*

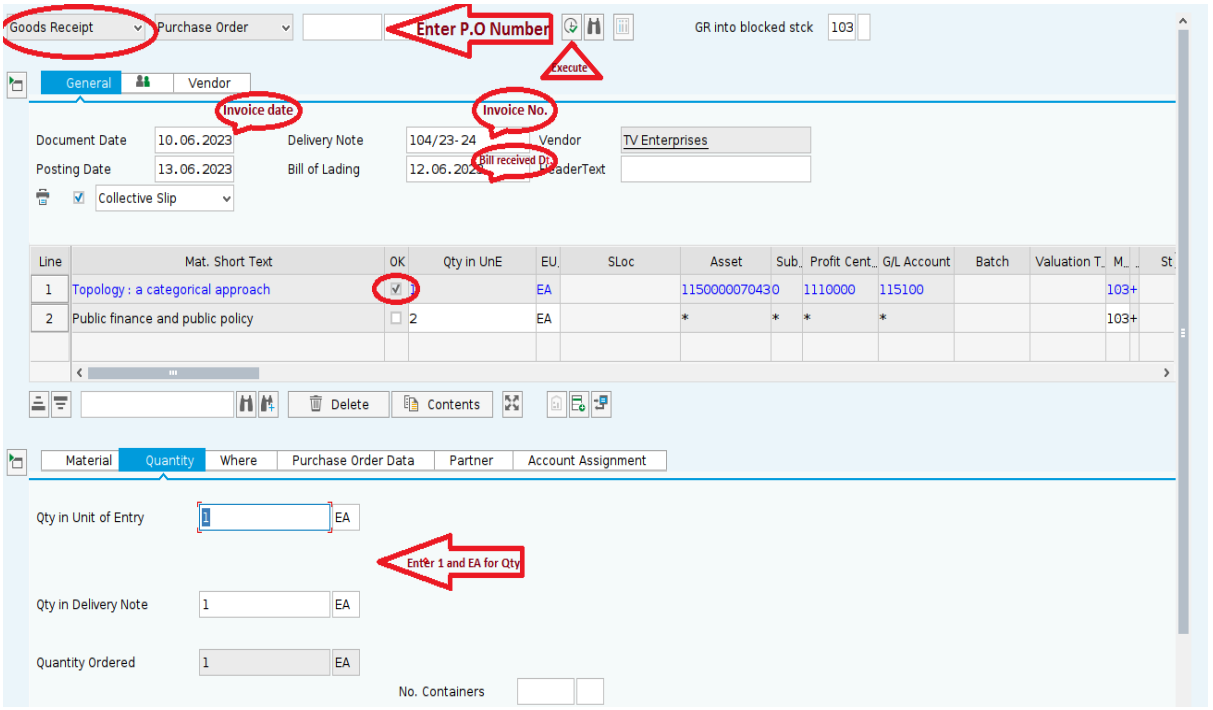

❖ Follow these steps to get output results for the purpose of output processing for material documents.

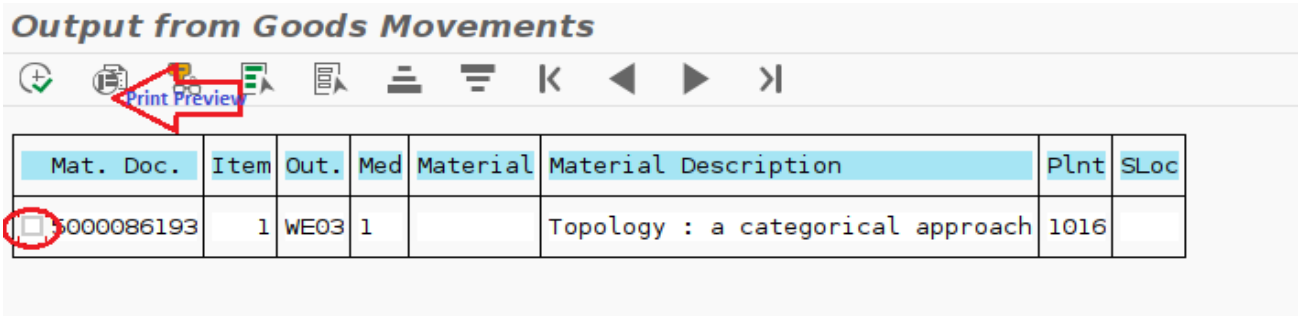

➢ Then, select the first of the two icons in the top-left corner of the window, the Execute icon. Click *Execute* .

➢ A new window will be opened.
➢ Click on the checkbox
➢ Select "Print Preview" from the icons
➢ Take a printout of the page

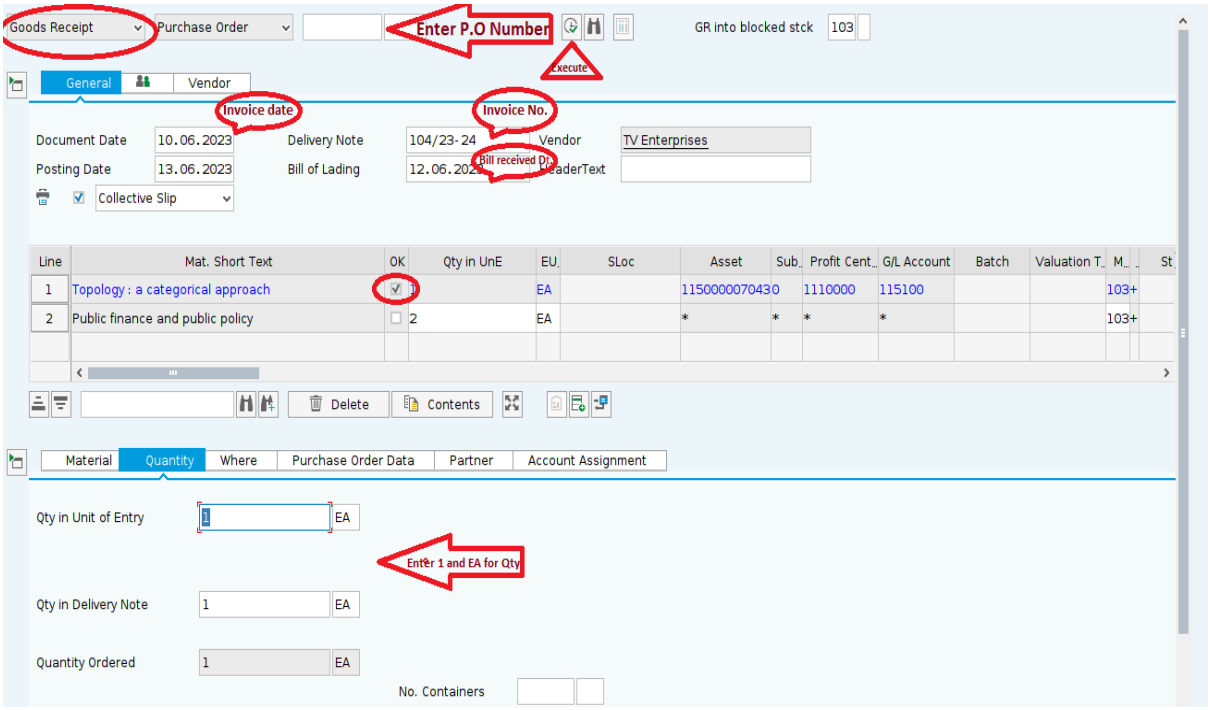

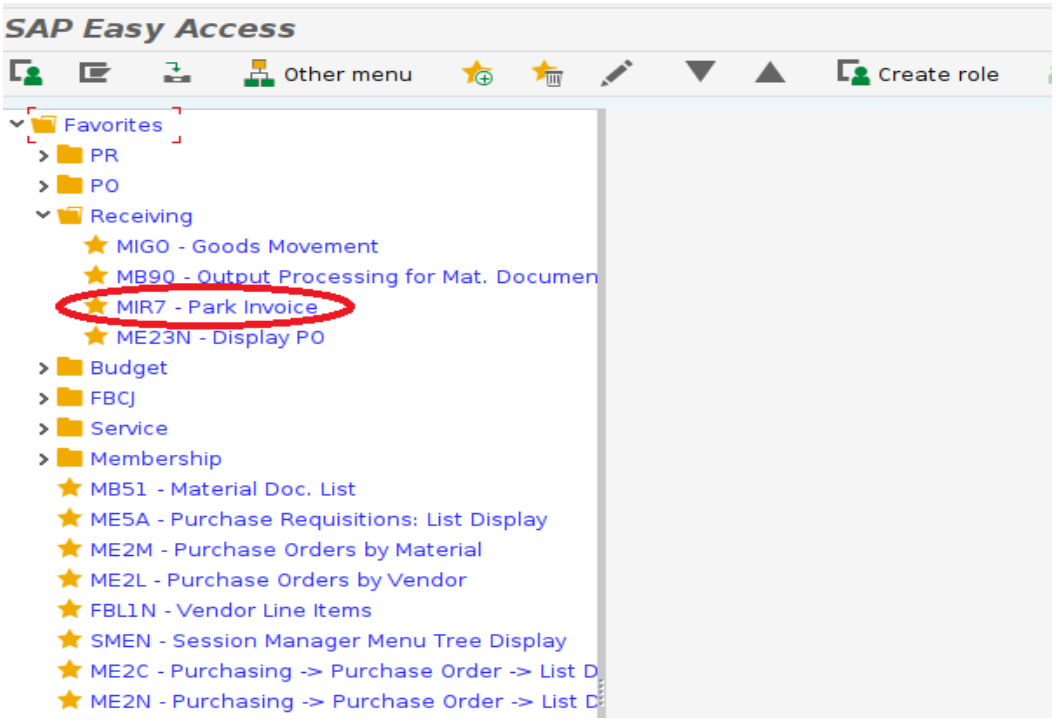

3.3.4 Park Invoice (MIR7)

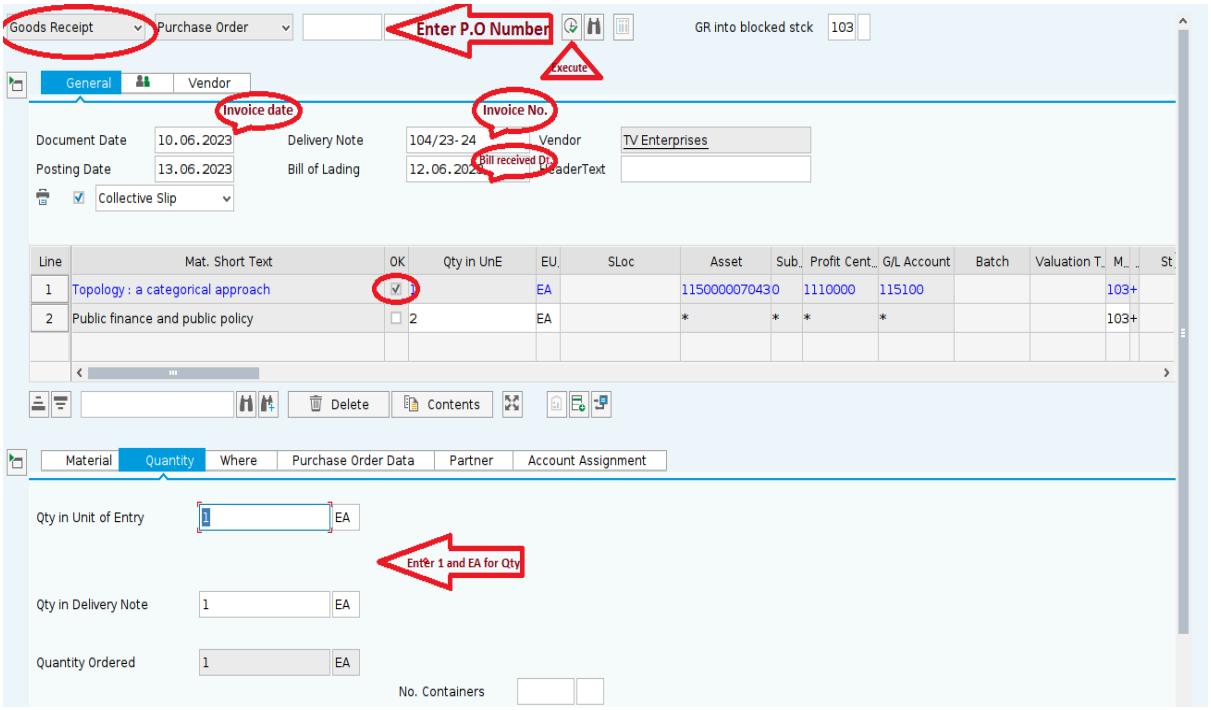

An invoice that has been entered (typically an incomplete one) but has not yet been posted in your books so that it can have an accounting impact is referred to as a "parked" invoice.

- Choose *MIR7* T-code for *Park Invoice*

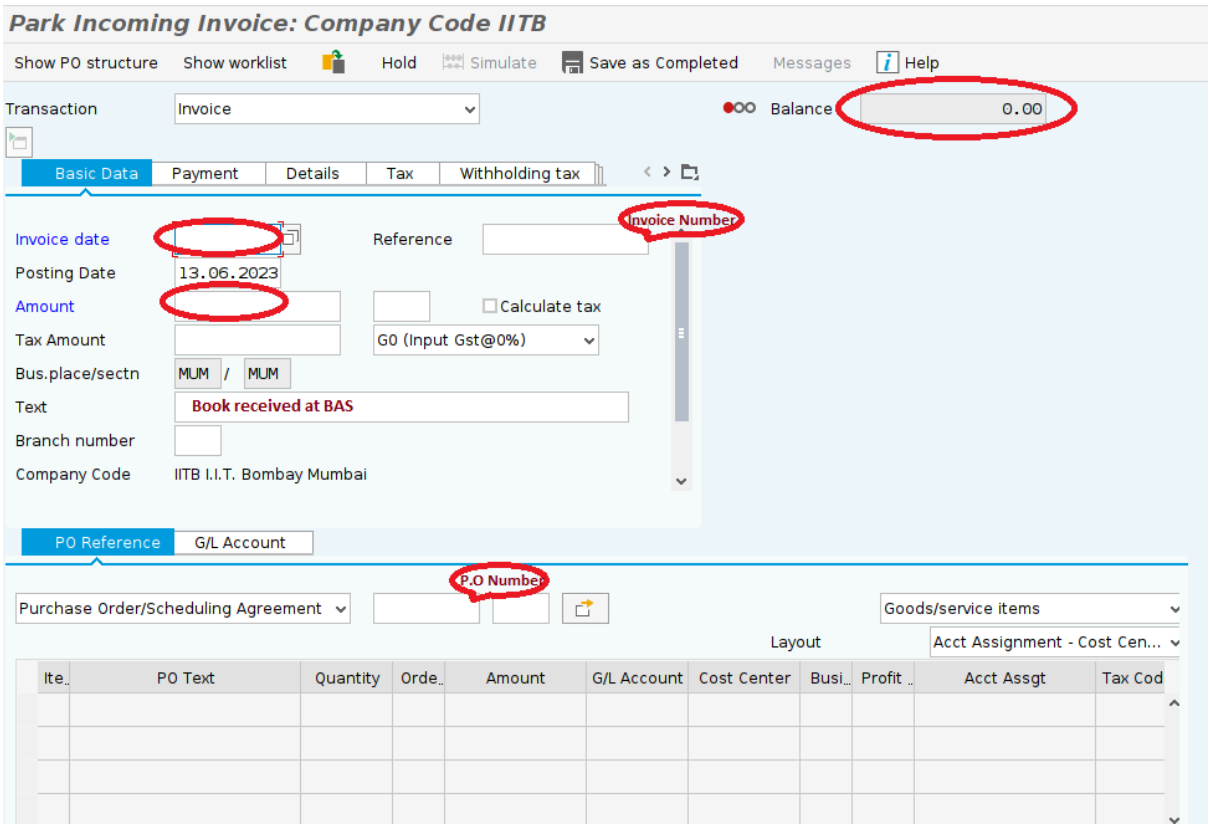

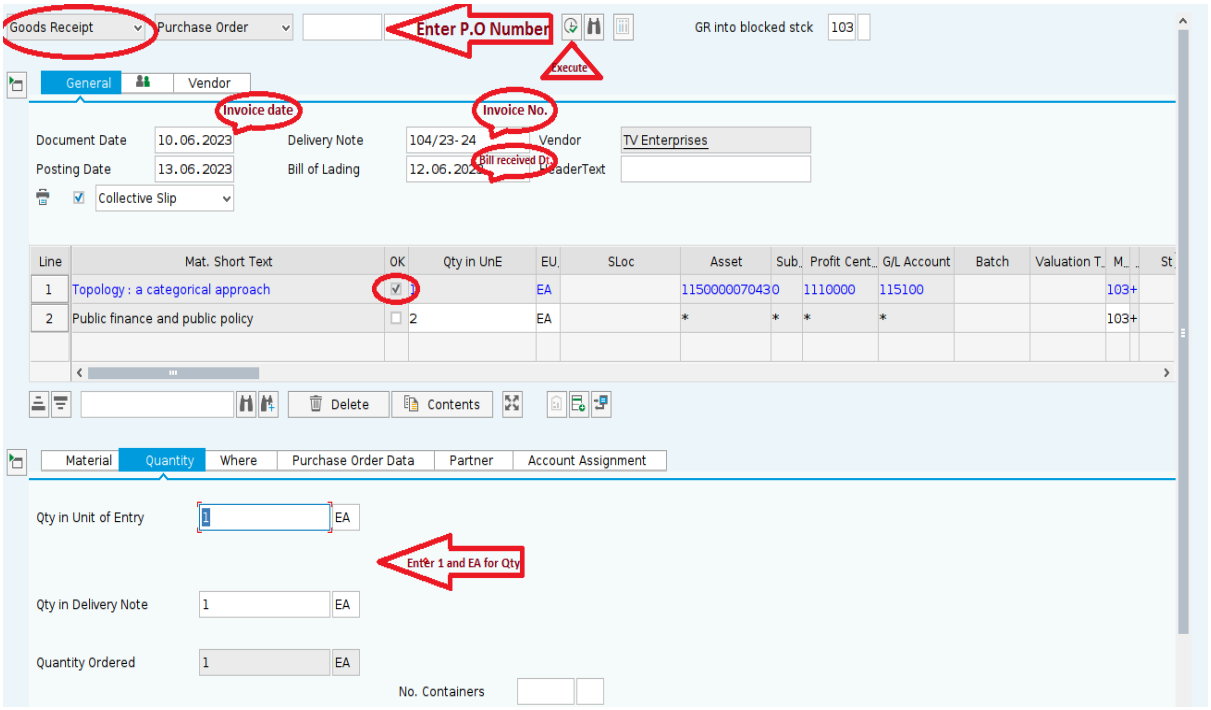

- To facilitate the *Park Invoice,* stick to the instructions.
  - ☐ Enter the Invoice date
  - ☐ Enter the Invoice number in the *Reference No. field*.
  - ☐ Input the *amount* for which the book was received.
  - ☐ In the *Text Field*, insert *" Book received at BAS."*

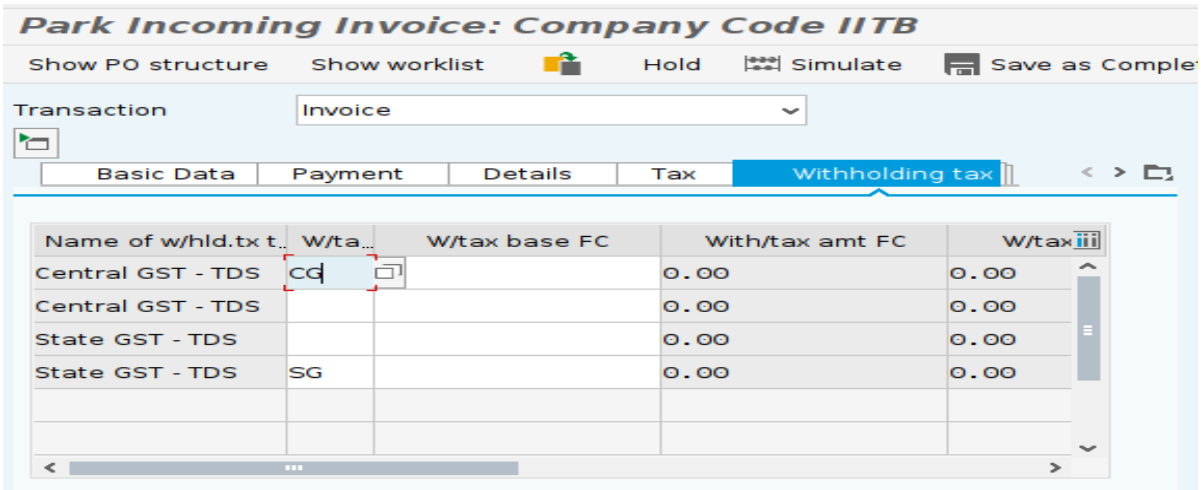

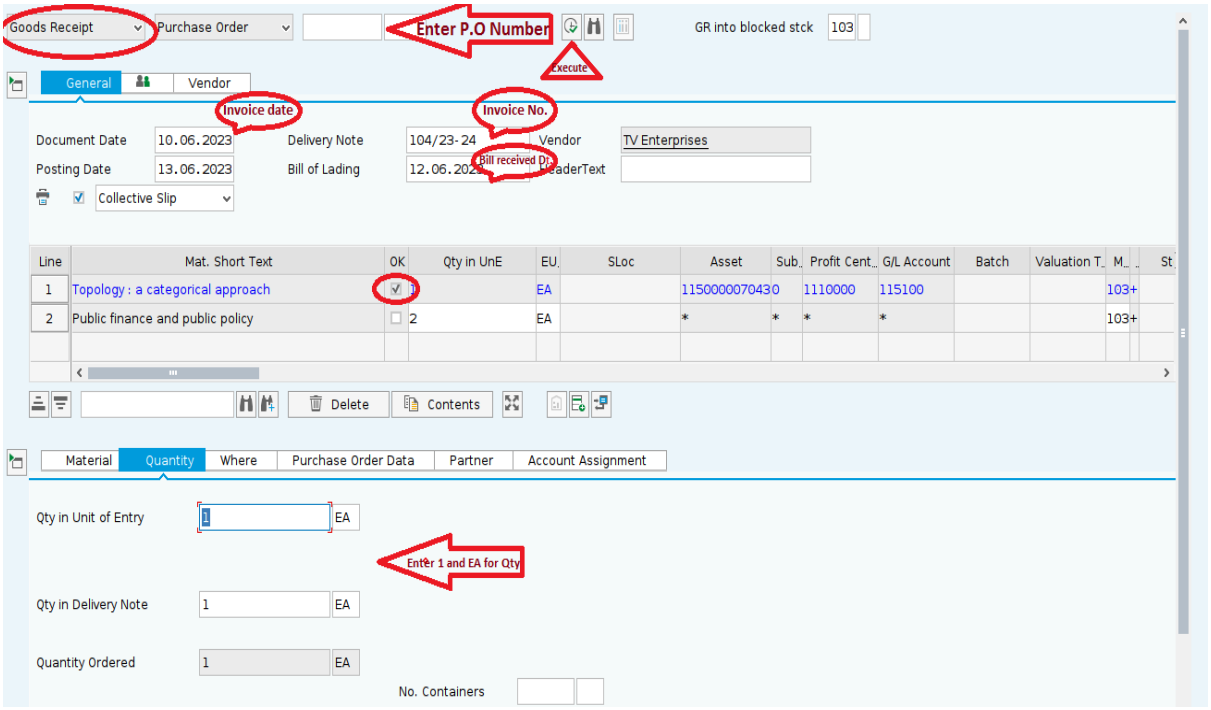

- ☐ Under the *P.O. reference tab* on the second part of the window, enter the *P.O. Number* in the box.
- ☐ Then press the *Enter button* on the keyboard.
- ☐ The title of the book will be displayed on the table at the bottom part of the window. **Must include a screenshot with a title**
- ☐ If there is a discrepancy between the costs of the book, some balance amount will be displayed in the balance box on the top right corner of the window.

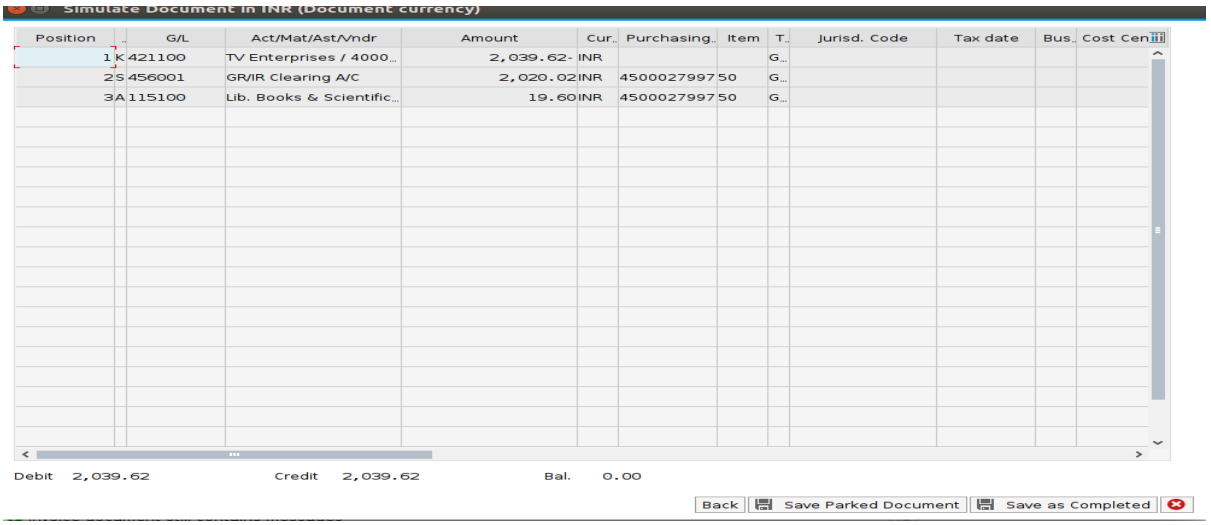

- ☐ If there is a balance, double-clicking the title will open a new window.
- ☐ Change the gross price to the original price.
- ☐ Then the balance will be zero.
- ☐ Go to the *withholding* tax tab.
- ☐ Remove *SG* and *CG* from the boxes.
- ☐ In the window's first row, select the Simulate icon.

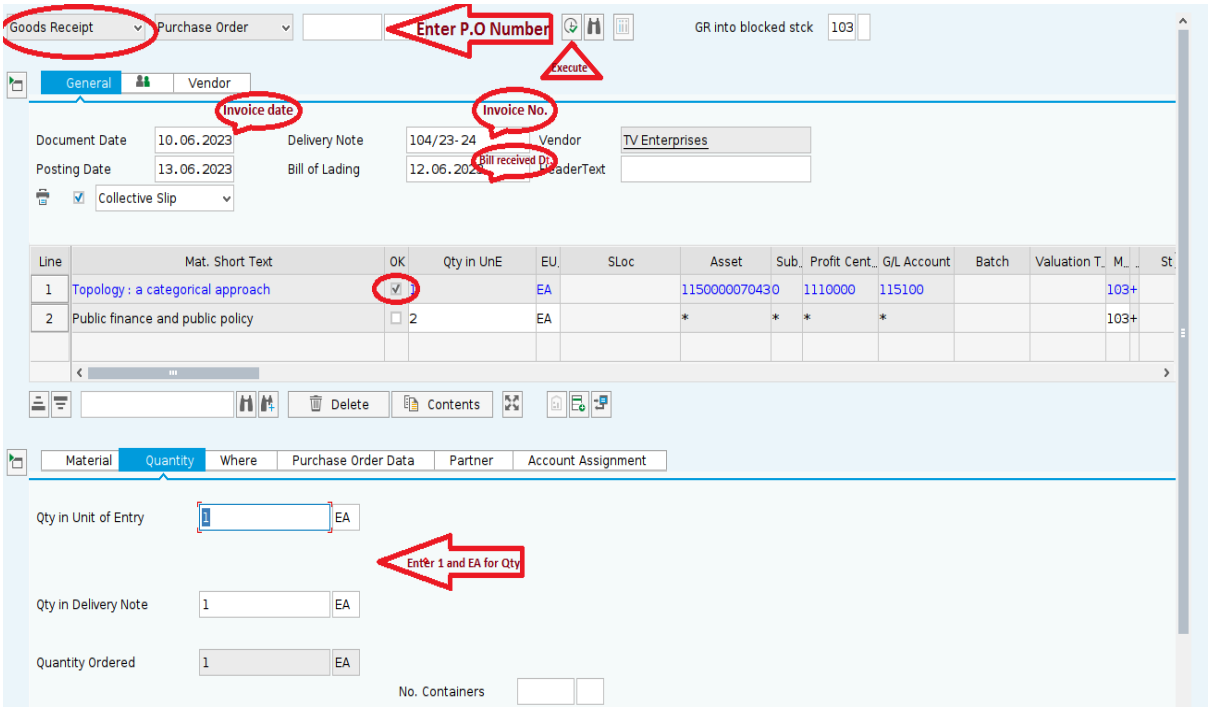

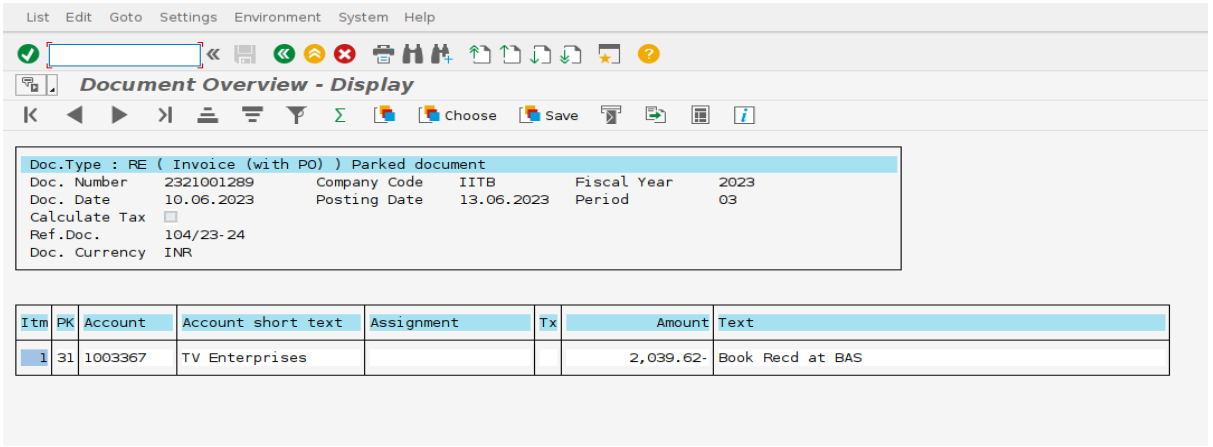

- Select Save Parked Document in the window's lower *left corner.*

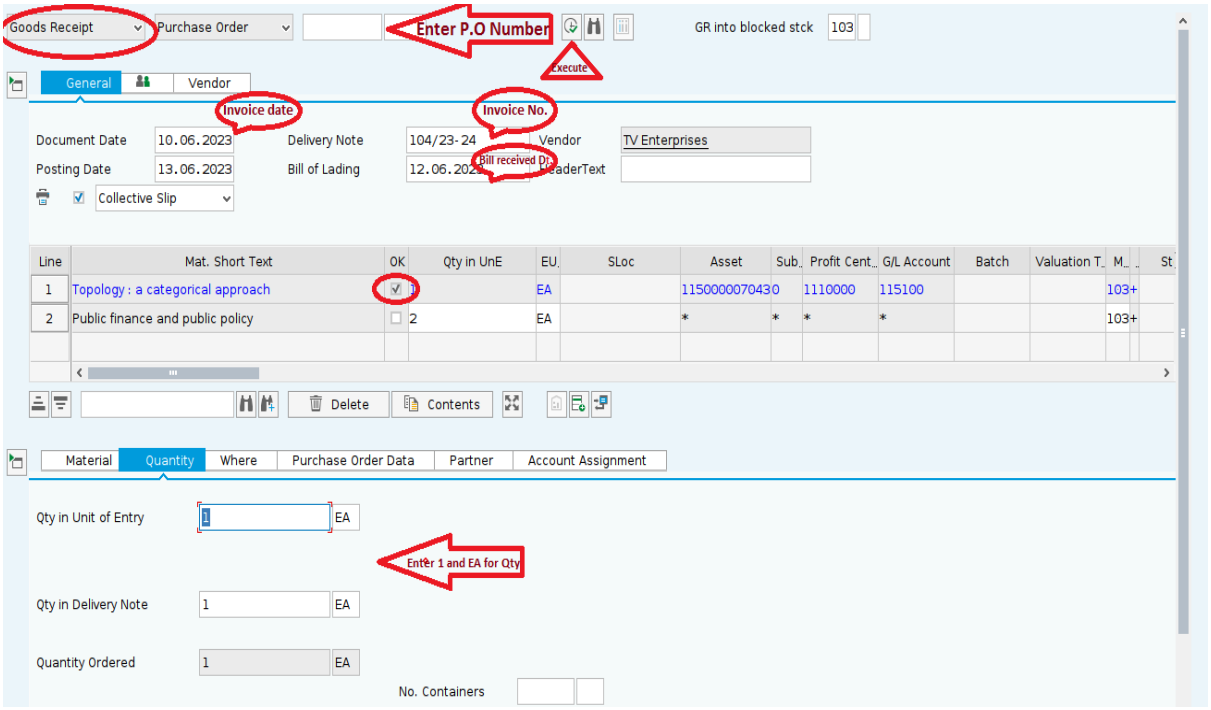

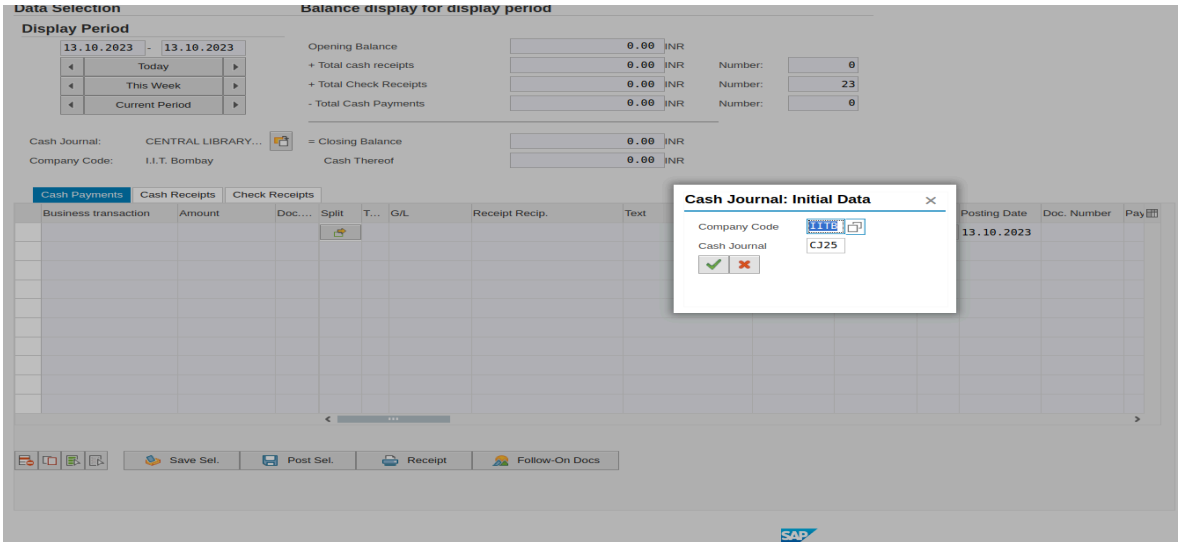

- Note down the document Number

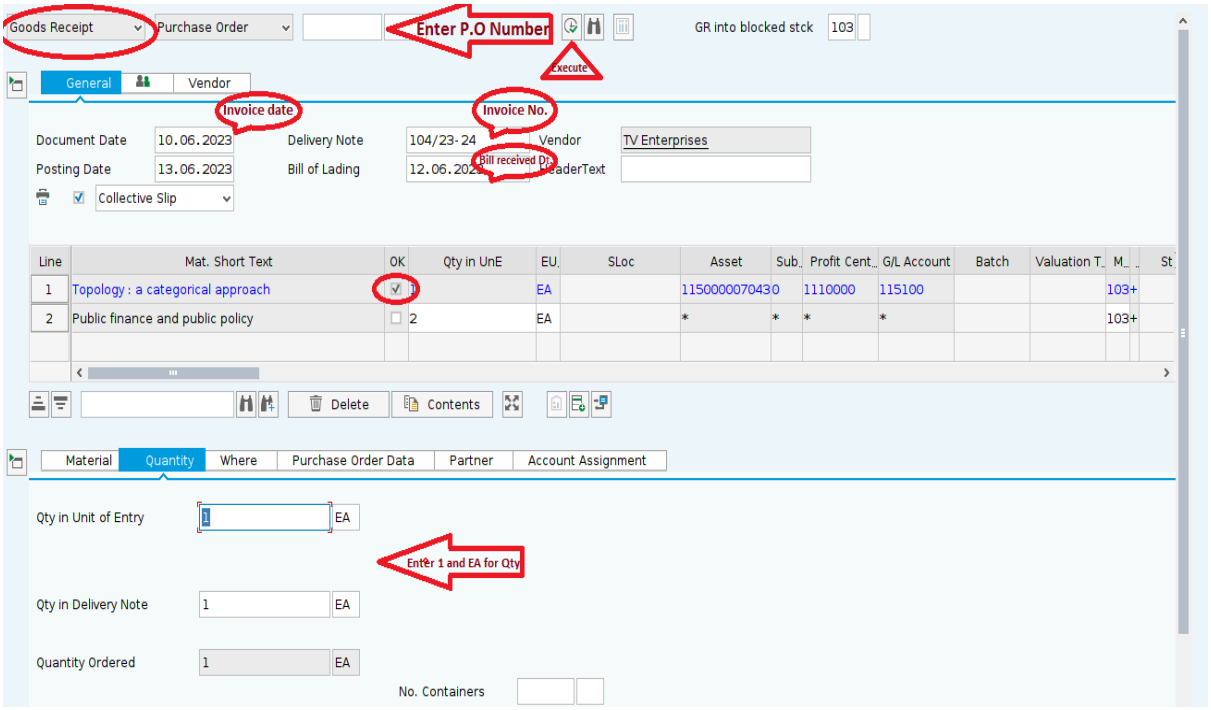

Book Exhibition: Receipt for Vendors generated in ERP (FV CJ25)

Choose *CJ25* T-code

- Online Receipt -Customer
- Amount -15,000
